YOUNG gentlemen, it pays to save. Even a little may be worth while.

Mr. Couzens, asked to pay $9,000,000 more income tax, had saved $900 when he met Ford. That gave him his chance. By and by he sold his interest to Ford for $30,000,000. If he hadn't saved the $900, he could not have the government suing him for $9,000,000.

Moral—Save something, if only a little.

SECRETARY KELLOGG says the red and wicked communist Bolsheviki are aiming at Latin America. They control and force the Nicaragua-Mexica policy, trying to destroy what they call our United States capitalistic imperialism.

They must be hopeful, wicked Bolsheviki, for American capitalistic imperialism has only started And as for Latin-Americans, whoever thinks communism, with its theory of dividing, will appeal to them does not know them.

When agents of Moscow tell Latin-America to divide wealth, they will hear a loud manana reaching from the warm Rio Grande to freezing Terra Del Fuego.

THE British, that send flying men with bombs and ships with heavy guns wherever British money or life is menaced, display increasing respect for President Coolidge, now that he tells our neighbors what they may and may not do.

The London Times thinks we are modifying th Monroe doctrine, claiming special rights of inter[illegible] ect, we are.

THE Giornale d'Italia says: "United States policy may be called one of authority and force" and adds, "when necessary there are cannon behind American dollars." Also correct. Dollars without cannon behind them are feeble things, like flabby jelly fish. It is the cannon that transforms flabby dollars into vertebrae dollars.

Is Europe Moving Into Asia?

Europe is about 100,000 square miles smaller than it was ten years ago. One great city of more than 100,000 people, Perm, has been moved out of Europe into Asia.

The boundary between these continents has been radically altered by the Soviet government, great slices of land now being considered in Asia although west of the Ural Mountains, which formed the old boundary line. An area almost as large as Italy or Poland has been shifted to another continent.

These changes are shown for the first time on any map in the new MAP OF EUROPE secured by our Washington Information Bureau. Copies of this up-to-date map, in full colors, with complete statistical data about Europe, may be had by any reader for a postage and handling charge of ten cents.

The cold wave will be felt in all sections of Ohio., West Virginia and the middle west in general, Alexander declared.

BLIZZARD HITS CHICAGO THEN MOVES ON EAST

Weather Races Toward Seaboard States.

FIVE ARE DEAD

Storm General Over Middle and Far Western Sections.

CHICAGO, Jan. 14.—The mid-winter blizzard that buried Chicago under a foot of snow, paralyzed transportation and brought death and injury to a score of citizens, had vacated the middle west today and is now racing toward the Atlantic seaboard states. Zero weather will follow in its wake, according to weather bureau forecasts.

The storm was general over the middle and far western parts of the country. Nearly two-thirds of the area of the United States today is covered under a blanket of snow ranging in depth from three to 15 inches.

Five persons are dead in Chicago as a result of accidents directly caused by the heavy snow. A force of 15,000 men were unable to keep the streets and lanes of transportation open.

Serious interruptions to traffic are reported from all sections of the affected area. Railroad trains were running far behind schedule. Motor traffic in some sections was at a complete standstill owing to the drifted conditions of the highways. Air mail service ont of Chicago has been temporarily suspended.

Wire communication over the affected districts is so badly crippled that no accurate account of conditions or the extent of suffering and hardship can be obtained.

"The storm in the middle states is now passing rapidly to the eastward," says the weather forecast. "Another storm is pushing in from the North Pacific region. The cold area lies between these two storms, which will cover the northwestern states with temperatures ranging from zero to ten below."

Collector Faces Second Charge of Embezzlement Here

Another charge of embezzlement, preferred by George C. Heckathorn, has been filed against Herbert Gary, head of a local collecting agency, arrested here Wednesday night.

Gary pleaded not guilty to charges of embezzlement and removing mortgaged property when he faced Judge Hanley this morning and was held under $1,200 bond pending a hearing.

The first information was filed by Lee Copenhaver, who charged Gary with embezzling $29.50 belonging to the C. W. Lowers & company grocery. Next came Joseph Rudolph, Dresden avenue furniture dealer, who charged him with having moved furniture and other furnishings upon which he held a mortgage.

Heckathorn, charges that Gary embezzled $18 which had been collected for him.

CHAPLIN WILL FIGHT WIFE'S DIVORCE SUIT TO BITTER END

Film Comedy King Blames Lita Grey's Family.

WANTS CHILDREN

Resents Dragging in Name of Edna Purviance.

NEW YORK, Jan. 14. — Charlie Chaplin, the king of film comedy, arrived in New York on the Twentieth Century limited today and told reporters that he would fight his wife's suit for a divorce "to the bitter end." He said the action brought by Lita Grey Chaplin in Los Angeles was instigated by his wife's family.

"I'm going to fight this thing out," he asserted. "I'm going to fight for the custody of my two children."

Chaplin resented the bringing of the name of Edna Purviance, noted screen actress, into his domestic difficulties.

"Certainly, she's on my payroll," Chaplin said. "She's on the payroll for $250 a week but that was the stipulation in her original contract.

"There was absolutely no reason for dragging Miss Purviance's name into this."

Smiles As He Poses.

Chaplin did not seem as depressed as reports from the west indicated. He was in Chicago yesterday. He smiled as he dropped off the train to face a horde of reporters and a battery of cameras. He posed amiably for pictures.

A large crowd gathered near the train, having learned of Chaplin's arrival. Chaplin tried to make his way to a waiting automobile but he was blocked by the reporters who shot questions at him.

In reply to one question Chaplin denied he is worth $16,000,000 or anything like that amount.

"Why," he declared, "I'm not worth one-half of six million dollars."

"Money Plot," He Says.

Chaplin characterized his wife's divorce action as "a money plot, pure and simple."

He declared that he intended to file a cross bill just as soon as he got back to California.

Charlie is not going to allow his martial troubles to interfere with his art, he said. He is going to resume work upon his newest picture, "The Circus," and complete it.

The famous comedian was as dapper as ever as he stepped from the train. He wore a cream colored fedora hat and a broadcloth overcoat with an astrakhan collar. His necktie was dark and he carried a cane.

A wan smile, as pathetic as that used in some of his pictures, hovered over Chaplin's face as the photographers rushed forward and began to request different positions for pic-

FIVE PERSONS SOUGHT BY POLICE IN CONNECTION WITH AFFAIR ESCAPE

Little Enthusiasm is Manifested in Washington for Peace Plan Put Forward by Senator Borah for Solution of Difficulties in Nicaragua as Well as Mexico.

DR. SACASA DEMANDS THAT U. S. FORCE WITHDRAW FROM NICARAGUA

MEXICO CITY, Jan. 14—Immediate withdrawal of the American forces from Nicaragua, under threat of an appeal to the Spanish-American nations for military aid to repel the Yankee invasion, has been demanded by Dr. Juan Sacasa, leader of the Nicaraguan rebels, in a note to United States Secretary of State Frank B. Kellogg, according to a dispatch from Guatemala received here.

The Guatemala dispatch states that it is based upon information received from the Sacasa headquarters.

WEST PALM BEACH, Fla., Jan. 14.—One man is dead and another suffering from serious injuries here today following an argument over the Mexican situation.

George Kellogg of Springfield, Mo., died this morning form the effects of three bullet wounds and W. H. Hoffman, also of Springfield, lies in a hospital with a bullet wound in his hip, while five others are sought by the police.

The men were [illegible] acquaintances eating dinner together in a Pal[illegible] cafe when they entered into a argument on the [illegible] situation, police said, which led to blows and th[illegible]ts. The five men sought escaped from the cafe while a waiter was summoning police.

By GEORGE R. HOLMES.

WASHINGTON, Jan. 14.—Little enthusiasm was manifested today in official quarters for the peace plan put forward by Senator William E. Borah in an effort to smooth away the administration's troublesome difficulties in Nicaragua and Mexico.

Borah suggested (1) that a new election be held in Nicaragua, with U. S. Marines acting as umpires to insure a fair count; and (2) that the controversy with Mexico over her new land and petroleum laws be submitted to arbitration.

Definite commitments as to the administration's attitude were difficult to obtain today, but it was evident that the stae deparment is cold to both proposals.

Principles at Stake.

In Nicaragua, Secretary of State Kellogg has decreed that Adolfo Diaz is the constitutional president of the country, and has sent marines and warships there to keep him in power against Dr. Juan B. Sacasa, who is recognized by Mexico as the constitutional head of the republic. Kellogg has maintained that a constitutional principle is at stake. Hence, any compromise by way of a new election might be interpreted as an abandonment of that principle.

In Mexico, the controversy hinges about the constitution of the country, and the state department is loath to submit a constitutional question to arbitration by The Hague, because it would establish a precedent that might come back to plague the United States. This government has always taken the position that a constitution, at least the American constitution, cannot be arbitrated. If it now should accept the principle that the Mexican constitution can be, it might be interpreted as an abandonment of its age-old stand. Also, it was pointed out, the state department contends the Mexican land laws are confiscatory and that involves another principle.

Broadly speaking, the state depart-

Shegog Confesses Judgment of $100 In Lawyers' Suit

Thomas Shegog, ceramic engineer, yesterday confessed judgment of $100 in the suit brought in municipal court by Brookes and Thompson for attorney fees.

When the case was called Shegog asked that the case be heard by a jury. A hurried call was sent for a jury and after the veniremen had been seated, Shegog asked that he be allowed five minutes in which to engage an attorney. He later returned with S. W. Crawford. Crawford and Attorney George E. Davidson, representing Brookes & Thompson, conferred and Shegog finally agreed to settle the claim for $100.

The suit was based upon Shegog's alleged breach in an agreement which he made with Brookes and Thompson to represent him in a suit for damages against Mrs. Abe Shapiro for injuries alleged to have been sustained in an automobile accident.

MOTHER'S 17-YEAR SEARCH FOR HER TWO SONS, ONCE INMATES OF FAIRMOUNT HOME, ENDS IN SHERIFF GEORGE WRIGHT'S OFFICE AT LISBON

A 17year search for her two sons, who as babies were placed in the Fairmount Children's Home at Alliance in 1910, ended yesterday when Mrs. Mary McCoy, now a resident of Detroit, was reunited with Russell Sitler, 19, and Edward Ruhl, 18, in the office of Sheriff George Wright.

Russell was found in the county jail where he was being held pending his transfer to the Mansfield reformatory to serve an indeterminate sentence upon a charge of grand larceny. Edward, the other son, was living at the home of Mr. and Mrs. Samuel Ruhl, Church Hill road in Elkrun township.

About 20 years ago, Mrs. McCoy married Edward Ridgley, an East Liverpool potter, who now resides in Broadway. About three years after their marriage, the mother became ill and Ridgley, without means of caring for his two children, one and two years old respectively, placed them in the Alliance home.

The mother was confined in the hospital for 18 months and in the meantime the two children were adopted, Russell going to the home of Mr. and Mrs. Albert Sitler, of Lisbon, and Edward being taken to the home of Mr. and Mrs. Samuel Ruhl, Elkrun township. Upon her release from the hospital the mother went to the children's home but was unable to learn by whom her two sons had been adopted.

Later Mr. and Mrs. Ridgley were divorced. The woman moved from East Liverpool to Detroit about 10 years ago and was remarried. Her second husband is dead, but today Mrs. McCoy is in comfortable circumstances.

Spent Hundreds of Dollars in Search.

Hundreds of dollars were spent by Mrs. McCoy in a search for the children. A few weeks ago Russell, the elder brother, was charged with the theft of $300 from the Samuel Ruhl home, the information having been furnished by Mrs. Myrtle Sitler, his foster mother. He was arrested in Beaver Falls and, brought back to Lisbon, admitted having taken $175.

"I'll make every effort to make good if given a chance," was young Sitler's comment when he faced Judge W. F. Lones a few days ago at which time he was sentenced to the reformatory.

An East Liverpool woman read of the arrest of young Sitler a few days ago and forwarded the newspaper clipping to Mrs. McCoy, with the suggestion that "this might be your son." Mrs. McCoy hurried to East Liverpool upon receipt of the letter and Wednesday evening went to Lisbon.

At the county jail Mrs. McCoy sobbed when she recognized the youth in custody of the sheriff as her eldest "baby."

"I've spent hundreds of dollars in an effort to find my boys and at last my efforts have been rewarded," said Mrs. McCoy as she put her arms around the boy.

At Russell's suggestion Mrs. McCoy went to the Ruhl farm where they found Edward working in the barn. A taxi driver informed the youth that "your mother wants to see you out in the car." The boy stepped to the road and in a few minutes was convinced that Mrs. McCoy was his mother. Without waiting to inform the Ruhl family of what had taken place, the youth, clad in a pair of overalls and a sweater coat, was taken to the county jail where the two brothers and their mother met under

CHAPLIN WILL FIGHT WIFE'S DIVORCE SUIT TO BITTER END

Film Comedy King Blames Lita Grey's Family.

WANTS CHILDREN

Resents Dragging in Name of Edna Purviance.

NEW YORK, Jan. 14. — Charlie Chaplin, the king of film comedy, arrived in New York on the Twentieth Century limited today and told reporters that he would fight his wife's suit for a divorce "to the bitter end." He said the action brought by Lita Grey Chaplin in Los Angeles was instigated by his wife's family.

"I'm going to fight this thing out," he asserted. "I'm going to fight for the custody of my two children."

Chaplin resented the bringing of the name of Edna Purviance, noted screen actress, into his domestic difficulties.

"Certainly, she's on my payroll," Chaplin said. "She's on the payroll for $250 a week but that was the stipulation in her original contract.

"There was absolutely no reason for dragging Miss Purviance's name into this."

Smiles As He Poses.

Chaplin did not seem as depressed as reports from the west indicated. He was in Chicago yesterday. He smiled as he dropped off the train to face a horde of reporters and a battery of cameras. He posed amiably for pictures.

A large crowd gathered near the train, having learned of Chaplin's arrival. Chaplin tried to make his way to a waiting automobile but he was blocked by the reporters who shot questions at him.

In reply to one question Chaplin denied he is worth $16,000,000 or anything like that amount.

"Why," he declared, "I'm not worth one-half of six million dollars."

"Money Plot," He Says.

Chaplin characterized his wife's divorce action as "a money plot, pure and simple."

He declared that he intended to file a cross bill just as soon as he got back to California.

Charlie is not going to allow his martial troubles to interfere with his art, he said. He is going to resume work upon his newest picture, "The Circus," and complete it.

The famous comedian was as dapper as ever as he stepped from the train. He wore a cream colored fedora hat and a broadcloth overcoat with an astrakhan collar. His necktie was dark and he carried a cane.

A wan smile, as pathetic as that used in some of his pictures, hovered over Chaplin's face as the photographers rushed forward and began to request different positions for pic-

ANOTHER IS SERIOUSLY INJURED IN GUN FIGHT IN PALM BEACH CAFE

George Kellogg, of Springfield, Mo., Shot Three Times, Succumbs in Hospital, While Chance Acquaintance is Wounded in Hip After Argument Regarding Calles Attitude.

FIVE PERSONS SOUGHT BY POLICE IN CONNECTION WITH AFFAIR ESCAPE

Little Enthusiasm is Manifested in Washington for Peace Plan Put Forward by Senator Borah for Solution of Difficulties in Nicaragua as Well as Mexico.

DR. SACASA DEMANDS THAT U. S. FORCE WITHDRAW FROM NICARAGUA

MEXICO CITY, Jan. 14—Immediate withdrawal of the American forces from Nicaragua, under threat of an appeal to the Spanish-American nations for military aid to repel the Yankee invasion, has been demanded by Dr. Juan Sacasa, leader of the Nicaraguan rebels, in a note to United States Secretary of State Frank B. Kellogg, according to a dispatch from Guatemala received here.

The Guatemala dispatch states that it is based upon information received from the Sacasa headquarters.

WEST PALM BEACH, Fla., Jan. 14.—One man is dead and another suffering from serious injuries here today following an argument over the Mexican situation.

By GEORGE R. HOLMES.

WASHINGTON, Jan. 14.—Little enthusiasm was manifested today in official quarters for the peace plan put forward by Senator William E. Borah in an effort to smooth away the administration's troublesome difficulties in Nicaragua and Mexico.

Borah suggested (1) that a new election be held in Nicaragua, with U. S. Marines acting as umpires to insure a fair count; and (2) that the controversy with Mexico over her new land and petroleum laws be submitted to arbitration.

Definite commitments as to the administration's attitude were difficult to obtain today, but it was evident that the stae deparment is cold to both proposals.

Principles at Stake.

In Nicaragua, Secretary of State Kellogg has decreed that Adolfo Diaz is the constitutional president of the country, and has sent marines and warships there to keep him in power against Dr. Juan B. Sacasa, who is recognized by Mexico as the constitutional head of the republic. Kellogg has maintained that a constitutional principle is at stake. Hence, any compromise by way of a new election might be interpreted as an abandonment of that principle.

In Mexico, the controversy hinges about the constitution of the country, and the state department is loath to submit a constitutional question to arbitration by The Hague, because it would establish a precedent that might come back to plague the United States. This government has always taken the position that a constitution, at least the American constitution, cannot be arbitrated. If it now should accept the principle that the Mexican constitution can be, it might be interpreted as an abandonment of its age-old stand. Also, it was pointed out, the state department contends the Mexican land laws are confiscatory and that involves another principle.

Broadly speaking, the state depart-

Shegog Confesses Judgment of $100 In Lawyers' Suit

Thomas Shegog, ceramic engineer, yesterday confessed judgment of $100 in the suit brought in municipal court by Brookes and Thompson for attorney fees.

When the case was called Shegog asked that the case be heard by a jury. A hurried call was sent for a jury and after the veniremen had been seated, Shegog asked that he be allowed five minutes in which to engage an attorney. He later returned with S. W. Crawford. Crawford and Attorney George E. Davidson, representing Brookes & Thompson, conferred and Shegog finally agreed to settle the claim for $100.

The suit was based upon Shegog's alleged breach in an agreement which he made with Brookes and Thompson to represent him in a suit for damages against Mrs. Abe Shapiro for injuries alleged to have been sustained in an automobile accident.

Mayor, Director And Fire Chief Inspect Theatres

Mayor Ralph C. Benedum, Service-Safety Director J. W. Moore and Fire Chief Thomas Bryan have completed a fire inspection of East Liverpool's four down town theatres and movie houses.

The playhouses were inspected from roof to cellar, a thorough investigation being made as to fire exits and escapes. Suggestions for minor changes were made.

No serious fire hazards were found in any of the theatres, the officials said.

MOTHER'S 17-YEAR SEARCH FOR HER TWO SONS, ONCE INMATES OF FAIRMOUNT HOME, ENDS IN SHERIFF GEORGE WRIGHT'S OFFICE AT LISBON

A 17year search for her two sons, who as babies were placed in the Fairmount Children's Home at Alliance in 1910, ended yesterday when Mrs. Mary McCoy, now a resident of Detroit, was reunited with Russell Sitler, 19, and Edward Ruhl, 18, in the office of Sheriff George Wright.

Russell was found in the county jail where he was being held pending his transfer to the Mansfield reformatory to serve an indeterminate sentence upon a charge of grand larceny. Edward, the other son, was living at the home of Mr. and Mrs. Samuel Ruhl, Church Hill road in Elkrun township.

About 20 years ago, Mrs. McCoy married Edward Ridgley, an East Liverpool potter, who now resides in Broadway. About three years after their marriage, the mother became ill and Ridgley, without means of caring for his two children, one and two years old respectively, placed them in the Alliance home.

The mother was confined in the hospital for 18 months and in the meantime the two children were adopted, Russell going to the home of Mr. and Mrs. Albert Sitler, of Lisbon, and Edward being taken to the home of Mr. and Mrs. Samuel Ruhl, Elkrun township. Upon her release from the hospital the mother went to the children's home but was unable to learn by whom her two sons had been adopted.

Later Mr. and Mrs. Ridgley were divorced. The woman moved from East Liverpool to Detroit about 10 years ago and was remarried. Her second husband is dead, but today Mrs. McCoy is in comfortable circumstances.

Spent Hundreds of Dollars in Search.

Hundreds of dollars were spent by Mrs. McCoy in a search for the children. A few weeks ago Russell, the elder brother, was charged with the theft of $300 from the Samuel Ruhl home, the information having been furnished by Mrs. Myrtle Sitler, his foster mother. He was arrested in Beaver Falls and, brought back to Lisbon, admitted having taken $175.

"I'll make every effort to make good if given a chance," was young Sitler's comment when he faced Judge W. F. Lones a few days ago at which time he was sentenced to the reformatory.

An East Liverpool woman read of the arrest of young Sitler a few days ago and forwarded the newspaper clipping to Mrs. McCoy, with the suggestion that "this might be your son." Mrs. McCoy hurried to East Liverpool upon receipt of the letter and Wednesday evening went to Lisbon.

At the county jail Mrs. McCoy sobbed when she recognized the youth in custody of the sheriff as her eldest "baby."

"I've spent hundreds of dollars in an effort to find my boys and at last my efforts have been rewarded," said Mrs. McCoy as she put her arms around the boy.

At Russell's suggestion Mrs. McCoy went to the Ruhl farm where they found Edward working in the barn. A taxi driver informed the youth that "your mother wants to see you out in the car." The boy stepped to the road and in a few minutes was convinced that Mrs. McCoy was his mother. Without waiting to inform the Ruhl family of what had taken place, the youth, clad in a pair of overalls and a sweater coat, was taken to the county jail where the two brothers and their mother met under

MENJOU FILM IS KNOCKOUT

The premier showing of a D. W. Griffith production is always an event. The first screening of his latest Paramount picture at the Ceramic theatre last night was more than an event. It was a phenomenon!

"Sorrows of Satan," Marie Corelli's famous novel could not have been given a finer presentation. From the very first fade-in to the last fade-out, the film spells "Box Office." That—combined with the drama, pathos, spectacle and beauty which is Griffith, and which only a Griffith is capable of giving—makes "Sorrows of Satan" a picture to be remembered.

That most likable of thespians, Adolphe Menjou, gives his usual nothing-to-be-wished-for performance. As "The King on Main Street" and "A Social Celebrity," Menjou won tons of praise, but when placed next his impersonation of Satan, those characters fade into obscurity. Used as we are to the musical comedy version of a red-coated devil with horns and fork, Menjou makes Lucifer a modern man of the world, and does it in a understanding manner.

Ricardo Cortez, Carol Dempster and Lya de Putti, the other featured players, are deserving of words of praise. Cortez, in blossoming out as a dramatic actor, gives a fine account of himself. Nothing more need be said of Carol Dempster's performance other than to write—the perfect Griffith heroine. And as for Lya de Putti—Lya's like no one else—a revelation!

In adapting "Sorrows of Satan," John Russell and George Hull have laid the story against the background provided by a modern city. No review could be complete without making mention of the picture's marvelous photographic feats and dexterous lighting effects. Cameramen and technical experts have covered themselves with glory.

Forrest Halsey prepared the scenario. Other players appearing in the picture include Ivan Lebedeff, Lawrance O'Orsay and Marcia Harris.

British Tennis Body Adopts Amateur Rules; Drastic Regulations

LONDON.—With the object of keeping the game clean and free from any taint of professionalism the British Lawn Tennis association has decided that the writing of reports for the Press by a player is a breach of amateur status.

It also decided to forbid players accepting payments for lecturing or giving radio talks on the game, or even permitting a name to be mentioned as interviewed for newspaper publication. No decision was reached on the question of lecturing for payment. This matter will be raised at a later meeting.

These decisions will go to the International Lawn Tennis association for ratification. Until this occurs they are only in the nature of pious resolutions.

One decision will, however, have instant effect. This bars a professional at any other sport playing as an amateur at lawn tennis.

CHAPTER THIRTEEN.

Then I turned by attention to my companion. I cut his bonds with my pocket knife, only to find that he was too stiff to move.

I set to work to rub his ankles while I asked him how he came to be there.

He was, it appeared, a New York detective who had got on the track of a big deal in the illicit drug market. There was, he explained, a section of the New York police especially concerned with the smuggling of narcotics, and that section had been having a pretty thin time of it in the years immediately following the War. Three of its members had mysteriously disappeared within the last twelve months, and meanwhile the position in regard to the trade was very disturbing from the official point of view.

"When I tell you," said my new friend, who called himself Cyrus P. Claypole, "that there are over two million registered drug addicts in the United States, and that our department reckons that the turnover of the dope merchants last year amounted to many million dollars, you may form some idea of the magnitude of this proposition."

Mr. Claypole had apparently been successful in conducting one or two minor operations which had resulted in three fairly large seizures by the customs. This had brought him to the notice of his chiefs, and they had sent him on a secret mission to Europe with the object of endeavoring to track down the headquarters of the gang, which, according to information, was conducting operations so vast and so world-wide that their exact extent could never be fully known.

I mentioned the "inner ring" to which references had been made that morning at the meeting of the Opium Committee of the League.

"Those guys were right," said Claypole. "There's a sure enough ring, all right, and the head of it is that same yellow-faced Japanese who owns this high-class residence in which we are now confined."

I told him of my interview with the Japanese in the room of the yellow hangings.

"Seems as though he's the leading light, and I reckon he's about as wicked as he looks. I'm dead sure he did for my pal, Harold Lynch, in 'Frisco, and Charlie Malone could have sent us a word in season if he hadn't been found in pieces, poor fellow, on the streets of Tokio."

Claypole went on to tell me that he got on the track of the gang through a Paris agent, but that his operations had been almost immediately discovered, and that he had since had to flee for his life. He had evidently been pretty hard pressed, for just before I had met him at Dijon he had in Paris twice narrowly esaped from two inexplicable and seemingly fortuitous street accidents, one in the Place de la Concorde, and another in the rue St. Honreo. He had, however, eventually reached the Gare de Lyon and boarded the train, as he thought, without detection.

I listened to his story in amazement. I could scarcely believe my ears. That the illicit drug traffic was a grave problem I knew, and I was well aware that there were millions of broken-spirited creatures in the grip of the triple fiends, morphia, heroin and cocaine. But that the pedlars of these drugs carried on their operations in so vast a scale that murder counted apparently for nothing was almost inconceivable. But there was no getting away from the facts.

Claypole related how he had been abducted from the bedroom at Dijon.

"They must have doped me," he said. "For I woke up next morning with a head like a home-grown cauliflower."

"I had something of a head myself," I said. "And now I come to think of it, there was a strange sort of smell in the room."

He had been taken by car straight to the house in which we were now immured, where they had questioned him as to his precise knowledge of their doings. They had met with little success, and the Japanese had decided that Claypole was too dangerous to be left alive. Preparations for his demise had been in progress when I arrived on the scene.

Though it takes some time to set this down on paper, it did not take long for Cloypole to tell me his tale. Indeed, I had not finished rubbing his wrists and ankles when he had finished. I had, however, little time to tell him of my own adventures, or of the mysterious handkerchief, for he had by now partially recovered the use of his limbs and was eager to be up and doing.

"Lucky you found that high-grade exit of Count Emilco," he said. "Where does it land us when we arrive?"

"It lands us in a well," I replied. "And as far as I can see, that's about as far as we are likely to get."

"It's the best we can do," he urged. "There's no earthly chance of getting away through the house."

As he spoke, we heard footsteps descending.

"Here comes that darned ice-cream merchant with a complete outfit for the heavenly pastures," he said.

"Wait a moment," I whispered, "if he finds the door locked, he'll suspect something and they'll watch the well. We must blow out the lights and leave the door unlatched. It'll take him some time to discover what has happened."

"All right," he nodded. 'I'll douse the glim. Lead on, Macduff, and Cyrus P. Claypole will follow."

I stole across to the door and turned the key softly, while Claypole put out the light. Then we groped our way to the sliding panel. Just as we slipped through I heard the voice of Marce.

"What the devil have you done with the light, Fugi?"

I called back, endeavoring to imitate as best I could Fugi's voice.

"It has gone out, Signor. There is no oil. You will have to get another lamp."

Marce said something which I could not catch from the other side of the door, and presently I heard him depart again, grumbling, into the darkness. We had escaped for the moment.

Taking Claypole by the hand, I pushed off along the dark passage. Presently we came to the water.

"Can you swim?" I whispered.

"You bet. But I don't cotton to the idea of a cold bath."

It's not far," I assured him

I uncoiled the silk rope as I spoke, and handed one end of it to him, keeping the end to which the stick was attached round my waist.

"Hold on to this and follow me," I said. "You won't have to hold your breath for very long."

We waded down the slope towards the opening till the water closed over our heads. Then I struck out vigorously, feeling the rope tugging behind me as Claypole labored to keep the pace I set. In a few seconds we had reached the hole by which I had entered the passage, and I shot up into the well, my companion behind me, letting go the rope as he came to the surface. It was an enormous relief to be in the open once more, and I breathed the night air gratefully. The sky above was gray black, with one or two pale stars distantly shining.

Claypole swam cautiously round our prison, feeling the sides of the well carefully as he did so. Presently he stopped and whispered back: "Say, friend, will you come over here?"

I swam across to him, and feeling where he had directed, struck my knees suddenly against an uneven stone about three feet below the surface of the water. I put my foot down and found it was broad enough to rest most of my weight upon it.

"I've got an idea," said my companion. "Are you still holding on to that piece of furniture?"

I passed him the leg of the couch. He unwound the silk rope from my waist and retied one end to the stick.

"Now," he went on, "I've got to climb on your back. Think you can hold yourself steady?"

"I'll try," I replied.

I succeeded in wedging both feet on the little ledge and, raising myself out of the water, wedged my hands into two uneven crevices on the wall side of the well. There I stood in a semi-upright position, halfway out of the water, but my balance was not very secure.

My companion, seized me by the wrist and began to climb with great caution up my back on to my shoulders. When he was halfway up the strain became too great and I fell back into the water with a loud splash.

We listened eagerly for any sound as we came to the surface again, but all was silent save our own breathing.

"Once more into the breach, dear friend," said Claypole cheerfully, and I could not help but admire his spirit.

With some difficulty we found the stone again, and I hoisted myself up. This time we were more successful. My companion succeeded in getting himself up on to my shoulders and reared himself upright against the side of the well. He took a length of my rope, with the leg of the couch attached to it, and swung it upwards. After three or four attempts he managed to get the leg over the top of the well, where it stuck fast in some unseen projection on the other side. He tugged at the rope gingerly and then let himself slide as noiselessly as possible into the water again.

"Now," he said, "I'll go first."

Death of Robert F. Wolfe

The sudden death in Columbus yesterday of Robert F. Wolfe, for years a power in business and politics as well as a publisher of two newspapers, stunned Ohio, his native state, in the prosperity of which he had played no minor role.

The owner of the Columbus Dispatch and Ohio State Journal was killed when he fell from the ledge outside the windows of his office on the fifth floor of the Dispatch building, which was a monument to his success in the newspaper business.

Few, if any, men have had a more varied career than Bob Wolfe, as he was familiarly known. Canal boat driver, ordinary seaman on a schooner, newsboy, cypress swamp worker, cowboy, miner, shoemaker, shoe salesman and later manufacturer. newspaper columnist and newspaper owner—these were few of the milestones in his career. And in each of them he never knew failure.

He was powerful and fearless. Seemingly blunt and gruff at times, he always was outspoken and vigorous and his judgment shrewd and keen, but among his intimate friends he was known as kind and generous. He was especially beloved for his interest in charities, and he had contributed thousands of dollars in benevolences.

He was a leader in the Columbus Community Chest and similar activities during the World war. And he was known as "Commodore" because of his relief work in the 1913 flood. He canvassed the submerged zone and where money was needed he gave it. And later, when asked to put in a claim for reimbursement, he replied to the adjutant general of Ohio, "I didn't ask you or the state whether I should be friendy to my neighbors when they needed help." And this spirit was typical in all his philanthropies. He gave always with the stipulation that the donor's identity should be a secret.

Robert F. Wolfe was one of the outstanding citizens of the Buckeye state, and in his death Ohio loses a man whose place will be hard to fill.

"Bourgeois" Jazz

Of all indictments brought against American jazz, the most curious is this one from Moscow:

Soviet Russia forbids our jazz on the ground that it is "bourgeois music, unfit for proletarian society."

The word "bourgeois" is always a puzzler for Americans, because it means something that doesn't exist in America. It refers to a "middle-class" or "business class" as distinguished from the old European order, with its aristocrats at the top and propertyless "working class" at the bottom.

So jazz is taboo in Russia because it is respectable middle-class stuff, and therefore unworthy of Bolshevists! Our American dances are barred, and likewise our dance music—no fox trots, Charlestons, etc., even over the radio. When some other European nation puts on the air its own quaint version of American jazz, the government-controlled Moscow broadcasters butt into the wave and drown it out with a "cat concert." Thus Bolshevist morals and art are kept pure.

Really, this is too much. Here our jazz artists and devotees have been priding themselves on the wildness, lawlessness and general devilishness of their dances, and making them the reddest thing this nation is capable of, and along come those Russian Reds and turn it down as too smug and Victorian for them.

By way of relieving our suppressed instincts we try, in our dancing moods, to act like a lot of crazy Russians, and only win their scorn. We might as well give up and go back to Strauss waltzes.

Co-Operative Monroe Doctrine

According to a recent Washington dispatch, regarding the Mexican and Nicaraguan questions:

"Probably the gravest issue is whether the Monroe Doctrine is going to be protected by voluntary co-operation in this hemisphere, or by the force of the United States alone."

Nothing seems to have occurred so far in Mexico or Nicaragua really involving the Monroe Doctrine, but there might be such developments at any time.

Mexico has been meddling with the Nicaraguan situation, but there is nothing in the Monroe Doctrine to forbid a sister republic to do that, though it complicates things for Uncle Sam.

If the Monroe policy is invoked at all, our people would probably prefer to see it applied, if possible, with the co-operation of the Latin-American countries for whose protection it is intended. Most of them have grown up now, and all have a natural interest and pride in helping to look after each other. That is the ideal of the Pan-American Union which we ourselves have fostered.

Earthquakes, like rain, affect both the just and unjust, and so Calexico has to be shaken up along with Mexicali.

Do you remember the good old days when villages limited automobile speed to eight miles an hour.

"If you want to telephone "Hello, how's my baby?" across the Atlantic now, you can do it. But it will cost you $75.

AN EXPERT OPINION.

When I hear of medical experts diagreeing in a consultation I think of a diagnosis which was made once by a colored person from down South who came North to drive a car for a friend of mine.

This was in the days when automobiles were more prone to functional disorders than at present.

This darky was a fair-enough chaufeeur and he professed to be a good mechanic, but as subsequent events proved, no reasonably prudent person would entrust him with a nutpick.

One bright Suday he took his master for a spin over on Long Island. Suddenly, on a lonely road, the car developed a racking cough and a hectic flush, and after panting along for a few rods came to a dead stop.

The chauffeur descended from his seat, selected an armful of wrenches and other utensils from the tool box and wiggled his way under the balking auto. There he hammered and tinkered for twenty minutes. Eventually he crawled out, covered with dust and streaked with grease, and delivered his opinion to his employer.

"Mr. Miner.," he said, "I reckin' you'll have to fine your way back to town de bes' way you kin. They's fo' sep'rit things de matter wid dis yere cyar—an' I dunno whut nary one of 'em is."

NEW YORK DAYBYDAY
By O. O. McINTYRE

LOS ANGELES, Cal., Jan. 14.—Strictly speaking there is little of the hectic night life we know on Broadway out here. Such as is expressed in the jazz tum-tum of the Black Bottom bazaars. There are some roosts for night birds but comparatively few.

The afternoon tea appears to be the substitute. All the big hotels have their luxurious tea gardens where fashionables drift. Also those celebrities who crave admiration. They are usually in the semi-open and fringed with palms like a brilliant Belasco setting.

But the real evening parties are in the home. Out in Hollywood these affairs have often gobbled up much first page space. Gossip monging is one of the Hollywood sports. This name and that are linked in the shady liaison. Wife swapping is common talk.

I heard of one director who was off on a three weeks' twister—"fried to the ears." I had seen him twice during that time as coldly sober as a chairman of the board addressing the directors. Hollywood has its bad boys and girls. It would be impossible to get around the record.

That is true of every profession and trade. I hold no brief for Hollywood. I believe those so suddenly elevated to riches and fame owe much to their audiences. Many have betrayed this trust and deserve the banishment they received. On the other hand I believe the colony has often been maligned.

I have noted nine young ladies and four young men of varying degrees of cinema fame who neither drink nor smoke. The list is doubtless larger. All are a little conscious of their fame and resort to posing. Also I have not noted an excess of intellectual brilliance among them.

As a casual observer they strike me as ordinary folk found on every hand splashed suddenly out of obscurity and still floundering around wondering what it is all about. And gripped by a paralyzing fear that any day the bubble may burst.

A pleasant caller today was Mike Donlin, a baseball idol of 20 years ago. It was a youthful dream of mine to be his bat boy. He is untouched by the mockery of Time. Mike has the same cocky, swaggering walk as he had in those roystering days when he was swatting the apple over the garden wall—or biffing an umpire. He is in the movies now—married and quite content.

Los Angeles is thoughtful of the tourist. There are no red faced crossing cops rushing at touring motorists to bawl them out for slight traffic violations. The cop here rebukes in a smiling kindly way. Often he stops to chat. This consideration for the stranger is also noted among waitresses, waiters, newsboys and others who serve vast tourist hordes. Perhaps this accounts in no small measure for the statistical fact that more than 700,000 tourists permanently located here during the past five years. They came, saw—and remained. The New Yorker who is often greeted with scowls and sneers curls up to purr and gurgle with delight over the change.

There is a newsboy near Pershing Square who used to sell newspaper in Harlem. While chatting with him this morning a youth wearing a toodle-oo belted suit, a pip-pip shirt and fuzzy hat when mincing by. "One of our male impersonators" chirped the lad from Coogan's Bluff.

California girls are beautiful but no more beautiful to my way of thinking than those of Manhattan. I have always thought the most beautiful girls in the world were found on Fifth Avenue and Broadway. But out here there is a noticeable lack of cosmetics. The corn fed bloom prevails. The eyes are not kohled, the lips carmined or complexioned spotched a hideous yellow or green.

HASKIN'S LETTER
By FREDERIC J. HASKIN

Another Coal Strike.

WASHINGTON, Jan. 14.—A warning that the United States may expect another coal strike next April has been sounded in the upper house of congress by Senator Copeland, of New York, with Senator Capper, of Kansas, agreeing that another industrial upset seemed in prospect. Outsiders who profess familiarity with the coal situation say that while a strike is likely to occur as the result of a failure of the bituminous operators and miners to reach an agreement at the wage conference in April they doubt that the strike will come before fall.

Miners rarely go on strike in the spring and summer, it is pointed out. They start their industrial wars at a season when the public needs the most coal, rather than at a time when a strike will cause comparatively little discomfort and inconvenience.

Senator Copeland's warning came by way of comment on a report of the District committee presenting the findings of an audit made of the books of Washington retail coal dealers over the period covering the last anthracite strike.

This audit was made under the direction of Comptroller General McCarl, with H. A. A. Smith, his chief investigator in charge. Its purpose was to determine whether or not the local dealers had profiteered, taking advantage of the coal shortage caused by the strike to exact unjustifiably high prices from the public for coal and coal substitutes. The report says that they did, that they increased their gross profits far more than the increased cost of coal at the mines warranted, and that these profits were substantially more than the dealers admitted or testified to at the congressional investigation last winter.

In fact, the Washington retailers profiteered to a greater degree than the dealers in any other city in the country, according to the committee. Whereas an inquiry conducted by the United States Coal commission showed that the average gross profit of 273 coal dealers in large and small cities throughout the country was $2.67 a gross ton, the McCarl audit showed that dealers in the national capital exacted gross profits that ranged as high as $6.70 a ton, while their net profits in many cases exceeded what was an agreed fair gross profit.

Nothing to Be Done About It.

Senator Copeland declared that there could be no doubt that local dealers profiteered and that dealers throughout the country had done the same thing, even if on a smaller scale. Then he inquired if there were not something that could be done to prevent that sort of thing and to avert another strike that seemed imminent and that would be made an excuse for another raid on the public purse. The only answer this drew from his colleagues was a comment to the effect that the government could not go into the coal business. And since the committee made no recommendations as to legislation dealing with the problem, but merely made public its report and published it in the record in order that the people might be informed as to their treatment by the coal dealers, it seems that nothing will be done of a preventive character.

Apparently congress regards coal strikes as inevitable as weather, of which the familiar song says, "wheth-

HASKIN'S LETTER
By FREDERIC J. HASKIN

Another Coal Strike.

WASHINGTON, Jan. 14.—A warning that the United States may expect another coal strike next April has been sounded in the upper house of congress by Senator Copeland, of New York, with Senator Capper, of Kansas, agreeing that another industrial upset seemed in prospect. Outsiders who profess familiarity with the coal situation say that while a strike is likely to occur as the result of a failure of the bituminous operators and miners to reach an agreement at the wage conference in April they doubt that the strike will come before fall.

Miners rarely go on strike in the spring and summer, it is pointed out. They start their industrial wars at a season when the public needs the most coal, rather than at a time when a strike will cause comparatively little discomfort and inconvenience.

Senator Copeland's warning came by way of comment on a report of the District committee presenting the findings of an audit made of the books of Washington retail coal dealers over the period covering the last anthracite strike.

This audit was made under the direction of Comptroller General McCarl, with H. A. A. Smith, his chief investigator in charge. Its purpose was to determine whether or not the local dealers had profiteered, taking advantage of the coal shortage caused by the strike to exact unjustifiably high prices from the public for coal and coal substitutes. The report says that they did, that they increased their gross profits far more than the increased cost of coal at the mines warranted, and that these profits were substantially more than the dealers admitted or testified to at the congressional investigation last winter.

In fact, the Washington retailers profiteered to a greater degree than the dealers in any other city in the country, according to the committee. Whereas an inquiry conducted by the United States Coal commission showed that the average gross profit of 273 coal dealers in large and small cities throughout the country was $2.67 a gross ton, the McCarl audit showed that dealers in the national capital exacted gross profits that ranged as high as $6.70 a ton, while their net profits in many cases exceeded what was an agreed fair gross profit.

Nothing to Be Done About It.

Senator Copeland declared that there could be no doubt that local dealers profiteered and that dealers throughout the country had done the same thing, even if on a smaller scale. Then he inquired if there were not something that could be done to prevent that sort of thing and to avert another strike that seemed imminent and that would be made an excuse for another raid on the public purse. The only answer this drew from his colleagues was a comment to the effect that the government could not go into the coal business. And since the committee made no recommendations as to legislation dealing with the problem, but merely made public its report and published it in the record in order that the people might be informed as to their treatment by the coal dealers, it seems that nothing will be done of a preventive character.

Apparently congress regards coal strikes as inevitable as weather, of which the familiar song says, "wheth-

Labor Paper Wants Congress To Be On The Job Continually

By CHARLES P. STEWART.

WASHINGTON, Jan. 14.—"Labor," official Washington organ of the rail road brotherhoods, comes out with the sugestion that congress ought to stay in session nearly all the time.

This is entirely a new idea. The usually accepted theory always has been that the whole country breathes more easily the minute congress adjourns The commonly heard complaint is that when it's on the job it can't refrain from passing laws, that we have too many already and that it would be a mercy if we could go for about ten years without a single fresh piece of national legislation.

CAPITOL DOME

"Labor" makes the point that even too many laws are better than letting the executive branch of the government go it alone for too long at a time.

The attitude of all the presidents suggests that maybe there is something in this view.

Never one of them but always has considered congress a first class nuisance. Congress interferes with a president the worst way. Even if he has a big majority in both houses there's bound to be some opposition to him and his policies. It criticizes It may be able to accomplish no more than that, but at least it makes the chief executive watch his step.

With congress against him the White House tenant's life becomes a burden. Even one of the two houses out of presidential control gums his cards and blocks his game.

It's noticeable that most big presidential stunts are initiated during congressional recesses or between sessions.

The president can start pretty much anything he pleases when congress is away. He may not be able to finish it by himself, but if he gives it a good enough start the lawmakers may very easily have to keep it going when they get back, or the president calls them back, whether they like it or not.

"Labor" doesn't think any president should be permitted to get so far with some plan he happens to have in mind that congress can't veto it if it thinks he's wrong.

For instance, congress took only a 10-day recess over the holidays, left supposing everything was quiet along the Potomac, and came back to find marines landed in Nicaragua, warships maneuvering all over the Gulf of Mexico, the Mexican republic in a ferment and most of Latin America more or less by the ears.

If all that could happen during a 10-day congressional recess, what can't happen during the long gap between March 1 and Dec. 1?—unless there's an extra session.

Congress can still ask, "What made you land those marines?" but there they are. It would have been a lot more effective if it had been in a position to say, "Wait until you're explained what you're going to land 'em for."

What the administration would do right now, if it could, would be to get the present congress to vote money to run the government, not for the next year alone, but for the next two years, or until the end of President's Coolidge's term.

He won't be able to manage the 70th congress, for the senate will be against him, but if he doesn't have to ask it for funds, neither will it be able to manage him.

However, this won't happen. It's been hinted at, but the idea didn't "take." Even the 69th senate, which is pretty independent itself, balked.

Censorship Planned For Burlesque Shows By Cleveland Police

CLEVELAND, O.—Burlesque shows here will in the future be subject to the censorship of police women, according to an announcement from Capt. Dorothy Doan Henry, of the Police Woman's bureau.

Capt. Henry herself inaugurated the move by visiting a downtown theatre and ordering risque lines and spicy skits stricken off the bill. The 14 members of the bureau are assigned to a regular round of all-night movies, cabarets and burlesque houses.

"We are not particularly strict," said Capt. Henry, "but we do seek to eliminate absolutely obscene jokes, suggesting postures and improper dancing. We also hope to aid young and delinquent girls."

New Gasoline Fuel Discovered in France Is Not Inflammable

PARIS.—"White spirit" is the new fuel for gasoline motors, automobiles or aeroplanes, which does not possess the high inflammability of gasoline recently discovered by Paul Dumanoir, a French chemist.

Frenchmen have long been in quest of something to avoid the loss of life which occurs almost daily by the accidental ignition of fuel in motors. The point of combustibility of this new product is about 85 degrees Fahrenheit and has been used in automobiles and aviation motors where its inflammability has been tested with good results. Flaming matches were dropped into an open receptacle containing the liquid but were immediately extinguished.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of Magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of Magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

HOUSE "FARM BLOC" TURNS TO EAST FOR SUPPORT

SOUTH QUITS M'NARY-HAUGEN BILL FORCES

Cotton-corn Relief Alliance Apparently Smashed.

SEEK OTHER AID

Measure Has Not Been Endorsed by Jardine.

By William S. Neal.

WASHINGTON, Jan. 14.—With the cotton-corn farm relief alliance apparently smashed by the defection of southern congressmen, house "farm bloc" leaders today turned to the industrial east for support of the 1927 edition of the McNary-Haugen bill.

New and unexpected aid already is springing up among eastern representatives, Representative Haugen (R.) of Iowa, chairman of the house agriculture committee, declared.

"Many members who have been against farm relief right along have come to me and said that the farm slump is affecting business all through the east and something must be done," said Haugen.

"We will get more votes from this quarter than we ever have. They know that you can't sell shoes to the farmers unless they are making money."

Haugen refused to admit that the cotton belt congressmen would hold out against the measure while Representative Aswell (D.) of Louisiana, asserted that the south would never stand for the equalization fee on cotton.

"The fee under the McNary-Haugen bill would have to be $10 to $15 a bale next year and that would mean taxing the cotton planters $180,000,000" said Aswell.

The revised McNary-Haugen bill, providing for a federal farm board backed by $250,000,000 to handle agricultural surpluses, has not received the public endorsement of Secretary of Agriculture Jardine, Representative Strong (R.) of Kansas, who has frequently conferred with President Coolidge on farm relief, however, believes that the president would sign the bill.

"The president has repeatedly told me that he desires to see helpful farm legislation enacted," said Strong. "This bill does not entail a government subsidy, nor does it put the government in business. I believe it would receive favorable consideration from Mr. Coolidge."

Representative Tincher (R.) of Kansas, a consistent opponent of the McNary-Haugen bill, declared that a poll of the house disclosed that the measure would be easily defeated.

A vote is expected within two weeks.

Seeks Release of Boy.

After the reunion in which tears of sorrow mingled with tears of joy, Edward and his mother left the county jail. First, the boy was taken to the barber, then to a shoe dealer, next to a clothier and haberdasher, and furnished with a complete new outfit.

At the county jail yesterday, Mrs McCoy met Attorney S. W. Crawford, who was in Lisbon on other business. After hearing the woman's story, Crawford promised that he would "go the limit to keep the two boys and their mother united."

The mother repeated her story before Judge W. F. Lones this morning.

"I'll pay everything if Russell can be saved from going to the reformatory," promised Mrs. McCoy. "I will take both boys back home with me and we will start life anew. I will see to it that they learn a trade of their own liking and they will want for nothing."

Shortly before noon today Judge Lones, after hearing the mother's appeal, presented by Attorney Crawford and opposed by Prosecutor R. M. Brookes, declined to suspend Russell's reformatory sentence.

Mrs. McCoy said that she talked to Ridgley, the father of her two children, following her arrival in East Liverpool but she went to Lisbon alone where the happy reunion occurred.

The two boys, Mrs. McCoy learned, had been told that they were brothers but the relationship never had been established to their satisfaction.

Deny Deportation Plan.

WASHINGTON, Jan. 14.—Charlie Chaplin, film comedian, will not be deported if his wife, Lita Grey, wins her divorce against him, department of labor officials said today. They denied reports from Los Angeles that immigration officials were watching the Chaplin case with a view of deporting him to England.

It was pointed out that in order to deport Chaplin, who is a British subject, it would be necessary for him to be convicted of a crime involving moral turpitude. The divorce case, being a civil action, would not afford grounds for deportation, despite the serious charges it contains, officials said.

Funeral services will be held in the home Sunday afternoon at 2 o'clock in charge of Rev. Dr. Frank G. Fowler, pastor of the First Methodist Episcopal church.

REPORTS FROM STOCK MARKETS

NEW YORK, Jan. 14.—Speculative interest was directed to the railroad stocks in early trading today by the announcement of the projected amalgamation of the Great Northern and Northern Pacific, with the possible addition of Burlington and Colorado & Southern, after a series of negotiations extending over six weeks.

Lehigh Valley held the center of the stage, its new advance to above 110 representing the clash of the competitive buying of powerful railroad magnates, with New York Central on one side and the Delaware and Hudson and Mr. L. F. Loree on the other side. Control of this road is being sought by purchase of stock in the open market, and present holders are clinging tenaciously to their stock in expectation of much higher prices.

Northen Pacific and Great Northern, having in the fore part of the week discounted the effect of today's announcement, were comparatively quiet, though Northern Pacific moved up about a point and Colorado & Southern 2 points.

The oil stocks were active and firm, with Standard of New Jersey reaching a new high for the year to date, and Pure Oil, Sinclair, Simms, Maryland Barnsdall and Mid Continent fractionally higher. An increase of 25 and 30 cents a barrel in Pennsylvania crude oil was announced today, but the gasoline markets were slightly reactionary.

Homeric, Bound for New York, Sighted in Raging Sea.

CHERBOURG, Jan. 14.—The liner Berengaria came into port here today and reported having reached port only after a terrific battle during the night against furious storms.

The Berengaria sighted the Homeric last night, bound for New York and making terrific plunges in a raging sea.

Mexican Issue Death

(Continued from Page One)

ment's attitude is that "principles cannot be arbitrated."

Marines Occupy Towns.

Meanwhile, as the senate wrangles in criticism and defense of the Kellogg policy in both countries, the marines in Nicaragua are proceeding steadily about the business of occupying the country.

At the direcion of the state department, the marines are pursuing a campaign of "complete saturation" in Nicaragua. They now occupy and control the entire coast lines of the country, Pacific and Atlantic, and are steadily occupying new towns in the interior. It will not be many days, at the present rate of expansion, until they control every city of any size in the little republic.

As fast as they occupy the declare neutral zones and thus disarm both the Diaz and Sacasa forces. The Sacasa revolt is being slowly strangled to death—thus far without the cracking of a marine rifle—and the process, when complete, will leave Diaz in supreme command.

La Follette Leads Fight.

Unless Borah's plan of a new election is adopted, Diaz will remain in power—with marine support—until the next general election, which is in 1929.

While the state department is cool to his proposals, there was evidenced today some senate interest in them. The Democrats appeared favorably impressed, and there was talk about a resolution which would put the senate on record as favoring a new election.

The Insurgents who are bitterly opposed to Secretary Kellogg's policy, planned today to keep up a drum-fire attack on it from the senate floor.

Deny Kellogg's Charges.

MEXICO CITY, Jan. 14.—A vigorous denial of Secretary of State Kellogg's recent charges that Mexico was seeking to establish a Bolshevist hegemony of Latin-America was made today by Foreign Minister Saenz.

As evidence that the Mexicon government was not seeking to spread the doctrines of the Soviet, Minister Saenz quoted from President Calles' warning to Soviet Foreign Minister Chitcherin in 1925, declaring that Mexico would not tolerate the abuse of her hospitality by persons active in spreading propaganda supporting principles to which the Mexican government did not subscribe.

Montreal Theatre Owner Arrested on Fire Panic Charge

MONTREAL, Jan. 14.—Michael Arrie, house manager of the Laurier Palace theatre where 78 children lost their lives in a dangerous fire panic, today was under arrest charged with having blocked the stairway which provided the only means of exit for the frightened youngsters.

Two Men Scalded When Pennsylvania Train Turns Over

SANDUSKY, Ohio, Jan. 14.—Charles O'Hare, 45, Columbus, engineer, and James Curry, 36, Columbus, fireman, were seriously scalded when their engine, pulling a Pennsylvania passenger train, left the track and turned over here today.

Workmen had difficulty rescuing O'Hare, owing to a great volume of escaping steam. His head, neck and shoulders were veritably cooked. Curry's injuries were less serious.

CHAPLIN TELLS GIRL REPORTER HIS TROUBLES

Lita Has Been Very Cruel Says Charlie.

HATES COMBAT

Film Comedian Denies he is Worth Sixteen Millions.

By Sarah Brown.

ABOARD TWENTIETH CENTURY LIMITED, ENROUTE TO NEW YORK, Jan. 14.—"She has been very cruel to me," the man whom Lita Grey Chaplin is accusing of infidelity, cruelty, and dozens of other startling abuses, sat in his drawing room on this train early today, and, as he idly flipped a deck of cards in a game of solitaire, talked to me alone for over two hours.

"Cruel is the only word that expresses it," said Charlie Chaplin, as the cards slipped through his slender, delicate fingers and the landscape outside hurried by a black blur while he discussed philosophy, life, religion, fate—and love.

"I hate combat—I hate bickering and fussing. But now—now that such utterly vicious, viperous lies have been told about me—it's a case of standing with one's back to the wall and fighting it to a finish.

"Terrible Lies" in Bill.

"Lita's action was so sudden and so unprovoked. The statements in her bill were terrible—terrible lies. When the time comes I can prove it—a man can't work night and day, writing, acting and directing, as I have done, and have time for all or even any of the things she says I have done.

"That's why I say she's cruel to me. I have been patient with her, and have done my best to make her happy. Why she should turn, and with such venom, do all the spiteful, vengeful things she has done I don't know.

"All I can say about it is that she can't really hurt me. No one, as long as he knows he has done right, and has nothing to shrink from in guilt, can be hurt by such a situation."

He pushed the cards away from him suddenly, and the face which has made countless thousands laugh seemed suddenly very old, very tired and unspeakably sad. It was after circus hours, and the clown had dropped his mask.

Dreams Never Come True.

"I can't tell you what a home—a real home and a family mean to me," he said." A house filled with beautiful things is worse than nothing when you have to live in it by yourself, but to have a wife—a sympathetic comradely person, and children—to have that would be all I'd ask of life.

1,800 DANCE AS VIRGINIA GARDENS OPEN

Homer Laughlin Employes Give Party at Rock Springs.

BOWER OF BEAUTY

Public Dancing is Arranged for Tonight and Saturday.

Despite adverse weather conditions, 1,800 persons attended the formal opening of "Virginia Gardens," new dancing pavilion at Rock Springs park last evening, when employes and friends of the Homer Laughlin China company were guests.

Patrons for the affair, which was one of the most successful social function ever conducted by the Laughlin company workers, were Mr. and Mrs. E. L. Carson, Mr. and Mrs. J. M. Wells, Dr. and Mrs. A. V. Bleininger and Mr. and Mrs. Arthur Wells.

The remodeled dance hall, upon which C. C. Macdonald, leasee of the park, has expended approximately $22,000, attracted much favorable comment. The ceiling of the pavilion is attractively latticed, and imitation wisteria has been artisticly interwoven to produce the garden effect. The columns are in beige, while an attractive color scheme is in Miami red, lavender and green. Hanging ledges overflow with flowers and vines, and in which colored lights are reflected. Plate glass mirrors are arranged on the posts, archways and other places about the spacious hall.

The orchestra pit is located in the center of the dance floor. This is illuminated with pretty colored lamps. Entrance to the pavilion is through the center of the building. A refreshment stand is operated at one end of the hall.

C. C. Macdonald, park owner, welcomed the visitors at the opening dance last evening. The park manager also received a large bouquet of flowers from Harry C. Baker, of the Harry C. Baker company, amusement park construction engineers, who is spending the winter in Havana, Cuba.

A number of amusement park operators were guests of Mr. Macdonald last night. They included Paul Morris, manager of Rockford park, at Schenectady, N. Y.; Lloyd Thomas, head of Playground park, South Bend, Ind.; L. B. Lodge, former manager of Silver Lake park, Cuyahoga Falls; R. E. Haney, manager of Fairyland park, Kansas City, and Vernon Keenan, chief engineer for the Harry C. Baker company, who is in Chester to assist in the rebuilding of the summer resort.

Sam Smolin's orchestra, consisting of eight talented musicians, rendered the music. This orchestra broadcasts from the WADC station, Akron, and from WTAM, Cleveland.

Public dances will be held tonight and again on Saturday night and also on Tuesday, Thursday, Friday and Saturday of next week. The pavilion also will be available for private dances.

Other improvements, which Mr. Macdonald is making to the park before the opening of the summer season, will include a 2,500-foot long coaster ride, a $22,000 merry-go-round which will carry 15,000 lights and other amusements. Landscape gardeners are at work beautifying the grounds. The boating lake is to be dredged and a motor boat, in the shape of a swan, to be purchased for excursion trips. Improvements are also being made to the swimming pool.

Masdonald is now constructing a home in the grove overlooking the lake. The house, which will be log in design, is being erected by French-Canadians with logs shipped to Chester from New Brunswick, Canada.

HOUSE "FARM BLOC" TURNS TO EAST FOR SUPPORT

SOUTH QUITS M'NARY-HAUGEN BILL FORCES

Cotton-corn Relief Alliance Apparently Smashed.

SEEK OTHER AID

Measure Has Not Been Endorsed by Jardine.

By William S. Neal.

WASHINGTON, Jan. 14.—With the cotton-corn farm relief alliance apparently smashed by the defection of southern congressmen, house "farm bloc" leaders today turned to the industrial east for support of the 1927 edition of the McNary-Haugen bill.

New and unexpected aid already is springing up among eastern representatives, Representative Haugen (R) of Iowa, chairman of the house agriculture committee, declared.

"Many members who have been against farm relief right along have come to me and said that the farm slump is affecting business all through the east and something must be done," said Haugen.

"We will get more votes from this quarter than we ever have. They know that you can't sell shoes to the farmers unless they are making money."

Haugen refused to admit that the cotton belt congressmen would hold out against the measure while Representative Aswell (D.) of Louisiana, asserted that the south would never stand for the equalization fee on cotton.

"The fee under the McNary-Haugen bill would have to be $10 to $15 a bale next year and that would mean taxing the cotton planters $180,000,000" said Aswell.

The revised McNary-Haugen bill, providing for a federal farm board backed by $250,000,000 to handle agricultural surpluses, has not received the public endorsement of Secretary of Agriculture Jardine, Representative Strong (R.) of Kansas, who has frequently conferred with President Coolide on farm relief, however, believes that the president would sign the bill.

"The president has repeatedly told me that he desires to see helpful farm legislation enacted," said Strong. "This bill does not entail a government subsidy, nor does it put the government in business. I believe it would receive favorable consideration from Mr. Coolidge."

Representative Tincher (R.) of Kansas, a consistent opponent of the McNary-Haugen bill, declared that a poll of the house disclosed that the measure would be easily defeated.

A vote is expected within two weeks.

Seeks Release of Boy.

After the reunion in which tears of sorrow mingled with tears of joy, Edward and his mother left the county jail. First, the boy was taken to the barber, then to a shoe dealer, next to a clothier and haberdasher, and furnished with a complete new outfit.

At the county jail yesterday, Mrs McCoy met Attorney S. W. Crawford, who was in Lisbon on other business. After hearing the woman's story, Crawford promsed that he would "go the limit to keep the two boys and their mother united."

The mother repeated her story before Judge W. F. Lones this morning.

"I'll pay everything if Russell can be saved from going to the reformatory," promised Mrs. McCoy. "I will take both boys back home with me and we will start life anew. I will see to it that they learn a trade of their own liking and they will want for nothing."

Shortly before noon today Judge Lones, after hearing the mother's appeal, presented by Attorney Crawford and opposed by Prosecutor R. M. Brookes, declined to suspend Russell's reformatory sentence.

Mrs. McCoy said that she talked to Ridgley, the father of her two children, following her arrival in East Liverpool but she went to Lisbon alone where the happy reunion occurred.

The two boys, Mrs. McCoy learned, had been told that they were brothers but the relationship never had been established to their satisfaction.

Deny Deportation Plan.

WASHINGTON, Jan. 14.—Charlie Chaplin, film comedian, will not be deported if his wife, Lita Grey, wins her divorce against him, department of labor officials said today. They denied reports from Los Angeles that immigration officials were watching the Chaplin case with a view of deporting him to England.

It was pointed out that in order to deport Chaplin, who is a British subject, it would be necessary for him to be convicted of a crime involving moral turpitude. The divorce case, being a civil action, would not afford grounds for deportation, despite the serious charges it contains, officials said.

REPORTS FROM STOCK MARKETS

NEW YORK, Jan. 14.—Speculative interest was directed to the railroad stocks in early trading today by the announcement of the projected amalgamation of the Great Northern and Northern Pacific, with the possible addition of Burlington and Colorado & Southern, after a series of negotiations extending over six weeks.

Lehigh Valley held the center of the stage, its new advance to above 110 representing the clash of the competitive buying of powerful railroad magnates, with New York Central on one side and the Delaware and Hudson and Mr. L. F. Loree on the other side. Control of this road is being sought by purchase of stock in the open market, and present holders are clinging tenaciously to their stock in expectation of much higher prices.

Northen Pacific and Great Northern, having in the fore part of the week discounted the effect of today's announcement, were comparatively quiet, though Northern Pacific moved up about a point and Colorado & Southern 2 points.

The oil stocks were active and firm, with Standard of New Jersey reaching a new high for the year to date, and Pure Oil, Sinclair, Simms, Marland Barnsdall and Mid Continent fractionally higher. An increase of 25 and 30 cents a barrel in Pennsylvania crude oil was announced today, but the gasoline markets were slightly reactionary.

Marines Occupy Towns.

Meanwhile, as the senate wrangles in criticism and defense of the Kellogg policy in both countries, the marines in Nicaragua are proceeding steadily about the business of occupying the country.

At the direcion of the state department, the marines are pursuing a campaign of "complete saturation" in Nicaragua. They now occupy and control the entire coast lines of the country, Pacific and Atlantic, and are steadily occupying new towns in the interior. It will not be many days, at the present rate of expansion, until they control every city of any size in the little republic.

As fast as they occupy the declare neutral zones and thus disarm both the Diaz and Sacasa forces. The Sacasa revolt is being slowly strangled to death—thus far without the cracking of a marine rifle—and the process, when complete, will leave Diaz in supreme command.

La Follette Leads Fight.

Unless Borah's plan of a new election is adopted, Diaz will remain in power—with marine support—until the next general election, which is in 1929.

While the state department is cool to his proposals, there was evidenced today some senate interest in them. The Democrats appeared favorably impressed, and there was talk about a resolution which would put the senate on record as favoring a new election.

The Insurgents who are bitterly opposed to Secretary Kellogg's policy, planned today to keep up a drum-fire attack on it from the senate floor.

Deny Kellogg's Charges.

MEXICO CITY, Jan. 14.—A vigorous denial of Secretary of State Kellogg's recent charges that Mexico was seeking to establish a Bolshevist hegemony of Latin-America was made today by Foreign Minister Saenz.

As evidence that the Mexicon government was not seeking to spread the doctrines of the Soviet, Minister Saenz quoted from President Calles' warning to Soviet Foreign Minister Chitcherin in 1925, declaring that Mexico would not tolerate the abuse of her hospitality by persons active in spreading propaganda supporting principles to which the Mexican government did not subscribe.

CHAPLIN TELLS GIRL REPORTER HIS TROUBLES

Lita Has Been Very Cruel Says Charlie.

HATES COMBAT

Film Comedian Denies he is Worth Sixteen Millions.

By Sarah Brown.

ABOARD TWENTIETH CENTURY LIMITED, ENROUTE TO NEW YORK, Jan. 14.—"She has been very cruel to me," the man whom Lita Grey Chaplin is accusing of infidelity, cruelty, and dozens of other startling abuses, sat in his drawing room on this train early today, and, as he idly flipped a deck of cards in a game of solitaire, talked to me alone for over two hours.

"Cruel is the only word that expresses it," said Charlie Chaplin, as the cards slipped through his slender, delicate fingers and the landscape outside hurried by a black blur while he discussed philosophy, life, religion, fate—and love.

"I hate combat—I hate bickering and fussing. But now—now that such utterly vicious, viperous lies have been told about me—it's a case of standing with one's back to the wall and fighting it to a finish.

"Terrible Lies" in Bill.

"Lita's action was so sudden and so unprovoked. The statements in her bill were terrible—terrible lies. When the time comes I can prove it—a man can't work night and day, writing, acting and directing, as I have done, and have time for all or even any of the things she says I have done.

"That's why I say she's cruel to me. I have been patient with her, and have done my best to make her happy. Why she should turn, and with such venom, do all the spiteful, vengeful things she has done I don't know.

"All I can say about it is that she can't really hurt me. No one, as long as he knows he has done right, and has nothing to shrink from in guilt, can be hurt by such a situation."

He pushed the cards away from him suddenly, and the face which has made countless thousands laugh seemed suddenly very old, very tired and unspeakably sad. It was after circus hours, and the clown had dropped his mask.

Dreams Never Come True.

"I can't tell you what a home—a real home and a family mean to me," he said." A house filled with beautiful things is worse than nothing when you have to live in it by yourself, but to have a wife—a sympathetic comradely person, and children—to have that would be all I'd ask of life.

Evangelist Arraigns Sin in Sermon Last Night.

The Tabernacle Church of Christ addition, erected by volunteer labor in eight hours yesterday, is ready for dedication at 3 o'clock Sunday afternoon.

Dr. Clyde Fife, who, with his brother, Bob, are in charge of an evangelistic campaign there, will preach the first sermon in the enlarged East End house of worship tonight. The subject will be, "Destruction Without Remedy."

Delegations from East End Laughlin plants will attend the service.

The tabernacle was given the O. K. of Service-Safety Director J. W. Moore, who inspected it yesterday.

A large furnace has been installed, but no sawdust will be put down today until the frost has been dried out of the ground.

Today at noon the Fife brothers gave a concert in the high school. "I have been entertaining schools and colleges for 17 years in all parts of America and never had a finer reception for Bob and me than we have received from the young people of East Liverpool," said Dr. Fife.

The sermon last night was a terrific arraignment of sin in high places as well as in low places. The text was "What then shall I do when God rises up and when He judges me, what shall I say?"

"If as good a man as Job would not curse God and die and this man was troubled in his soul as to his hope at the judgment, what then, Oh God, must be the cause for anguish on the part of sinners, backsliders, libertines and tinhorn sports who regard nothing as sacred and trample the love of praying mothers under their feet and rush headlong past the churches to hell?" asked Dr. Fife.

"Don't criticise me for building this board tabernacle and mauling sin like thunder and lightning while men far on in sin have rushed past the church doors of this city for years and now pause to hear what it is all about.

"I thank God I will not have to die but once. I have been away from home most all my life preaching. I started when a boy. My little children hardly know they have a father except the few days between meeting I can love and pet them at home. But, Oh, may God give it to me to die in peace at home, surrounded by those who know and love me best—the old boys with whom I have fished and hunted and loafed. Bob and I lead a hard and lonely life brightened only by the love of kind hearted people who pray for us.

"Oh, how I wish I could be saved for my irreligious friends! If by my death tonight I could unite the churches of this city and lead its unsaved business to know my Saviour, I would gladly go home to Mary and the children in a pine box."

Then the Fife brothers with a tenor guitar accompaniment, sang 'My Log Cabin Home," dedicated to the old log cabin 10 miles from the native home of Abe Lincoln in Hardin county, Kentucky, where they were born.

Dr. Fife and his brother will spend Saturday, their rest day, in Pittsburgh where they will confer with committees on future engagements.

Present Income Insufficient to Meet Obligations.

Trustees signing the application are Houston Hodulett, Mark E. Carter, J. C. Mosley, Lee Smith and Nelson Clark. The petitioners are represented by Foulks & Stevenson of East Liverpool.

It is related in the petition that the congregation owns one-half of lot 17 in Richard Aten's addition to the City of Wellsville, and that the property is not now being used for religious purposes. Merchants with great institutions in big cities will before long me establishing branches in the same cities. Make a note of this prediction.

A NUMBER of English villages are swept with a pox epidemic such as has not been seen in nearly half a century, 58 cases in one place, 15 in another. Like some Americans, many English people have decided that "vaccination is all nonsense." It is better than genuine smallpox, however, and fortunately a few smallpox cases always provide a wonderful cure for the anti-vaccination nonsense.

PLAN SPECIAL SUNDAY MEETS

Afternoon Sessions to be Held in Christian Church.

Two special meetings are scheduled for Sunday afternoon in the First Christian church in connection with the evangelistic services now under way there. One of the meetings will be for women, the other for men.

The women will convene at 2:30 o'clock in the auditorium while the men's session will be held in the assembly room at the same hour.

Mrs. L. E. Lee will address the women, speaking on the subject "Women and the Kingdom." Mrs. Lee has addressed many gatherings of this nature.

"Fishin' on the Wrong Side of the Boat" will be Rev. Lee's subject at the men's meet. The services will be public.

Evangelistic services will continue throughout next week, beginning each evening at 7:30 o'clock with special speaking and music.

SALINEVILLE

The W. C. T. U. of Salineville met recently at the home of Mrs. Helen Hill on Main street. The devotional service was conducted by Mrs. Mabel H. Martin. Rev. W. S. Martin offered the prayer. In opening the discussion Mrs. Martin spoke on "Then and Now," showing the difference between the days of the open saloon and with them closed. Mrs. Haverfield read "The Bootlegger's Code." Mrs. Martha Patterson spoke on how the truth was some time twisted to mean just the opposite of what was meant. Rev. Martin spoke on "Prohibition Gains."

The president, Mrs. Haverfield, took charge of the business session. It was planned to observe the seventh anniversary of the 18th amendment Sunday evening at the Presbyterian church at 8:15 o'clock. Communications were read from the county president, Kittie L. Rothwell, and the national president, Mrs. Florence D. Richards, Columbus. The hostess served tea.

Fire originating from a stove in the dining room, damaged the home of Mrs. J. B. Hutson, Tuesday at her home, two miles east of Salineville. Mrs. Hutson was slightly burned in extinguishing the flames.

Papers on which clothes had been laid to dry caught fire from the stove and when Mrs. Hutson entered the room flames were shooting toward the ceiling. Rugs were burned and a portion of the baseboard charred. The timely arrival of Mrs. Hutson probably prevented the destruction of her home.

A playlet, "It Must Be Love," will be staged at the opera house, Tuesday and Wednesday, Jan. 18-19, under the auspices of Division No. 1 of the Missionary society of the United Presbyterian church. The same society will hold a candy and bake sale Saturday, Jan. 15, at John Hart's store on Main street.

The fourth number of the lyceum course under the auspices of the high school was held on Tuesday evening, consisting of a playlet, "To The Ladies." A large house enjoyed the play. There were three acts, with four scenes. The cast of characters: Leonard Beebe, Elsie Beebe, Chester Mullins, John Kincaid, Mrs. Myrtle Kincaid and Tom Baker.

The fifth and final number will be Wednesday, February 9. "Chief Strongheart" will be the attraction.

Charles Clark, of Bergholz, and Miss Blanche Burnip, daughter of Mr. and Mrs. James Burnip, of Salineville, were married recently at the parsonage of the Lisbon Christian church by the pastor, Rev. R. J. Bennett. Mrs. Clark was employed by the National China company of Salineville.

Mr. and Mrs. Blaine Patterson were Alliance visitors Monday. The former, a railroad section foreman, consulted a physician in respect to injuries he sustained several months ago.

Study Club to Meet.

Members of the Bible Study club will convene tomorrow afternoon at 2:30 o'clock at the home of Mrs. Charles Robb, in Broadway.

Mrs. Thomas G. Berger will be the leader. The lesson will be taken from Job, chapters 6 to 10.

TWO CONTESTS FOR HIGH FIVE

Carrollton tonight and Mingo Junction tomorrow night is the schedule for Coach Earl Klinck's high school basketball team over the week end.

Both engagements are scheduled for the local court and both promise plenty of action.

The Orange and Black passers have gotten in a week of good practice work and feel confident of taking over both foes.

Mrs. Clydia Crawford Asks Court Hearing.

CLAIMS INJURIES

Porch Floor Gave Way, Allegation of Plaintiff.

Because of the injuries she sustained by falling through a porch floor, $10,000 damages were sought by Clydia Crawford against Ida Bunting Rainey, in common pleas court. The petition of the plaintiff was filed by Attorney Raymond Knepper.

It is declared by the petitioner that she was a tenant of a property of the defendant at 538 Broadway, Wellsville, April 28th, 1925, and that the defendant knew of the condition of the floor of the porch of the property which fronts on Broadway.

At about 6 o'clock the evening of April 28th, 1925, the plaintiff declares that as she stepped from the door of her home onto the porch she fell through one of the portions of the porch floor and was injured, and that these injuries are permanent. She also relates that one of her legs went through the hole in the porch and up to her knee, and that she was laid up for a period of 13 weeks.

In opening the discussion Mrs. Martin spoke on "Then and Now," showing the difference between the days of the open saloon and with them closed. Mrs. Haverfield read "The Bootlegger's Code." Mrs. Martha Patterson spoke on how the truth was some time twisted to mean just the opposite of what was meant. Rev. Martin spoke on "Prohibition Gains."

A NUMBER of English villages are swept with a pox epidemic such as has not been seen in nearly half a century, 58 cases in one place, 15 in another. Like some Americans, many English people have decided that "vaccination is all nonsense." It is better than genuine smallpox, however, and fortunately a few smallpox cases always provide a wonderful cure for the anti-vaccination nonsense.

Rev. C. E. Rostofer in Charge of Christian Church Services.

Rev. C. E. Rostofer, of Ashtabula, O., preached to a large crowd last night at the revival services in the First Christian church on the subject, "The Saving Faith."

He spoke in part as follow: "Faith is the most misunderstood word in the English language. It is an ambiguous word because it is so comprehensive. Faith embodies three distinct things. First, a simple credence or belief of testimony which we call historic faith. Most everyone possesses such a faith in Jeus Christ. In the second place faith embodies reliance or trust. Such a faith lays hold of the heart, the seat of desires, affections and emotions. Nine-tenths of the infidelity of the world is infidelity of the heart. Unbelief is not purely intellectual, but a disease of the heart."

"Men and women profess their cold intellectual belief in Christ and then treat him as though he had no existence. Faith that does not convict of sin, lead to repentence, change the heart and the desires is not a saving faith, nor the faith illustrated in the new testament. In the third place faith involves a spiritual apprehension, an insight and farsight. It brings the distance near and then makes the invisible seen. The highest faith is that conviction of the existence of a home of the soul beyond the grave the assurance of the reality of an unseen spiritual world. The faith that apprehends these things becomes the foundation of christian character."

Vocal numbers were given by Miss Edna Wilson, and the Shingleton sisters.

Rev. Rostofer will have as his subject tonight, "Christian Baptism." C. G. Woods will sing a solo.

The best helps known are combined in one tablet. It does all that is needed. It checks the cold, stops the fever and headache, opens the bowels, eliminates the poisons and tones the entire system.

It acts quickly. The cold usually ends in a day. It rarely gets started, even, if one takes these tablets promptly.

Elks and Damascus Battle For League Honors Here Tonight

Highs Facing Hard Contest At Salem

Red and White First Stumbling Block in Path to County Scholastic Title.

THE biggest stumbling block in the path of the East Liverpool high school basketballers to the Columbiana county scholastic championship will be encountered tonight when the Blue and White plays its first Salem engagem nt of the season, at Salem.

The Red and White combine is one of the fastest aggregations turned out at the north county institution for a number of years and a victory, consequently, would mean a whole lot to Coach Lorah and his charges.

Salem stopped Wooster, Alliance and Akron East among other noteworthy performances during the current campaign and victories of this nature are not achieved by medicore teams.

The high school outfit, after a couple of bad weeks at the outset of the campaign, managed to hit its stride in time for the Akron battle and can realize that the Rubber City lads were no set-up.

The Blue and White has one county victory to its credit with Lisbon the victim. East Palestine is likely to furnish a couple of hard games, but the contests with Salem will determine, without question, who's who in county scholastic cage circles.

M. P. PASSERS DROP OPENER

Lose to Presbyterians in Church Loop Debut.

Making their initial appearance in the Sunday school basketball circuit, the Methodist Protestants bowed to the Presbyterians in a hard fought engagement last night on the M. P. court. The final count was 26 to 21.

The Presbyterians got away fast and this helped them considerably as the two teams went down the stretch to the wire. At the half way mark the Presbyterians held a nine point margin, the count being 18-9.

Two contests are billed for tonight on the Y. M. C. A. floor. The Baptists will tangle with the Lutherans and the Christians will meet the United Presbyterians.

Elks and Damascus Battle For League Honors Here Tonight

Highs Facing Hard Contest At Salem

Red and White First Stumbling Block in Path to County Scholastic Title.

THE biggest stumbling block in the path of the East Liverpool high school basketballers to the Columbiana county scholastic championship will be encountered tonight when the Blue and White plays its first Salem engagen nt of the season, at Salem.

The Red and White combine is one of the fastest aggregations turned out at the north county institution for a number of years and a victory, consequently, would mean a whole lot to Coach Lorah and his charges.

Salem stopped Wooster, Alliance and Akron East among other noteworthy performances during the current campaign and victories of this nature are not achieved by medicore teams.

The high school outfit, after a couple of bad weeks at the outset of the campaign, managed to hit its stride in time for the Akron battle and can realize that the Rubber City lads were no set-up.

The Blue and White has one county victory to its credit with Lisbon the victim. East Palestine is likely to furnish a couple of hard games, but the contests with Salem will determine, without question, who's who in county scholastic cage circles.

M. P. PASSERS DROP OPENER

Lose to Presbyterians in Church Loop Debut.

Making their initial appearance in the Sunday school basketball circuit, the Methodist Protestants bowed to the Presbyterians in a hard fought engagement last night on the M. P. court. The final count was 26 to 21.

The Presbyterians got away fast and this helped them considerably as the two teams went down the stretch to the wire. At the half way mark the Presbyterians held a nine point margin, the count being 18-9.

Two contests are billed for tonight on the Y. M. C. A. floor. The Baptists will tangle with the Lutherans and the Christians will meet the United Presbyterians.

N. Johnson chalked up high run of 24 for the evening.

Two matches are billed for tonight also. H. Daher will clash with B. Osborne and B. Hanna will take on C. Price.

Game's All Right, Avers Rockne, so Why Fool With it

SAN FRANCISCO, Jan. 14.—Knute Rockne, Notre Dame football coach, was enroute to South Bend today after a short visit here subsequent from his return from Honolulu.

Before he left he paused long enough to make several pungent remarks concerning those who would change the present football rules, saying, among other things, "that we now have a mighty good game, so why fool with it."

WARD IS TRADED TO WHITE SOX

CHICAGO, Jan. 14.—Chicago baseball fans took new heart today over the coming American league pennant race, following the announcement that Aaron Ward, Yankee second baseman, had been traded to the White Sox to fill the shoes vacated by Eddie Collins. Ward comes to the Sox in exchange for John Grabowski, utility catcher, and Ray Morehart, infielder. No money was said to have been involved in the trade.

BRUINS ARE EASY FOR CHICAGO FIVE

CHICAGO, Jan. 14.—After toying with the Chicago Bruins in the first half of the professional basketball game here last night, the New York Celtics swept through the final period in their real form and won the game, 42 to 26. Three thousand local fans turned out to see Ralph "Moon" Baker, last year's all American halfback from Northwestern university, make his debut in professional basketball. Moon played well but did nothing sensational.

SENIORS TRIM ROOMERS, 46-36

Gym Class Runners-up Now in League Race.

Y Senior basketballers took the runners-up position in the Y league race last night when they scored a 46 to 36 victory over the Y Dormifory gang.

The game was fairly fast, the Seniors outclassing the Y roomers in the first half, while in the final periods the dormitory aggregation had a little bit of the edge on their opponents.

The Dormitory men were the first to score, Vodrey breaking into the scoring column with a field goal. Canne evened it up for the Seniors with a double decker. Clarke put the Y roomers in front with a double marker. Canne shot two foul goals through, tying the score. Hancock got a double pointer giving the Seniors the lead. After that the Seniors kept in front, leading by a tally of 29 to 16 at half time.

In the final periods the Roomers put up a better brand of basketball and outscored their opponents, but the lead that the Seniors gained in the first half was too much for them to overcome.

All the Seniors took a hand in the scoring, Canne, McGraw, and Kidd being the leading Seniors performers.

Clarke, Vodrey and Wise were the luminaries for the Dormitory team. Lineups and summaries:

Seniors		Dormitory
Hancock	F	Clarke
Sayre	F	Wise
McGraw	C	Vodrey

Canne	G	Weaver

Substitution—Zacharis for Weaver.

Field goals—Canne 7, Sayre 4, Hancock 4, McGraw, Kidd 2, Clarke 9, Vodrey 5, Wise 3.

SCHENKEL COPS CLOSE CONTEST

Charles Schenkel defeated Rodebaugh, 25 to 24, in a close three cushion billiard match last night at the Academy parlors. Rodebaugh substituted for McDowell who originally was scheduled to oppose Schenkel.

Tonight's contest will bring together Harry Bennett and Cleo Farrar. The latter has been playing a good stick, holding the tourney high run record of eight and he will meet no mean opponent in Bennett. The match will start at 8.

IN MEMORIAM.

In loving memory of our dear Son, Gordon Miller, who was called away two years ago today, January 14, 1925.
Today recalls a loved one gone to rest
Those that think of him today are the ones that loved him best
The flowers we place upon his grave may wither and decay
But the love of him that sleeps beneath will never fade away.
When the evening shadows are falling and we are sitting all alone
To our hearts there comes a longing —if he only would come home.
We think of him in silence, no eyes can see us weep,
But many a tear is shed while others are asleep.
More and more each day we miss him
Friends may think the wound is healed
But little do they know the sorrow
That lies within our hearts concealed.

How to Keep the **EGG** *Producing Strain*

Regulate NOW while your birds are fighting rough weather, getting little sunlight, and doing their heaviest laying.

Especially important is keeping up the strength of breeders. Don't let them burn out!

Insure fertility and hatchability of the eggs from your best layers. Two pounds of Regulator to 100 lbs. of mash tones them up—brings out full pep and vigor—puts birds in full bloom.

Keep the egg strain in your flocks. Regulate now and insure livability in the chicks from your own eggs.

REMEMBER THIS QUARTET? WELL, ONE OF 'EM IS BACK

Recognize the four men in the group above? Probably you do. They formed the famous old $100,000 infield of the Athletics, back in the halcyon days prior to 1915. Left to right they are Frank Baker, Jack Barry, Eddie Collins and Stuffy McInnis. Now Collins is back with Connie Mack, to play second base again—at least part of the time. Lower photo shows him as he is today.

WELTER RIVALS CLASH AGAIN

Dundee-Roberts Billed for 10 Rounds at Garden.

By Davis J. Walsh.

NEW YORK, Jan. 14. — It will be Ketchel and Papke, Gans and Frank Erne and John Dundee and Jackson all over again at the Garden tonight, just a return engagement of an age-old act in which the man who has been knocked out attempts to prove that he can come back to beat the gent who knocked him. They never come back, according to the old-oaken moss covered bromide, but it doesn't apply to Stanley Ketchel, Joe Gans and rubber checks and it may be that Joe Dundee is immune, too.

Anyhow, Joseph tonight is scheduled to frolic again with Eddie Roberts, of Tacoma, Wash. It is supposed to go ten rounds but you never can tell about those things. As I remember it, the last Roberts-Dundee match was scheduled for ten rounds and didn't last one, Joseph accepting a right hand full on the nutmeg in the first minute of play.

The punch ruined half of the bootblacks and fruit peddlers between here and San Francisco and acted as a temporary injunction restraining Joseph from further conducting himself as the official challenger for the welterweight championship. The title in question might very well ride with the result of tonight's fight. Although neither man is a champion—yet.

The idea, it seems, is rampant, or something, that Pete Latzo no longer can make the welterweight limit of 147 pounds without holding his breath and, when you get a champion in that predicament, he is not long for this life, so to speak.

The boys are rallying around Dundee for tonight and the odds are 7 to 5 that he will win. Apparently they are imbued with the idea that that San Francisco knockout was tinctured with iodine and just didn't count. They further have achieved much solace by recalling that Ketchel returned to knock Papke into the right field bleachers and that Gans, stopped in 12 rounds by Erne, later was able to reverse the feature in exactly one.

Why they should confound Joe Dundee with Gans and Ketchel is a bit beyond my feeble resources. From what I have seen of Joseph, he is a fair fighter who might become champion provided no one else is better. They say he is one of the rising young men of the profession and he may need to be if Roberts annoints him with another right.

The pro-Dundee crowd support their guess on tonight's number by declaring that Joseph always was a slow starter anyhow but would hasten himself this time. In other words, they are looking for a Charley Paddock performance from a Ping Bodie. My guess? A fair enough fight, with Dundee winning on points.

CLAIMS HORNSBY OWES HIM $92,000

ST. LOUIS, Jan. 14. — Threatening court action unless a settlement is made by Rogers Hornsby, former manager of the St. Louis Cardinals, Frank Moore, a betting commissioner of Ft. Thomas, Ky., returned to this city and arranged for a conference with the baseball star's lawyer for this afternoon regarding an alleged debt of $92,000.

Moore claims Hornsby owes him this amount for money advanced the player to pay debts incurred on horse race bets and to make a payment on an apartment house which the latter bought in St. Louis.

William F. Fahey, Hornby's lawyer, reiterated his client denied owing the debt and that he advised his client not to recognize the claim.

SENIORS TRIM ROOMERS, 46-36

Gym Class Runners-up Now in League Race.

Y Senior basketballers took the runners-up position in the Y league race last night when they scored a 46 to 36 victory over the Y Dormitory gang.

The game was fairly fast, the Seniors outclassing the Y roomers in the first half, while in the final periods the dormitory aggregation had a little bit of the edge on their opponents.

The Dormitory men were the first to score, Vodrey breaking into the scoring column with a field goal. Canne evened it up for the Seniors with a double decker. Clarke put the Y roomers in front with a double marker. Canne shot two foul goals through, tying the score. Hancock got a double pointer giving the Seniors the lead. After that the Seniors kept in front, leading by a tally of 29 to 16 at half time.

In the final periods the Roomers put up a better brand of basketball and outscored their opponents, but the lead that the Seniors gained in the first half was too much for them to overcome.

All the Seniors took a hand in the scoring, Canne, McGraw, and Kidd being the leading Seniors performers.

Clarke, Vodrey and Wise were the luminaries for the Dormitory team. Lineups and summaries:

SCHENKEL COPS CLOSE CONTEST

Charles Schenkel defeated Rodebaugh, 25 to 24, in a close three cushion billiard match last night at the Academy parlors. Rodebaugh substituted for McDowell who originally was scheduled to oppose Schenkel.

Tonight's contest will bring together Harry Bennett and Cleo Farrar. The latter has been playing a good stick, holding the tourney high run record of eight and he will meet no mean opponent in Bennett. The match will start at 8.

IN MEMORIAM.

In loving memory of our dear Son, Gordon Miller, who was called away two years ago today, January 14, 1925.
Today recalls a loved one gone to rest
Those that think of him today are the ones that loved him best
The flowers we place upon his grave may wither and decay
But the love of him that sleeps beneath will never fade away.
When the evening shadows are falling and we are sitting all alone
To our hearts there comes a longing —if he only would come home.
We think of him in silence, no eyes can see us weep,
But many a tear is shed while others are asleep.
More and more each day we miss him
Friends may think the wound is healed
But little do they know the sorrow
That lies within our hearts concealed.
MR. AND MRS. T. L. MILLER AND FAMILY.

How to Keep the **EGG** *Producing Strain*

Regulate NOW while your birds are fighting rough weather, getting little sunlight, and doing their heaviest laying.

Especially important is keeping up the strength of breeders. Don't let them burn out!

Insure fertility and hatchability of the eggs from your best layers. Two pounds of Regulator to 100 lbs. of mash tones them up—brings out full pep and vigor—puts birds in full bloom.

Keep the egg strain in your flocks. Regulate now and insure livability in the chicks from your own eggs.

REMEMBER THIS QUARTET? WELL, ONE OF 'EM IS BACK

Recognize the four men in the group above? Probably you do. They formed the famous old $100,000 infield of the Athletics, back in the halcyon days prior to 1915. Left to right they are Frank Baker, Jack Barry, Eddie Collins and Stuffy McInnis. Now Collins is back with Connie Mack, to play second base again—at least part of the time. Lower photo shows him as he is today.

WELTER RIVALS CLASH AGAIN

Dundee-Roberts Billed for 10 Rounds at Garden.

By Davis J. Walsh.

NEW YORK, Jan. 14. —It will be Ketchel and Papke, Gans and Frank Erne and John Dundee and Jackson all over again at the Garden tonight, just a return engagement of an age-old act in which the man who has been knocked out attempts to prove that he can come back to beat the gent who knocked him. They never come back, according to the old-oaken moss covered bromide, but it doesn't apply to Stanley Ketchel, Joe Gans and rubber checks and it may be that Joe Dundee is immune, too.

Anyhow, Joseph tonight is scheduled to frolic again with Eddie Roberts, of Tacoma, Wash. It is supposed to go ten rounds but you never can tell about those things. As I remember it, the last Roberts-Dundee match was scheduled for ten rounds and didn't last one, Joseph accepting a right hand full on the nutmeg in the first minute of play.

The punch ruined half of the bootblacks and fruit peddlers between here and San Francisco and acted as a temporary injunction restraining Joseph from further conducting himself as the official challenger for the welterweight championship. The title in question might very well ride with the result of tonight's fight. Although neither man is a champion—yet.

The idea, it seems, is rampant, or something, that Pete Latzo no longer can make the welterweight limit of 147 pounds without holding his breath and, when you get a champion in that predicament, he is not long for this life, so to speak.

The boys are rallying around Dundee for tonight and the odds are 7 to 5 that he will win. Apparently they are imbued with the idea that that San Francisco knockout was tinctured with iodine and just didn't count. They further have achieved much solace by recalling that Ketchel returned to knock Papke into the right field bleachers and that Gans, stopped in 12 rounds by Erne, later was able to reverse the feature in exactly one.

Why they should confound Joe Dundee with Gans and Ketchel is a bit beyond my feeble resources. From what I have seen of Joseph, he is a fair fighter who might become champion provided no one else is better. They say he is one of the rising young men of the profession and he may need to be if Roberts annoints him with another right.

The pro-Dundee crowd support their guess on tonight's number by declaring that Joseph always was a slow starter anyhow but would hasten himself this time. In other words, they are looking for a Charley Paddock performance from a Ping Bodie. My guess? A fair enough fight, with Dundee winning on points.

CLAIMS HORNSBY OWES HIM $92,000

ST. LOUIS, Jan. 14. — Threatening court action unless a settlement is made by Rogers Hornsby, former manager of the St. Louis Cardinals, Frank Moore, a betting commissioner of Ft. Thomas, Ky., returned to this city and arranged for a conference with the baseball star's lawyer for this afternoon regarding an alleged debt of $92,000.

Moore claims Hornsby owes him this amount for money advanced the player to pay debts incurred on horse race bets and to make a payment on an apartment house which the latter bought in St. Louis.

William F. Fahey, Hornby's lawyer, reiterated his client denied owing the debt and that he advised his client not to recognize the claim.

FARMER GUILTY IN MAN'S DEATH

Perry C. Gatewood is Convicted of Manslaughter.

GALLIPOLIS, O., Jan. 14.—A jury found Perry C. Gatewood, Gallia county farmer, guilty of manslaughter late yesterday in the killing of Hiram Johnson, a tenant of Gatewood's on a farm near Crown City.

The men had quarreled over a crop of tobacco they had raised on Gatewood's farm. Gatewood beat his victim to death with the butt end of a shot gun, crushing his skull.

Johnson left a wife and six children.

COUNT SAYS HE IS VINDICATED

Salm Claims he is Winner in Rogers Suit.

NEW YORK, Jan. 14.—Count Ludwig Salm, recent plaintiff in a separation suit against the former Millicent Rogers, Standard oil heiress, feels that he has been vindicated "in the court of public opinion."

This was the assertion today of his lawyer, Herman B. Goodstein, commenting on the settlement of the suit out of court.

It is understood the count will receive from his father-in-law, Colonel Henry H. Rogers, $325,000, with the stipulation that Salm will drop any claim he may have against his wife's parents for alienation of her affections.

"The count brought this suit for two purposes," Goodstein said. "One was to vindicate himself in the eyes of the public. The other was to prove he had been abandoned unjustifiably and was entitled to part custody of the child. I think he has succeeded in both objects.

"The court hearing established that the countess had no reason whatever for leaving him. It also showed his fitness for the child's custody."

Vote To Continue Fair.

DEFIANCE, O.—Although the deficit of the Defiance county fair board has reached $3,300, the directors have voted to continue the exhibition and will provide a more extensive program to celebrate the 50th anniversary of the event during the autumn of 1927.

Officers of the 1927 organization are: Carl M. Hart, president; F. M. Birdsall, secretary; Ed Partee, vice-president, and M. E. Sinn, treasurer.

FIGHT COUGHS AND COLDS

Play Safe
Use this Natural Remedy

GERMS that cause colds are easily destroyed by the body that's fit and well. Nature sees to that. It's the tired body, the weakened system that can't fight the microbes of coughs, colds and grip.

Get your stomach right and keep it right—then reasonable care will keep you free from colds. Dillingham's Plant Juice is a pleasant-tasting, natural corrective of stomach irregularities. It stimulates liver and bowels, and keeps your stomach free from poisonous waste matter—it purifies your blood, tones up your system, and helps Nature to ward off coughs and colds.

Compounded only from plants, herbs, leaves and other natural products, Dillingham's Plant Juice works in Nature's way. See what Mr. William Wohlrad of Newark, N. J., thinks of this more than thirty year old family remedy:

"While suffering from catarrh of the stomach, I was afraid to go to a show or movie, as I would get coughing and could not stop. Everyone would turn around and look, and I felt so ashamed I would have to leave the theatre before the show was half over. I started with Plant Juice, and before my first bottle was gone I knew I was on the right track. Now my stomach is like a new one, and never gives me the least bit of trouble. I feel full of pep and energy. It's five years ago since I first used Plant Juice, and I have never had a day's sickness since."

Get a bottle today—your druggist can supply you. Ask for the original Dillingham's Plant Juice.

LAME BACK OR LUMBAGO PAIN

"Heet" Relieves Instantly

Use applicator attached to cork, and brush "Heet" over the pain area. Immediately, you feel this harmless, glorious, penetrating heat draw the pain, soreness and stiffness right out of your lame, aching back. Besides, "Heet" scatters the congestion and establishes a cure.

"Heet" instantly relieves rheumatic or neuritis pain in any joint, muscle or nerve, whether in the arm, shoulder, neck, legs or body. "Heet" contains two soothing, penetrating ingredients, too expensive to use in ordinary liniments or analgesics. "Heet" is a clean, pleasant liquid; doesn't stain, blister or irritate the skin and costs only 60 cents at any drug store.

JOHN MORRISON USES LINIMENT KEEPS FREE OF ACHES AND PAINS

This Famous Ball Player Tells What Is Best For Aches and Pains

LINIMENT KEEPS YOU LIMBER, SPRY, SUPPLE

Men and women who suffer with lame, stiff, achy backs, joints or muscles, and would like to be free of such troubles should take a tip from Big League Stars like John Morrison of Pittsburgh "Pirates."

John Morrison says:—"Mike Martin could charge ten times what he does for that liniment of his and not a soul would refuse to pay it. It is the finest liniment made for aches and pains and no mistake."

Big League Stars couldn't play ball if crippled up with aches, pains, swollen, stiff joints or rheumatism. Whenever they get that way no time is lost in quickly relieving the trouble. Mike Martin's Liniment is a higher priced, more expensive liniment than ordinary remedies, but it is worth the difference—quicker, sure, safer and better—more pleasant to use also. It is unquestionably the best money can buy. High priced "Stars" wouldn't fool with anything but the best.

With each bottle of Mike Martin's Liniment you buy at the drug store comes a folder telling just how this famous trainer treats various aches, pains, joints and different rheumatic troubles, lame back, etc. 25 years' experience makes Mike Martin probably the world's greatest expert on such troubles. Take John Morrison's tip. Get a bottle at drug store or write name and address plainly and send with dollar bill for large bottle postage paid to—Mike Martin, Trainer, Washington Ball Club, Brentwood, Md.

This wasn't the girl he'd married

HE WOULDN'T have believed so short a time could make such a shocking difference. What had happened to break her health? To steal her glorious vitality?

What a different story if people realized how constipation wrecks health and vigor! Steals charm. Speeds the aging years! For no one need suffer from constipation. Kellogg's ALL-BRAN is guaranteed to relieve it.

How ALL-BRAN works

The bulk in ALL-BRAN absorbs moisture and carries it through the system. And it gently distends the intestines — cleansing; removing poisonous wastes. ALL-BRAN is all bulk—which is why it produces complete results. In a part-bran product the quantity of bulk is too small to accomplish more than partial results. That's why doctors recommend ALL-BRAN.

Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

Goodbye to dangerous pills

How different from habit-forming pills and drugs that become worthless unless the dose is constantly increased. ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its nut-like flavor. Use it in cooking. Mixed with other cereals. In soups. Try the recipes on every package.

Be sure to get genuine Kellogg's—the original ALL-BRAN. Sold by all grocers. Served at hotels, restaurants. On dining-cars. Made by Kellogg of Battle Creek.

FIGHT COUGHS AND COLDS

Play Safe
Use this Natural Remedy

GERMS that cause colds are easily destroyed by the body that's fit and well. Nature sees to that. It's the tired body, the weakened system that can't fight the microbes of coughs, colds and grip.

Get your stomach right and keep it right—then reasonable care will keep you free from colds. Dillingham's Plant Juice is a pleasant-tasting, natural corrective of stomach irregularities. It stimulates liver and bowels, and keeps your stomach free from poisonous waste matter—it purifies your blood, tones up your system, and helps Nature to ward off coughs and colds.

Compounded only from plants, herbs, leaves and other natural products, Dillingham's Plant Juice works in Nature's way. See what Mr. William Wohlrad of Newark, N. J., thinks of this more than thirty year old family remedy:

"While suffering from catarrh of the stomach, I was afraid to go to a show or movie, as I would get coughing and could not stop. Everyone would turn around and look, and I felt so ashamed I would have to leave the theatre before the show was half over. I started with Plant Juice, and before my first bottle was gone I knew I was on the right track. Now my stomach is like a new one, and never gives me the least bit of trouble. I feel full of pep and energy. It's five years ago since I first used Plant Juice, and I have never had a day's sickness since."

This wasn't the girl he'd married

HE WOULDN'T have believed so short a time could make such a shocking difference. What had happened to break her health? To steal her glorious vitality?

What a different story if people realized how constipation wrecks health and vigor! Steals charm. Speeds the aging years! For no one need suffer from constipation. Kellogg's ALL-BRAN is guaranteed to relieve it.

How ALL-BRAN works

The bulk in ALL-BRAN absorbs moisture and carries it through the system. And it gently distends the intestines — cleansing; removing poisonous wastes. ALL-BRAN is all bulk—which is why it produces complete results. In a part-bran product the quantity of bulk is too small to accomplish more than partial results. That's why doctors recommend ALL-BRAN.

Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

Goodbye to dangerous pills

How different from habit-forming pills and drugs that become worthless unless the dose is constantly increased. ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its nut-like flavor. Use it in cooking. Mixed with other cereals. In soups. Try the recipes on every package.

Be sure to get genuine Kellogg's—the original ALL-BRAN. Sold by all grocers. Served at hotels, restaurants. On dining-cars. Made by Kellogg of Battle Creek.

JOHN MORRISON USES LINIMENT KEEPS FREE OF ACHES AND PAINS

This Famous Ball Player Tells What Is Best For Aches and Pains

LINIMENT KEEPS YOU LIMBER, SPRY, SUPPLE

Men and women who suffer with lame, stiff, achy backs, joints or muscles, and would like to be free of such troubles should take a tip from Big League Stars like John Morrison of Pittsburgh "Pirates."

John Morrison says:—"Mike Martin could charge ten times what he does for that liniment of his and not a soul would refuse to pay it. It is the finest liniment made for aches and pains and no mistake."

Big League Stars couldn't play ball if crippled up with aches, pains, swollen, stiff joints or rheumatism. Whenever they get that way no time is lost in quickly relieving the trouble. Mike Martin's Liniment is a higher priced, more expensive liniment than ordinary remedies, but it is worth the difference—quicker, sure, safer and better—more pleasant to use also. It is unquestionably the best money can buy. High priced "Stars" wouldn't fool with anything but the best.

With each bottle of Mike Martin's Liniment you buy at the drug store comes a folder telling just how this famous trainer treats various aches, pains, joints and different rheumatic troubles, lame back, etc. 25 years' experience makes Mike Martin probably the world's greatest expert on such troubles. Take John Morrison's tip. Get a bottle at drug store or write name and address plainly and send with dollar bill for large bottle postage paid to—Mike Martin, Trainer, Washington Ball Club, Brentwood, Md.

LEWIS STONE IN SCREEN HIT

Anna Q. Nilsson is Bride in Picture at American.

Never take a bride on an aerial honeymoon!

This admonition to prospective bridegrooms comes as a result of the lessons taught to Lewis Stone in his role as a major of the Royal Flying Corps in "Midnight Lovers," the First National production, which opened a two-day run at the American theatre last night.

Anna Q. Nilsson plays the role of the frightened bride, who goes aloft on her honeymoon with an air-mad husband. He shows her all the tricks of his trade in order to impress her with his importance as a flying man, and only succeeds in making her deathly sick, and very antagonistic towards aviators.

That is only the beginning of the trouble in "Midnight Lovers," for after Stone has gone to war, the girl realizes that she can't love an aviator, so takes up with a gentleman flapper, played adequately by John Roche.

The husband comes back from the war only to find his domestic affairs in a worse state. In straightening them out, Stone does some of the best pantomime of his career and Miss Nilsson is more charming than ever.

The completed cast included Chester Conklin, as a funny butler; Harvey Clark, as a blustering divorce lawyer; Dale Fuller, as an overbearing maid, and Purnell Pratt as a nonsensical Englishman.

"Midnight Lovers" was directed by John Francis Dillon from a scenario by Carey Wilson. The First National production was made under the management of John McCormick.

LEWIS STONE IN SCREEN HIT

Anna Q. Nilsson is Bride in Picture at American.

Never take a bride on an aerial honeymoon!

This admonition to prospective bridegrooms comes as a result of the lessons taught to Lewis Stone in his role as a major of the Royal Flying Corps in "Midnight Lovers," the First National production, which opened a two-day run at the American theatre last night.

Anna Q. Nilsson plays the role of the frightened bride, who goes aloft on her honeymoon with an air-mad husband. He shows her all the tricks of his trade in order to impress her with his importance as a flying man, and only succeeds in making her deathly sick, and very antagonistic towards aviators.

That is only the beginning of the trouble in "Midnight Lovers," for after Stone has gone to war, the girl realizes that she can't love an aviator, so takes up with a gentleman flapper, played adequately by John Roche.

The husband comes back from the war only to find his domestic affairs in a worse state. In straightening them out, Stone does some of the best pantomime of his career and Miss Nilsson is more charming than ever.

The completed cast included Chester Conklin, as a funny butler; Harvey Clark, as a blustering divorce lawyer; Dale Fuller, as an overbearing maid, and Purnell Pratt as a nonsensical Englishman.

"Midnight Lovers" was directed by John Francis Dillon from a scenario by Carey Wilson. The First National production was made under the management of John McCormick.

Boston Marriage Figures Show Cupid Loating On Job

But 8,607 Licenses Were Issued During 1926, According to Registrar's Report.

BOSTON.—While the clergymen of Boston are not exactly starving because of a lack of marriage fees, yet, according to City Registrar Edward E. McGlenen, they cannot boast that business in that line is picking up with any great speed.

With the closing of the year 1926 it was revealed that but 8,607 marriage licenses had been issued during the twelve months. To the itinerent eye of a bachelor that may seem like a tremendous figure, but to those who issue the little parchments it shows but an increase of 6 over the year previous.

It is the opinion of Registrar McGlenen that Cupid did a great deal of loafing in Boston last year. An increase of six is not a normal progression he says and to that showing he attributes various reasons.

Woman's increasing economic independence, high rents and the general high cost of living are a few reasons advanced. Upholding the feminine end of the bargain, Mrs. Jennie Loitman Barron, lawyer, lecturer and member of Boston's school committee explains the condition. She believes that the modern girl is more exacting in choosing husbands and insist on a higher standard of male specifications.

Under normal conditions Registrar McGlenen says, marriages should show an increase proportionate to the population growth. But, with $50 rents staring at $35 a week men coupled with the cost of other expenses of marriage the male element are not plunging into matrimony with the haste of years ago.

Going into the condition farther Registrar McGlenen says that marriage figures reflect pretty accurately the condition of business in the city. The matrimonial stagnation is but a parellel condition with that of the quietness of business in Boston.

Haskin's Letter

(Continued from Page Four.)

or its cold, or whether it's hot, we're going to have weather, whether or not."

The McCarl audit covered the books and records of five Washington dealers who at one time refused to permit such an examination but were finally concinced that it would be unwise for them to force the committee to court action.

"The audit clearly reveals that many of the figures sumbitted by the coal dealers themselves at the hearings last winter as typical of costs, were entirely erroneous, being much too high," says the report. "The committee would have been misled if it had accepted the dealers' statements and figures.

"A study of the charts and statements prepared by Mr. Smith reveals clearly that during the strike period the dealers advanced their sale prices more than their costs increased, with the result that during such period their gross profits greatly increased. It is also apparents that their profits on substitutes for hard coal were greater than on anthracite, so that the retail dealers undoubtedly benefited by strike conditions, while the consumer suffered.

"It is equally clear that the gross margins obtained by Washington dealers were much in excess of those obtained by dealers generally in other parts of the country."

The Estimated Fair Profit.

At the hearings last winter the local dealers placed themselves on record as believing and contending that $2.72 a ton was a fair gross profit. This was slightly in excess of the actual average gross margin of 273 dealers as ascertained by the Coal commission—$2.67 a gross ton. It was also materially more than the profit declared to be fair by one of the big coal operators of the nation, who testified that if he added $2.50 a ton to the cost of freight plus mine price for the delivery of coal within a reasonable radius, he would be selling it at a very good profit to himself. The committee in its report makes no effort to determine what a fair profit would be, but contents itself with reviewing the increased margins taken by the five dealers under examination.

One of the largest dealers increased his margin on briquettes from $3.72 a ton to $6.70 during the strike period; on high volatile Fairmont coal from $2.70 to $4.60; on Pocahontas egg and other low volatile coal from $3.15 to $5.90 and from $3.60 to $5.80; on coke from $2.20 to $5.30; while on run of mine, including some slack, the gross margin was reduced 25 cents a ton.

nother dealer had a gross profit of $130,000 on sales totaling $545,000, with net profits of $28,500. However, this dealer had officers' salaries aggregating almost $15,000 and was allowed $7,000 for depreciation and $4,100 for an income tax payment.

In fact, the committee says, the auditors were more than liberal with the dealers in the matter of salaries, selling costs, and allowances for depreciation and income tax. Every cost item that was within reason was allowed, and it should be borne in mind that the aggregate net profits for the year reported for the dealers excluded the salaries for officers and income taxes.

"These salaries usually go to a single family, or comparatively few families, controlling the various companies," continued the report, "so that in considering net profits consideration must also be given to the salaries withdrawn under the guise of expenses."

In giving their so-called voluntary testimony at the hearings last winter many of the local dealers conveyed the impression that they were barely breaking even on the coal they sold during the strike. Instead of being profiteers they viewed themselves as patriots unselfishly rendering a great public service. And they submitted their figures to prove their contention.

THE GREAT ATLANTIC & PACIFIC TEA CO.

Haskin's Letter

(Continued from Page Four.)

or its cold, or whether it's hot, we're going to have weather, whether or not."

The McCarl audit covered the books and records of five Washington dealers who at one time refused to permit such an examination but were finally concinced that it would be unwise for them to force the committee to court action.

"The audit clearly reveals that many of the figures sumbitted by the coal dealers themselves at the hearings last winter as typical of costs, were entirely erroneous, being much too high," says the report. "The committee would have been misled if it had accepted the dealers' statements and figures.

"A study of the charts and statements prepared by Mr. Smith reveals clearly that during the strike period the dealers advanced their sale prices more than their costs increased, with the result that during such period their gross profits greatly increased. It is also apparents that their profits on substitutes for hard coal were greater than on anthracite, so that the retail dealers undoubtedly benefited by strike conditions, while the consumer suffered.

"It is equally clear that the gross margins obtained by Washington dealers were much in excess of those obtained by dealers generally in other parts of the country."

The Estimated Fair Profit.

At the hearings last winter the local dealers placed themselves on record as believing and contending that $2.72 a ton was a fair gross profit. This was slightly in excess of the actual average gross margin of 273 dealers as ascertained by the Coal commission—$2.67 a gross ton. It was also materially more than the profit declared to be fair by one of the big coal operators of the nation, who testified that if he added $2.50 a ton to the cost of freight plus mine price for the delivery of coal within a reasonable radius, he would be selling it at a very good profit to himself. The committee in its report makes no effort to determine what a fair profit would be, but contents itself with reviewing the increased margins taken by the five dealers under examination.

One of the largest dealers increased his margin on briquettes from $3.72 a ton to $6.70 during the strike period; on high volatile Fairmont coal from $2.70 to $4.60; on Pocahontas egg and other low volatile coal from $3.15 to $5.90 and from $3.60 to $5.80; on coke from $2.20 to $5.30; while on run of mine, including some slack, the gross margin was reduced 25 cents a ton.

Another dealer had a gross profit of $130,000 on sales totaling $545,000, with net profits of $28,500. However, this dealer had officers' salaries aggregating almost $15,000 and was allowed $7,000 for depreciation and $4,100 for an income tax payment.

In fact, the committee says, the auditors were more than liberal with the dealers in the matter of salaries, selling costs, and allowances for depreciation and income tax. Every cost item that was within reason was allowed, and it should be borne in mind that the aggregate net profits for the year reported for the dealers excluded the salaries for officers and income taxes.

"These salaries usually go to a single family, or comparatively few families, controlling the various companies," continued the report, "so that in considering net profits consideration must also be given to the salaries withdrawn under the guise of expenses."

In giving their so-called voluntary testimony at the hearings last winter many of the local dealers conveyed the impression that they were barely breaking even on the coal they sold during the strike. Instead of being profiteers they viewed themselves as patriots unselfishly rendering a great public service. And they submitted their figures to prove their contention.

Good News for Skinny Folks

Increase Your Weight 10 or 15 Pounds.

When you are underweight, it is the surest sign that the food you eat does not give you the nourishment you need to be strong and healthy and full of vitality. Put some good solid flesh on your bones, nourish the tissues properly and you will feel like a fighting cock.

Nothing acts so quickly and surely to correct the nutritive processes as a scientific digestive stimulant. Science tells us that stimulation of the digestive organs supplies the nourishment our bodies must have to grow healthy and to have the power to resist disease and to fight the breaking down of the life forces.

A remarkable stimulant-tonic has been devised for just such conditions as these. It is delightfully palatable and is prepared by an old Virginia concern in business for nearly a century. Druggists and physicians have come to know this stimulant as "Old Monticello Tonic." Get a bottle today from your druggist, take a small wineglass full before your next meal—see how much better you eat—feel the glow of stimulated functions throughout the body. A few days' treatment will bring a quick change in run-down conditions and overcome lack of energy.

AIR DIRECTORS HOLD SESSION

The directors of the State Fair Association held their regular meeting Wednesday, preparatory to the annual meeting of the stockholders to be held on January 27.

The report of the year's business is submitted to the directors, and approved. While the details of the report were not made public, it is understood that the State Fair association for 1926 had a prosperous and successful year, and that the receipts from the fair proper were larger than in 1925, in spite of the fact that Thursday, the big day of the fair, was marred somewhat by bad weather.

Receipts from other departments of the state fair activities were not so large in 1926 as in 1925. However, the total volume of business was fairly satisfactory, and leaves the state fair directors in a position to go ahead and make further improvements and additions to the biggest and most useful show of the kind given in the Ohio valley.

SCHOOLMASTERS' CLUB TO MEET

School heads of the upper Panhandle and several Ohio counties are members of the organization.

NEWELL PEOPLE ATTEND DANCE

Large number of Newell young people attended the opening dance last night in the new Rock Springs park pavilion under the auspices of the Welfare department of the Homer Laughlin China company.

WOLFE FUNERAL ON SATURDAY

Messages of Sympathy Over Newspaper Owner's Death.

COLUMBUS, O., Jan. 14.—Funeral services for Robert F. Wolfe, publisher of the Ohio State Journal and the Columbus Dispatch, and one of the leading figures in the business and political life of Ohio, will be held at 2 p. m. Saturday, at Broad Street Presbyterian church here, it was announced today. Wolfe was killed at noon yesterday in an accidental fall from a window in his office in the Columbus Dispatch building, to the street, five floors beneath.

Rev. S. S. Palmer will officiate at the services, and burial will be in Green Lawn cemetery here.

Today messages of sympathy and condolences were pouring in from all sections of the nation to members of the family and associates of the dead publisher.

President Coolidge, former Governor James M. Cox, Governor Vic Donahey, M. Koenigsburg, president of International News Service; Andrew Squire, noted Cleveland attorney; J. R. Nutt, Cleveland banker, and dozens of others prominent in every line of activity throughout the nation, sent expressions of sympathy at the tragic death of Wolfe.

More than 1,500,000 square feet of floor space are being added to the present plants of the Oakland Motor Car Company at Pontiac, Michigan, which will be devoted exclusively to the manufacture of Oakland and Pontiac Sixes.

$15,000,000 more

to Meet the demand for Oakland and Pontiac Sixes

Scarcely twelve months ago Oakland was only one of many manufacturers striving for preeminence. Today it ranks among the largest builders of motor cars in the world. Responsible for this tremendous growth have been a continuous series of triumphs resulting in a record-breaking 212% increase in business over 1925.

212% Increase
1925 Production . . 43,018
1926 Production . . 134,089
Oakland and Pontiac Sixes

With the advent of the past year, came the introduction of the Pontiac Six. So great was the demand it created, that in six months Pontiac Six production had *exceeded the greatest full year record previously scored by a new make of car.* And by the end of the year, with Pontiac production reaching 76,523 cars, that record had been surpassed by more than 100%! In July came the Greater Oakland Six with 77 refinements, featured by that epochal engineering development—the Rubber-Silenced Chassis. Again America paid a wholehearted tribute to Oakland engineering vision. And again, in every section of the land, Oakland sales leaped upward, necessitating the unprecedented production of 57,566 Oakland Sixes—nearly 15,000 more than in 1925—and surpassing any previous record in Oakland's twenty year history.

Now, with its position securely established, Oakland-Pontiac bids for new and greater heights—for over fifteen millions of dollars are being invested to provide for greater production.

This staggering sum—the combined cost of a new Pontiac Six plant, with a capacity of 1,000 cars a day and of important expansions in the facilities devoted to the manufacture of Oakland Sixes—definitely assures Oakland-Pontiac buyers of even greater value in the future. For it makes possible the employment of even more efficient methods of production—even greater precision in construction—even more exacting standards in the never-ending inspections which govern every phase of Oakland-Pontiac manufacture and which have been so instrumental in achieving worldwide good will for these two quality Sixes.

In the strictest sense, this huge investment represents more than an expression of confidence by General Motors in Oakland principles of design, manufacture and distribution.

It stands as a tangible pledge to the public at large that in fundamental goodness and fundamental value Oakland Six and Pontiac Six will continue supreme in their fields!

Pontiac Six, $825 to $975. Oakland Six, companion to Pontiac Six, $1025 to $1295. All prices at factory. Bodies by Fisher. Easy to pay on the liberal General Motors Time Payment Plan.

FREE Treatment for DEAFNESS Head Noises *from* Nasal Catarrh

Sidelights on Original Treatment for Deafness, Head Noises from Nasal Catarrh

Literally thousands of people from different sections of the United States have used this special, original home treatment and have found relief from distressing head noises and restoration of good or normal hearing.

A huge file, containing hundreds of letters from sufferers in all sections of the country has been placed in Dr. Coffee's offices. Here are kept the records of every case treated, making it easy at all times to investigate the various reports. In this way, a careful check can be maintained, showing the results of the treatments in individual cases.

Contrary to the general belief, deafness and head noises, due to nasal catarrh often lend themselves to treatment and relief very readily. While the peculiar construction of the ear in its relation to the nasal passages creates a condition which often results in deafness, its very ease of access also makes possible a ready relief. This was the basis of the home treatment, as perfected by Dr. W. O. Coffee, which has resulted in relief to thousands of sufferers from deafness and head noises from nasal catarrh, and from catarrh itself.

Dr. W. O. Coffee appeals especially to those who are just beginning to find that they are losing their hearing in one ear and when catching cold usually find the other ear affected. Many who are now stone deaf could have been made to hear again if their cases had been properly cared for at the first showing of dullness of hearing.

Many cases of deafness are also caused by dry catarrh—a type which gives no noticeable discharge or symptom.

Insurance authorities place deafness in the list of those defects which increase the risk of the insured life. Many railway accidents, injuries in the street from automobiles and in practically every walk of life are due to deafness or at least defective hearing. This condition in many cases can be corrected—if the trouble is primarily due to nasal catarrh; and nasal catarrh is responsible for practically 90 per cent of the deafness today, authorities state.

Mr. George Bishop of Sask., Canada, says, "I had been growing deaf for 12 years and had been to some of the best hospitals in all Canada. I even submitted to operations without success. I spent hundreds of dollars but gradually grew worse. I became so bad that people had to talk directly into my ear, if I was to hear. By using Dr. Coffee's treatment, my hearing was greatly benefited in one month's time. I wish that every sufferer everywhere who is afflicted as I was would give this wonderful treatment a test. It is wonderful."

Mrs. Mona McBride of Illinois, says, "This is to certify that since having scarlet fever when a little girl, I have been hard of hearing, and for the past four or five years I have been almost entirely deaf in one ear. A few months ago my other ear began to discharge. I found it to be abscessed and discharging a foul fluid. Nothing seemed to stop it and finally I tried Dr. Coffee's treatments. To my surprise and delight the hearing in the ear which was partially deaf for nearly 20 years has returned and the abscess has healed. Now I can hear a conversation six feet away. I didn't believe it possible and I certainly advise anyone suffering from deafness to try this treatment. I obtained relief in a short time."

Noted Deafness Specialist

This is Dr. W. O. Coffee, as he looks today after more than 45 years of active practice—he wants sufferers to try his home treatment free.

DEAFNESS IS OFTEN DUE TO CATARRH OF THE AIR PASSAGES

Competent Authorities Blame Nasal Catarrh for 90 Per Cent of Deafness Throughout the World

A Free Trial Treatment To All Those Who Suffer

DAVENPORT, Ia., Jan. 14.—According to authorities who base their assertions on years of research and actual medical observation and practice, 90 per cent of the deafness in the world today is due to catarrh—catarrh of the air passages.

Not only is catarrh of the air passages, generally termed nasal catarrh, blamed for deafness, but at its door are laid many other diseases, such as stomach catarrh, toxic conditions of the body, and other generally diseased conditions.

This May Be Relieved

This condition may be relieved. It is possible now that Dr. W. O. Coffee, a physician of this city, has developed a home treatment for deafness, head noises from nasal catarrh and catarrh itself, to remedy the trouble — to get rid of the catarrhal condition in many cases and make hearing possible once more. It has been proved that in many severe cases this is true; and this claim is borne out by the results later mentioned in this article.

Great Success

Phenomenal success has attended Dr. Coffee in his work since he first developed this home treatment. It is stated that more than 500,000 cases of deafness, head noises due to nasal catarrh and catarrh have been treated by this physician in all sections of the country and out of this number a huge amount have reported complete satisfaction.

Many of his patients have been people whose hearing was bad in one ear and was rapidly spreading to the other. With every cold, the hearing grew worse. Quickly this condition was relieved; benefited not only for the time but the catarrhal condition was bettered and in many cases all traces of this serious disease disappeared.

Deafness strikes at young and old. It can develop from a number of different causes; but sufferers are seldom concerned with the origin of the trouble. What they are vitally interested in is obtaining prompt relief —and this home treatment of the Davenport doctor has demonstrated its efficacy with young as well as old. By this method many who were destined to a life of handicap, due to catarrhal deafness, were made normal once more.

Improvement General

Physicians state, authoritatively, too, that doubtless other diseased conditions are often combated and relieved by conquering the catarrh; for once the trouble is stemmed, the poison no longer drains into the human system and the blood stream no longer bears the strain of throwing off this poison. As a result it is better able to combat new disease and the general physical condition of the sufferer bettered in addition to the relief given for deafness.

Physicians will tell you that any disease that generates poison has its effects not only locally but throughout the entire body. In the case of deafness or head noises resulting from catarrh, the poison seeping into the system can often cause more serious and lasting trouble than the ear itself.

500,000 Treated for Catarrhal Deafness, is Doctor's Record

A remarkable record has been established by Dr. W. O. Coffee, the Davenport, Iowa, eye, ear and nose specialist, who has developed the treatment for deafness and head noises from nasal catarrh, and catarrh itself.

During his 45 years as a practicing physician, he has probably established a record which no other physician in the country can match. His records show that he has treated more than 500,000 people suffering with deafness, head noises from nasal catarrh, and catarrh, and eye diseases. These people live in all sections of the country and have been treated, in the majority of cases, at home, using the home treatment for this distressing condition, as developed by Dr. Coffee.

The results of these different cases have been gone over and compiled and the merits of this home system of treatment have been absolutely proved. When the average physician has treated fifty cases with one definite system of treatment, it is sufficient to establish what it will do. Dr. Coffee has thousands of such cases. Dr. Coffee has published a book on Deafness and Head Noises; he will send a copy with his free trial treatment.

Amazing Letters Received from Many Who Thought Their Cases Hopeless

Jan. 14. DAVENPORT, Ia., From among the thousands of letters received by Dr. Coffee, the deafness and catarrh specialist, from people who tell of their relief from deafness and head noises from nasal catarrh and from catarrh, he has selected at random a number which are reproduced below.

All of the letters shown in this article are on file in his office.

The letters practically as they came from the writers, follow:

After 17 Years

"Mrs. M. S., aged 64, of St. Louis, came to me personally with a history of losing her hearing about 48 years ago, caused from a catarrhal condition that started when she was a girl. She had been treated by the best doctors in St. Louis, and finally went to Berlin, Germany, and France, trying to find relief from the deafness.

"She was practically totally deaf in her right ear when she came to me and almost in the left. She hadn't heard a telephone in 17 years, and people usually had to write in order to communicate with her. She complained of the most intense head noises. She started my treatment and used it regularly. At the end of two months' time she appeared to be hearing no better; in two months and a half, she sat down and cried, she was so discouraged; at three months she thought she could hear a little better. She kept up the treatment for about a year, and at the end of that time could hear a telephone plainly in either ear, the first time in 17 years.

"This was one of the most severe cases of deafness that I ever treated, and it shows the possibility of what may be done if the structures of the middle ear are not damaged by the disease. She had a long standing catarrh, but fortunately, almost miraculously, the ear drums were not seriously damaged."

Relief at 86 Years

"Mr. J. C. P. of Elmer, Mo., wrote that he suffered with catarrh of the nose and head. Made him deaf quite rapidly. He suffered with severe head noises. He used my home treatment five months, and wrote me that he was completely relieved and says 'I will surprise you by telling you that I am 86 years old'."

Dr. Coffee says that most people past 80 years of age do not obtain complete relief from long standing deafness and catarrh. Usually they are not strong and vigorous enough to throw off long standing weaknesses.

P. A. N. of Galesburg, Illinois, writes: "Just a few lines to let you know that your medicine has done me lots of good. The noise in my head is all gone now, and I feel fine. I am an old lady, 82 years old, and I thank you very much for your trouble." She used only one month's treatment.

Mrs. Fanny B. W. of McKenney, Va., writes she was afflicted with head noises and with itching of the ears, periodical deafness, sometimes almost totally deaf. "I have not been deaf since using your treatment. Your medicines are wonderful." She used three months' treatment.

A. W. B. of East Chicago, Ind., writes, "I have used the one month's treatment received from you just as directed. It has relieved me of all my annoyance from ear noises and throat trouble. I can truthfully say with thanks to you that it is a wonderful treatment for catarrh of the nose, head and ears." He used one month's treatment.

Catarrhal Deafness Now Successfully Relieved by Davenport Doctor

Prepares 25,000 Trial Treatments Which Will Be Given Away Free to All Who Suffer from Deafness, Head Noises or Dullness of Hearing Due to Nasal Catarrh, or Catarrh Itself

Davenport, Ia., Jan. 14.— (Special.)—A proved treatment for deafness, dullness of hearing from nasal catarrh and for catarrh itself has been developed by Dr. W. O. Coffee, an eye, ear, nose and throat specialist of this city, which has resulted in the restoration of hearing to thousands.

Basing his treatment on the fact that in practically 90 per cent of the cases, loss of hearing is due to a catarrhal condition, Dr. Coffee by concentrating his efforts in that field, has proved that restoration of hearing is not a myth. Literally thousands of people from all sections of the United States have taken his original home treatment and have been greatly benefited. Letters from hundreds of these people thanking the doctor for his treatment and attesting to the effectiveness of his work are on file in his Davenport offices.

Dr. Coffee does not claim that his original treatment will restore hearing to all cases of deafness; he says that if the deafness or head noises are caused from a catarrhal condition and the tissues of the middle ear are not damaged, the hearing can often be restored to real good or even normal. Basing his experiments in his office on this practical relief of these conditions, he has positively demonstrated and proved that the restoration of hearing to a great many people is an easy, practical fact for any sufferer to prove to himself at home.

Thousands of people in almost as many varying stages of deafness have used this original home treatment and many have found relief from distressing head noises and restoration of good or normal hearing.

Tells of Development

In telling of the development of this effective treatment for deafness, Dr. Coffee says: "More than 25 years ago, I began to suffer with head noises, dullness of hearing and with catarrh. I was rapidly losing my hearing. It was bad in one ear and with every cold it would get bad in the other. Slowly but surely my hearing was leaving me. I naturally tried every treatment that I knew of, as deafness in my profession would have been fatal to my success. After a great loss of time and when two operations had failed to give me permanent relief I calmed my fears and began to analyze the cause and effect of my trouble.

"Basing my treatment on the results of this study I evolved a system which I believed would remove the handicap of deafness if anything would. There was nothing magical about it. It was a logical, scientific treatment, and within a short time I began to improve. After some time, I was normal again.

"I did nothing spectacular; all I did was to slowly but surely remove the causes of the deafness, and when the causes were removed, I was able to hear again.

Relief to Thousands

"Acquaintances and friends of mine inquired as to the treatment, and soon I was overwhelmed with requests for the method. To treat this number of people in time allotted to office hours would have been impossible, so I was virtually compelled to develop a home treatment. After careful consideration I perfected a course which I believed to be effective. I allowed a number to try it at home, without the assistance of a physician, and found that they could do the work with almost the efficiency and the good results that a doctor could.

Tells of Home Treatment

"Changing the treatment and developing it—adding here and taking away there, after several years, the 'perfected home treatment' was developed. Now it is possible for every one, anywhere, with just ordinary household surroundings, to treat themselves for relief of deafness, dullness of hearing or head noises from nasal catarrh."

Thousands Tell of Relief

Because of the horror of deafness and because of the great number of people who are yearly afflicted with this terrible condition, it was hard at first for sufferers to believe that they could be helped by a simple home treatment. But the thousands of people who have been bettered by the treatment—which can usually be determined by using the free treatment alone—have at last established Dr. Coffee as a leader in his field. His name is known to former sufferers throughout the United States.

Explains Free Offer

To prove that this treatment is effective—that deafness, dullness of hearing, head noises from nasal catarrh and catarrh can be treated and banished at home, Dr. Coffee has determined to give away 25,000 trial treatments. He is making these announcements in newspapers throughout the entire nation and it is anticipated that the free demonstration packages will soon be gone.

Many people have been helped by using the free treatments alone; they have told others, and in that way the giving away of free treatments is justified by this physician. Many who have been bettered by the free treatments have written for more of the splendid method which removed the "bugaboo" and fear of being forever deaf.

Those who are suffering with deafness, dullness of hearing, head noises from nasal catarrh, may try free, at no cost to them whatever, this original treatment. Even the parcel post charges are prepaid by Dr. Coffee and the package arrives at the home of the sufferer free of all charges or obligations.

FREE Treatment for DEAFNESS Head Noises *from* Nasal Catarrh

Sidelights on Original Treatment for Deafness, Head Noises from Nasal Catarrh

Literally thousands of people from different sections of the United States have used this special, original home treatment and have found relief from distressing head noises and restoration of good or normal hearing.

A huge file, containing hundreds of letters from sufferers in all sections of the country has been placed in Dr. Coffee's offices. Here are kept the records of every case treated, making it easy at all times to investigate the various reports. In this way, a careful check can be maintained, showing the results of the treatments in individual cases.

Contrary to the general belief, deafness and head noises, due to nasal catarrh often lend themselves to treatment and relief very readily. While the peculiar construction of the ear in its relation to the nasal passages creates a condition which often results in deafness, its very ease of access also makes possible a ready relief. This was the basis of the home treatment, as perfected by Dr. W. O. Coffee, which has resulted in relief to thousands of sufferers from deafness and head noises from nasal catarrh, and from catarrh itself.

Dr. W. O. Coffee appeals especially to those who are just beginning to find that they are losing their hearing in one ear and when catching cold usually find the other ear affected. Many who are now stone deaf could have been made to hear again if their cases had been properly cared for at the first showing of dullness of hearing.

Many cases of deafness are also caused by dry catarrh—a type which gives no noticeable discharge or symptom.

Insurance authorities place deafness in the list of those defects which increase the risk of the insured life. Many railway accidents, injuries in the street from automobiles and in practically every walk of life are due to deafness or at least defective hearing. This condition in many cases can be corrected—if the trouble is primarily due to nasal catarrh; and nasal catarrh is responsible for practically 90 per cent of the deafness today, authorities state.

Mr. George Bishop of Sask., Canada, says, "I had been growing deaf for 12 years and had been to some of the best hospitals in all Canada. I even submitted to operations without success. I spent hundreds of dollars but gradually grew worse. I became so bad that people had to talk directly into my ear, if I was to hear. By using Dr. Coffee's treatment, my hearing was greatly benefited in one month's time. I wish that every sufferer everywhere who is afflicted as I was would give this wonderful treatment a test. It is wonderful."

Mrs. Mona McBride of Illinois, says, "This is to certify that since having scarlet fever when a little girl, I have been hard of hearing, and for the past four or five years I have been almost entirely deaf in one ear. A few months ago my other ear began to discharge. I found it to be abscessed and discharging a foul fluid. Nothing seemed to stop it and finally I tried Dr. Coffee's treatments. To my surprise and delight the hearing in the ear which was partially deaf for nearly 20 years has returned and the abscess has healed. Now I can hear a conversation six feet away. I didn't believe it possible and I certainly advise anyone suffering from deafness to try this treatment. I obtained relief in a short time."

DEAFNESS IS OFTEN DUE TO CATARRH OF THE AIR PASSAGES

Competent Authorities Blame Nasal Catarrh for 90 Per Cent of Deafness Throughout the World

A Free Trial Treatment To All Those Who Suffer

DAVENPORT, Ia., Jan. 14.—According to authorities who base their assertions on years of research and actual medical observation and practice, 90 per cent of the deafness in the world today is due to catarrh—catarrh of the air passages.

Not only is catarrh of the air passages, generally termed nasal catarrh, blamed for deafness, but at its door are laid many other diseases, such as stomach catarrh, toxic conditions of the body, and other generally diseased conditions.

YOUNG gentlemen, it pays to save. Even a little may be worth while.

Mr. Couzens, asked to pay $9,000,000 more income tax, had saved $900 when he met Ford. That gave him his chance. By and by he sold his interest to Ford for $30,000,000. If he hadn't saved the $900, he could not have the government suing him for $9,000,000.

They must be hopeful, wicked Bolsheviki, for American capitalistic imperialism has only started And as for Latin-Americans, whoever thinks communism, with its theory of dividing, will appeal to them does not know them.

When agents of Moscow tell Latin-America to divide wealth, they will hear a loud manana reaching from the warm Rio Grande to freezing Terra Del Fuego.

THE Giornale d'Italia says: "United States policy may be called one of authority and force" and adds, "when necessary there are cannon behind American dollars." Also correct. Is Europe Moving Into Asia?

Europe is about 100,000 square miles smaller than it was ten years ago. One great city of more than 100,000 people, Perm, has been moved out of Europe into Asia.

The boundary between these continents has been radically altered by the Soviet government, great slices of land now being considered in Asia although west of the Ural Mountains, which formed the old boundary line. An area almost as large as Italy or Poland has been shifted to mother continent.

These changes are shown for the first time on any map in the new MAP OF EUROPE secured by our Washington Information Bureau. Copies of this up-to-date map, in full colors, with complete statistical data about Europe, may be had by any reader for a postage and handling charge of ten cents.

Nadel's motion for a new trial was overruled, but his attorneys gave notice that they would carry the case to the court of appeals.

His bond was fixed at $35,000 pending ruling on the appeal.

Auto Owner Held By Police After East End Crash

John Salsberry is in jail today awaiting investigation of a charge of driving while intoxicated filed against him by Captain of Police Conley.

His car is alleged to have crashed into another automobile parked in front of the Mackey restaurant, Mulberry street, at 7:30 o'clock last evening. Captain Conley later found Salsberry's machine parked in St. George street, with the owner asleep in the front seat.

Salsberry claims another man was driving the car at the time of the crash and that the driver fled after stopping the machine. He was unable to furnish the driver's name and was remanded to jail pending inquiry.

FORT WORTH PASTOR PLEADS 'NOT GUILTY' ON CHARGE OF MURDER

Twelve Married Men Take Place in Jury Box as Trial Opens in Texas Courtroom.

ACCUSED CLAIMS SELF DEFENSE

Battle Begins Over Shooting to Death of D. E. Chipps, Wealthy Lumber Dealer.

COURTROOM, AUSTIN, Tex., Jan. 14.—Rev. J. Frank Norris, of Fort Worth, arraigned before the jury of 12 who will pass on the charge of murder against the pastor, pleaded "not guilty" as court opened this morning.

He is on trial on an indictment charging him with murder in the shooting to death of D. E. Chipps, wealthy lumber man, in the study of the First Baptist church, at Fort Worth, last July.

Norris claims that he killed in self defense, firing only after he had reason to believe that his own life was in danger.

With the entering of Rev. Norris' plea, the court battle was on. Twelve married men, each the father of children, were in the jury.

The jury: W. D. Miller, 57, former sheriff; C. A. Brown, 37, laborer; O. D. Moore, 34, laborer; Walter Johnson, 27, dairy man; Will J. Dill, 61, retired; C. A. Galbreath, 37, butcher; W. T. Cold Wave on Way To Ohio; Mercury To Fall Tonight

COLUMBUS, O., Jan. 14.—Look for the mercury in the bottom of the tube when you look at the thermometer Saturday morning, Weatherman W. H. Alexander warned Ohio residents today.

Medicine hat is sending a 20 degree temperature drop over Montana and the Dakotas into the plains states and the eastern lake states.

Snow will be absent from the cold wave in Ohio, Alexander predicts, and light to moderate winds will follow in its wake.

The cold wave will be felt in all sections of Ohio., West Virginia and the middle west in general, Alexander declared.

BLIZZARD HITS CHICAGO THEN MOVES ON EAST

Weather Races Toward Seaboard States.

FIVE ARE DEAD

Storm General Over Middle and Far Western Sections.

CHICAGO, Jan. 14.—The mid-winter blizzard that buried Chicago under a foot of snow, paralyzed transportation and brought death and injury to a score of citizens, had vacated the middle west today and is now racing toward the Atlantic seaboard states. Zero weather will follow in its wake, according to weather bureau forecasts.

The storm was general over the middle and far western parts of the country. Nearly two-thirds of the area of the United States today is covered under a blanket of snow ranging in depth from three to 15 inches.

Five persons are dead in Chicago as a result of accidents directly caused by the heavy snow. A force of 15,000 men were unable to keep the streets and lanes of transportation open.

Serious interruptions to traffic are reported from all sections of the affected area. Railroad trains were running far behind schedule. Motor traffic in some sections was at a complete standstill owing to the drifted conditions of the highways. Air mail service ont of Chicago has been temporarily suspended.

Wire communication over the affected districts is so badly crippled that no accurate account of conditions or the extent of suffering and hardship can be obtained.

"The storm in the middle states is now passing rapidly to the eastward," says the weather forecast. "Another storm is pushing in from the North Pacific region. The cold area lies between these two storms, which will cover the northwestern states with temperatures ranging from zero to ten below."

Fire Destroys Box Factory.

COLUMBUS, Jan. 14.—State and city fire officials today were investigating an early morning fire which destroyed the lumber box factory of J. H. Murdock, Grandview, with an approximate loss of $20,000. Cause of the fire has not been determined.

One fireman was overcome by smoke but his condition is not serious.

Collector Faces Second Charge of Embezzlement Here

Another charge of embezzlement, preferred by George C. Heckathorn, has been filed against Herbert Gary, head of a local collecting agency, arrested here Wednesday night.

Gary pleaded not guilty to charges of embezzlement and removing mortgaged property when he faced Judge Hanley this morning and was held under $1,200 bond pending a hearing.

The first information was filed by Lee Copenhaver, who charged Gary with embezzling $29.50 belonging to the C. W. Lowers & company grocery. Next came Joseph Rudolph, Dresden avenue furniture dealer, who charged him with having moved furniture and other furnishings upon which he held a mortgage.

Heckathorn, charges that Gary embezzled $18 which had been collected for him.

CHAPLIN WILL FIGHT WIFE'S DIVORCE SUIT TO BITTER END

Film Comedy King Blames Lita Grey's Family.

WANTS CHILDREN

Resents Dragging in Name of Edna Purviance.

NEW YORK, Jan. 14. — Charlie Chaplin, the king of film comedy, arrived in New York on the Twentieth Century limited today and told reporters that he would fight his wife's suit for a divorce "to the bitter end." He said the action brought by Lita Grey Chaplin in Los Angeles was instigated by his wife's family.

"I'm going to fight this thing out," he asserted. "I'm going to fight for the custody of my two children."

Chaplin resented the bringing of the name of Edna Purviance, noted screen actress, into his domestic difficulties.

"Certainly, she's on my payroll," Chaplin said. "She's on the payroll for $250 a week but that was the stipulation in her original contract.

"There was absolutely no reason for dragging Miss Purviance's name into this."

Smiles As He Poses.

Chaplin did not seem as depressed as reports from the west indicated. He was in Chicago yesterday. He smiled as he dropped off the train to face a horde of reporters and a battery of cameras. He posed amiably for pictures.

A large crowd gathered near the train, having learned of Chaplin's arrival. Chaplin tried to make his way to a waiting automobile but he was blocked by the reporters who shot questions at him.

In reply to one question Chaplin denied he is worth $16,000,000 or anything like that amount.

"Why," he declared, "I'm not worth one-half of six million dollars."

"Money Plot," He Says.

Chaplin characterized his wife's divorce action as "a money plot, pure and simple."

He declared that he intended to file a cross bill just as soon as he got back to California.

Charlie is not going to allow his martial troubles to interfere with his art, he said. He is going to resume work upon his newest picture, "The Circus," and complete it.

The famous comedian was as dapper as ever as he stepped from the train. He wore a cream colored fedora hat and a broadcloth overcoat with an astrakhan collar. His necktie was dark and he carried a cane.

A wan smile, as pathetic as that used in some of his pictures, hovered over Chaplin's face as the photographers rushed forward and began to request different positions for pic-

ANOTHER IS SERIOUSLY INJURED IN GUN FIGHT IN PALM BEACH CAFE

George Kellogg, of Springfield, Mo., Shot Three Times, Succumbs in Hospital, While Chance Acquaintance is Wounded in Hip After Argument Regarding Calles Attitude.

FIVE PERSONS SOUGHT BY POLICE IN CONNECTION WITH AFFAIR ESCAPE

Little Enthusiasm is Manifested in Washington for Peace Plan Put Forward by Senator Borah for Solution of Difficulties in Nicaragua as Well as Mexico.

DR. SACASA DEMANDS THAT U. S. FORCE WITHDRAW FROM NICARAGUA

MEXICO CITY, Jan. 14—Immediate withdrawal of the American forces from Nicaragua, under threat of an appeal to the Spanish-American nations for military aid to repel the Yankee invasion, has been demanded by Dr. Juan Sacasa, leader of the Nicaraguan rebels, in a note to United States Secretary of State Frank B. Kellogg, according to a dispatch from Guatemala received here.

The Guatemala dispatch states that it is based upon information received from the Sacasa headquarters.

WEST PALM BEACH, Fla., Jan. 14.—One man is dead and another suffering from serious injuries here today following an argument over the Mexican situation.

George Kellogg of Springfield, Mo., died this morning form the effects of three bullet wounds and W. H. Hoffman, also of Springfield, lies in a hospital with a bullet wound in his hip, while five others are sought by the police.

The men were [illegible] acquaintances eating dinner together in a Pal[illegible] cafe when they entered into a argument on the [illegible] situation, police said, which led to blows and th[illegible]. The five men sought escaped from the cafe while a waiter was summoning police.

By GEORGE R. HOLMES.

WASHINGTON, Jan. 14.—Little enthusiasm was manifested today in official quarters for the peace plan put forward by Senator William E. Borah in an effort to smooth away the administration's troublesome difficulties in Nicaragua and Mexico.

Borah suggested (1) that a new election be held in Nicaragua, with U. S. Marines acting as umpires to insure a fair count; and (2) that the controversy with Mexico over her new land and petroleum laws be submitted to arbitration.

Definite commitments as to the administration's attitude were difficult to obtain today, but it was evident that the stae deparment is cold to both proposals.

Principles at Stake.

In Nicaragua, Secretary of State Kellogg has decreed that Adolfo Diaz is the constitutional president of the country, and has sent marines and warships there to keep him in power against Dr. Juan B. Sacasa, who is recognized by Mexico as the constitutional head of the republic. Kellogg has maintained that a constitutional principle is at stake. Hence, any compromise by way of a new election might be interpreted as an abandonment of that principle.

In Mexico, the controversy hinges about the constitution of the country, and the state department is loath to submit a constitutional question to arbitration by The Hague, because it would establish a precedent that might come back to plague the United States. This government has always taken the position that a constitution, at least the American constitution, cannot be arbitrated. If it now should accept the principle that the Mexican constitution can be, it might be interpreted as an abandonment of its age-old stand. Also, it was pointed out, the state department contends the Mexican land laws are confiscatory and that involves another principle.

Broadly speaking, the state depart-

Shegog Confesses Judgment of $100 In Lawyers' Suit

Thomas Shegog, ceramic engineer, yesterday confessed judgment of $100 in the suit brought in municipal court by Brookes and Thompson for attorney fees.

When the case was called Shegog asked that the case be heard by a jury. A hurried call was sent for a jury and after the veniremen had been seated, Shegog asked that he be allowed five minutes in which to engage an attorney. He later returned with S. W. Crawford. Crawford and Attorney George E. Davidson, representing Brookes & Thompson, conferred and Shegog finally agreed to settle the claim for $100.

The suit was based upon Shegog's alleged breach in an agreement which he made with Brookes and Thompson to represent him in a suit for damages against Mrs. Abe Shapiro for injuries alleged to have been sustained in an automobile accident.

Mayor, Director And Fire Chief Inspect Theatres

Mayor Ralph C. Benedum, Service-Safety Director J. W. Moore and Fire Chief Thomas Bryan have completed a fire inspection of East Liverpool's four down town theatres and movie houses.

The playhouses were inspected from roof to cellar, a thorough investigation being made as to fire exits and escapes. Suggestions for minor changes were made.

No serious fire hazards were found in any of the theatres, the officials said.

MOTHER'S 17-YEAR SEARCH FOR HER TWO SONS, ONCE INMATES OF FAIRMOUNT HOME, ENDS IN SHERIFF GEORGE WRIGHT'S OFFICE AT LISBON

A 17year search for her two sons, who as babies were placed in the Fairmount Children's Home at Alliance in 1910, ended yesterday when Mrs. Mary McCoy, now a resident of Detroit, was reunited with Russell Sitler, 19, and Edward Ruhl, 18, in the office of Sheriff George Wright.

Russell was found in the county jail where he was being held pending his transfer to the Mansfield reformatory to serve an indeterminate sentence upon a charge of grand larceny. Edward, the other son, was living at the home of Mr. and Mrs. Samuel Ruhl, Church Hill road in Elkrun township.

About 20 years ago, Mrs. McCoy married Edward Ridgley, an East Liverpool potter, who now resides in Broadway. About three years after their marriage, the mother became ill and Ridgley, without means of caring for his two children, one and two years old respectively, placed them in the Alliance home.

The mother was confined in the hospital for 18 months and in the meantime the two children were adopted, Russell going to the home of Mr. and Mrs. Albert Sitler, of Lisbon, and Edward being taken to the home of Mr. and Mrs. Samuel Ruhl, Elkrun township. Upon her release from the hospital the mother went to the children's home but was unable to learn by whom her two sons had been adopted.

Later Mr. and Mrs. Ridgley were divorced. The woman moved from East Liverpool to Detroit about 10 years ago and was remarried. Her second husband is dead, but today Mrs. McCoy is in comfortable circumstances.

Spent Hundreds of Dollars in Search.

Hundreds of dollars were spent by Mrs. McCoy in a search for the children. A few weeks ago Russell, the elder brother, was charged with the theft of $300 from the Samuel Ruhl home, the information having been furnished by Mrs. Myrtle Sitler, his foster mother. He was arrested in Beaver Falls and, brought back to Lisbon, admitted having taken $175.

"I'll make every effort to make good if given a chance," was young Sitler's comment when he faced Judge W. F. Lones a few days ago at which time he was sentenced to the reformatory.

An East Liverpool woman read of the arrest of young Sitler a few days ago and forwarded the newspaper clipping to Mrs. McCoy, with the suggestion that "this might be your son." Mrs. McCoy hurried to East Liverpool upon receipt of the letter and Wednesday evening went to Lisbon.

At the county jail Mrs. McCoy sobbed when she recognized the youth in custody of the sheriff as her eldest "baby."

"I've spent hundreds of dollars in an effort to find my boys and at last my efforts have been rewarded," said Mrs. McCoy as she put her arms around the boy.

At Russell's suggestion Mrs. McCoy went to the Ruhl farm where they found Edward working in the barn. A taxi driver informed the youth that "your mother wants to see you out in the car." The boy stepped to the road and in a few minutes was convinced that Mrs. McCoy was his mother. Without waiting to inform the Ruhl family of what had taken place, the youth, clad in a pair of overalls and a sweater coat, was taken to the county jail where the two brothers and their mother met under

MENJOU FILM IS KNOCKOUT

The premier showing of a D. W. Griffith production is always an event. The first screening of his latest Paramount picture at the Ceramic theatre last night was more than an event. It was a phenomenon!

"Sorrows of Satan," Marie Corelli's famous novel could not have been given a finer presentation. From the very first fade-in to the last fade-out, the film spells "Box Office." That—combined with the drama, pathos, spectacle and beauty which is Griffith, and which only a Griffith is capable of giving—makes "Sorrows of Satan" a picture to be remembered.

That most likable of thespians, Adolphe Menjou, gives his usual nothing-to-be-wished-for performance. As "The King on Main Street" and "A Social Celebrity," Menjou won tons of praise, but when placed next his impersonation of Satan, those characters fade into obscurity. Used as we are to the musical comedy version of a red-coated devil with horns and fork, Menjou makes Lucifer a modern man of the world, and does it in a understanding manner.

Ricardo Cortez, Carol Dempster and Lya de Putti, the other featured players, are deserving of words of praise. Cortez, in blossoming out as a dramatic actor, gives a fine account of himself. Nothing more need be said of Carol Dempster's performance other than to write—the perfect Griffith heroine. And as for Lya de Putti—Lya's like no one else—a revelation!

In adapting "Sorrows of Satan," John Russell and George Hull have laid the story against the background provided by a modern city. No review could be complete without making mention of the picture's marvelous photographic feats and dexterous lighting effects. Cameramen and technical experts have covered themselves with glory.

Forrest Halsey prepared the scenario. Other players appearing in the picture include Ivan Lebedeff, Lawrance O'Orsay and Marcia Harris.

British Tennis Body Adopts Amateur Rules; Drastic Regulations

LONDON.—With the object of keeping the game clean and free from any taint of professionalism the British Lawn Tennis association has decided that the writing of reports for the Press by a player is a breach of amateur status.

It also decided to forbid players accepting payments for lecturing or giving radio talks on the game, or even permitting a name to be mentioned as interviewed for newspaper publication. No decision was reached on the question of lecturing for payment. This matter will be raised at a later meeting.

These decisions will go to the International Lawn Tennis association for ratification. Until this occurs they are only in the nature of pious resolutions.

One decision will, however, have instant effect. This bars a professional at any other sport playing as an amateur at lawn tennis.

CHAPTER THIRTEEN.

Then I turned by attention to my companion. I cut his bonds with my pocket knife, only to find that he was too stiff to move.

I set to work to rub his ankles while I asked him how he came to be there.

He was, it appeared, a New York detective who had got on the track of a big deal in the illicit drug market. There was, he explained, a section of the New York police especially concerned with the smuggling of narcotics, and that section had been having a pretty thin time of it in the years immediately following the War. Three of its members had mysteriously disappeared within the last twelve months, and meanwhile the position in regard to the trade was very disturbing from the official point of view.

"When I tell you," said my new friend, who called himself Cyrus P. Claypole, "that there are over two million registered drug addicts in the United States, and that our department reckons that the turnover of the dope merchants last year amounted to many million dollars, you may form some idea of the magnitude of this proposition."

Mr. Claypole had apparently been successful in conducting one or two minor operations which had resulted in three fairly large seizures by the customs. This had brought him to the notice of his chiefs, and they had sent him on a secret mission to Europe with the object of endeavoring to track down the headquarters of the gang, which, according to information, was conducting operations so vast and so world-wide that their exact extent could never be fully known.

I mentioned the "inner ring" to which references had been made that morning at the meeting of the Opium Committee of the League.

"Those guys were right," said Claypole. "There's a sure enough ring, all right, and the head of it is that same yellow-faced Japanese who owns this high-class residence in which we are now confined."

I told him of my interview with the Japanese in the room of the yellow hangings.

"Seems as though he's the leading light, and I reckon he's about as wicked as he looks. I'm dead sure he did for my pal, Harold Lynch, in 'Frisco, and Charlie Malone could have sent us a word in season if he hadn't been found in pieces, poor fellow, on the streets of Tokio."

Claypole went on to tell me that he got on the track of the gang through a Paris agent, but that his operations had been almost immediately discovered, and that he had since had to flee for his life. He had evidently been pretty hard pressed, for just before I had met him at Dijon he had in Paris twice narrowly esaped from two inexplicable and seemingly fortuitous street accidents, one in the Place de la Concorde, and another in the rue St. Honreo. He had, however, eventually reached the Gare de Lyon and boarded the train, as he thought, without detection.

I listened to his story in amazement. I could scarcely believe my ears. That the illicit drug traffic was a grave problem I knew, and I was well aware that there were millions of broken-spirited creatures in the grip of the triple fiends, morphia, heroin and cocaine. But that the pedlars of these drugs carried on their operations in so vast a scale that murder counted apparently for nothing was almost inconceivable. But there was no getting away from the facts.

Claypole related how he had been abducted from the bedroom at Dijon.

"They must have doped me," he said. "For I woke up next morning with a head like a home-grown cauliflower."

"I had something of a head myself," I said. "And now I come to think of it, there was a strange sort of smell in the room."

He had been taken by car straight to the house in which we were now immured, where they had questioned him as to his precise knowledge of their doings. They had met with little success, and the Japanese had decided that Claypole was too dangerous to be left alive. Preparations for his demise had been in progress when I arrived on the scene.

Though it takes some time to set this down on paper, it did not take long for Cloypole to tell me his tale. Indeed, I had not finished rubbing his wrists and ankles when he had finished. I had, however, little time to tell him of my own adventures, or of the mysterious handkerchief, for he had by now partially recovered the use of his limbs and was eager to be up and doing.

"Lucky you found that high-grade exit of Count Emilco," he said. "Where does it land us when we arrive?"

"It lands us in a well," I replied. "And as far as I can see, that's about as far as we are likely to get."

"It's the best we can do," he urged. "There's no earthly chance of getting away through the house."

As he spoke, we heard footsteps descending.

"Here comes that darned ice-cream merchant with a complete outfit for the heavenly pastures," he said.

"Wait a moment," I whispered, "if he finds the door locked, he'll suspect something and they'll watch the well. We must blow out the lights and leave the door unlatched. It'll take him some time to discover what has happened."

"All right," he nodded. 'I'll douse the glim. Lead on, Macduff, and Cyrus P. Claypole will follow."

I stole across to the door and turned the key softly, while Claypole put out the light. Then we groped our way to the sliding panel. Just as we slipped through I heard the voice of Marce.

"What the devil have you done with the light, Fugi?"

I called back, endeavoring to imitate as best I could Fugi's voice.

"It has gone out, Signor. There is no oil. You will have to get another lamp."

Marce said something which I could not catch from the other side of the door, and presently I heard him depart again, grumbling, into the darkness. We had escaped for the moment.

Taking Claypole by the hand, I pushed off along the dark passage. Presently we came to the water.

"Can you swim?" I whispered.

"You bet. But I don't cotton to the idea of a cold bath."

It's not far," I assured him.

I uncoiled the silk rope as I spoke, and handed one end of it to him, keeping the end to which the stick was attached round my waist.

"Hold on to this and follow me," I said. "You won't have to hold your breath for very long."

We waded down the slope towards the opening till the water closed over our heads. Then I struck out vigorously, feeling the rope tugging behind me as Claypole labored to keep the pace I set. In a few seconds we had reached the hole by which I had entered the passage, and I shot up into the well, my companion behind me, letting go the rope as he came to the surface. It was an enormous relief to be in the open once more, and I breathed the night air gratefully. The sky above was gray black, with one or two pale stars distantly shining.

Claypole swam cautiously round our prison, feeling the sides of the well carefully as he did so. Presently he stopped and whispered back: "Say, friend, will you come over here?"

I swam across to him, and feeling where he had directed, struck my knees suddenly against an uneven stone about three feet below the surface of the water. I put my foot down and found it was broad enough to rest most of my weight upon it.

"I've got an idea," said my companion. "Are you still holding on to that piece of furniture?"

I passed him the leg of the couch. He unwound the silk rope from my waist and retied one end to the stick.

"Now," he went on, "I've got to climb on your back. Think you can hold yourself steady?"

"I'll try," I replied.

I succeeded in wedging both feet on the little ledge and, raising myself out of the water, wedged my hands into two uneven crevices on the wall side of the well. There I stood in a semi-upright position, halfway out of the water, but my balance was not very secure.

My companion, seized me by the wrist and began to climb with great caution up my back on to my shoulders. When he was halfway up the strain became too great and I fell back into the water with a loud splash.

We listened eagerly for any sound as we came to the surface again, but all was silent save our own breathing.

"Once more into the breach, dear friend," said Claypole cheerfully, and I could not help but admire his spirit.

With some difficulty we found the stone again, and I hoisted myself up. This time we were more successful. My companion succeeded in getting himself up on to my shoulders and reared himself upright against the side of the well. He took a length of my rope, with the leg of the couch attached to it, and swung it upwards. After three or four attempts he managed to get the leg over the top of the well, where it stuck fast in some unseen projection on the other side. He tugged at the rope gingerly and then let himself slide as noiselessly as possible into the water again.

"Now," he said, "I'll go first."

EAST LIVERPOOL—AMERICA'S POTTERY CENTER

FRIDAY, JANUARY 14, 1927.

Death of Robert F. Wolfe

The sudden death in Columbus yesterday of Robert F. Wolfe, for years a power in business and politics as well as a publisher of two newspapers, stunned Ohio, his native state, in the prosperity of which he had played no minor role.

The owner of the Columbus Dispatch and Ohio State Journal was killed when he fell from the ledge outside the windows of his office on the fifth floor of the Dispatch building, which was a monument to his success in the newspaper business.

Few, if any, men have had a more varied career than Bob Wolfe, as he was familiarly known. Canal boat driver, ordinary seaman on a schooner, newsboy, cypress swamp worker, cowboy, miner, shoemaker, shoe salesman and later manufacturer. newspaper columnist and newspaper owner—these were few of the milestones in his career. And in each of them he never knew failure.

He was powerful and fearless. Seemingly blunt and gruff at times, he always was outspoken and vigorous and his judgment shrewd and keen, but among his intimate friends he was known as kind and generous. He was especially beloved for his interest in charities, and he had contributed thousands of dollars in benevolences.

He was a leader in the Columbus Community Chest and similar activities during the World war. And he was known as "Commodore" because of his relief work in the 1913 flood. He canvassed the submerged zone and where money was needed he gave it. And later, when asked to put in a claim for reimbursement, he replied to the adjutant general of Ohio, "I didn't ask you or the state whether I should be friendly to my neighbors when they needed help." And this spirit was typical in all his philanthropies. He gave always with the stipulation that the donor's identity should be a secret.

Robert F. Wolfe was one of the outstanding citizens of the Buckeye state, and in his death Ohio loses a man whose place will be hard to fill.

"Bourgeois" Jazz

Of all indictments brought against American jazz, the most curious is this one from Moscow:

Soviet Russia forbids our jazz on the ground that it is "bourgeois music, unfit for proletarian society."

The word "bourgeois" is always a puzzler for Americans, because it means something that doesn't exist in America. It refers to a "middle-class" or "business class" as distinguished from the old European order, with its aristocrats at the top and propertyless "working class" at the bottom.

So jazz is taboo in Russia because it is respectable middle class stuff, and therefore unworthy of Bolshevists! Our American dances are barred, and likewise our dance music—no fox trots, Charlestons, etc., even over the radio. When some other European nation puts on the air its own quaint version of American jazz, the government-controlled Moscow broadcasters butt into the wave and drown it out with a "cat concert." Thus Bolshevist morals and art are kept pure.

Really, this is too much. Here our jazz artists and devotees have been priding themselves on the wildness, lawlessness and general devilishness of their dances, and making them the reddest thing this nation is capable of, and along come those Russian Reds and turn it down as too smug and Victorian for them.

By way of relieving our suppressed instincts we try, in our dancing moods, to act like a lot of crazy Russians, and only win their scorn. We might as well give up and go back to Strauss waltzes.

Co-Operative Monroe Doctrine

According to a recent Washington dispatch, regarding the Mexican and Nicaraguan questions:

"Probably the gravest issue is whether the Monroe Doctrine is going to be protected by voluntary co-operation in this hemisphere, or by the force of the United States alone."

Nothing seems to have occurred so far in Mexico or Nicaragua really involving the Monroe Doctrine, but there might be such developments at any time.

Mexico has been meddling with the Nicaraguan situation, but there is nothing in the Monroe Doctrine to forbid a sister republic to do that, though it complicates things for Uncle Sam.

If the Monroe policy is invoked at all, our people would probably prefer to see it applied, if possible, with the co-operation of the Latin-American countries for whose protection it is intended. Most of them have grown up now, and all have a natural interest and pride in helping to look after each other. That is the ideal of the Pan-American Union which we ourselves have fostered.

Earthquakes, like rain, affect both the just and unjust, and so Calexico has to be shaken up along with Mexicali.

Do you remember the good old days when villages limited automobile speed to eight miles an hour.

"If you want to telephone "Hello, how's my baby?" across the Atlantic now, you can do it. But it will cost you $75.

AN EXPERT OPINION.

When I hear of medical experts diagreeing in a consultation I think of a diagnosis which was made once by a colored person from down South who came North to drive a car for a friend of mine.

This was in the days when automobiles were more prone to functional disorders than at present.

This darky was a fair-enough chaufeeur and he professed to be a good mechanic, but as subsequent events proved, no reasonably prudent person would entrust him with a nutpick.

One bright Suday he took his master for a spin over on Long Island. Suddenly, on a lonely road, the car developed a racking cough and a hectic flush, and after panting along for a few rods came to a dead stop.

The chauffeur descended from his seat, selected an armful of wrenches and other utensils from the tool box and wiggled his way under the balking auto. There he hammered and tinkered for twenty minutes. Eventually he crawled out, covered with dust and streaked with grease, and delivered his opinion to his employer.

"Mr. Miner,," he said, "I reckin' you'll have to fine your way back to town de bes' way you kin. They's fo' sep'rit things de matter wid dis yere cyar—an' I dunno whut nary one of 'em is."

NEW YORK DAYBYDAY
By O. O. McINTYRE

LOS ANGELES, Cal., Jan. 14.—Strictly speaking there is little of the hectic night life we know on Broadway out here. Such as is expressed in the jazz tum-tum of the Black Bottom bazaars. There are some roosts for night birds but comparatively few.

The afternoon tea appears to be the substitute. All the big hotels have their luxurious tea gardens where fashionables drift. Also those celebrities who crave admiration. They are usually in the semi-open and fringed with palms like a brilliant Belasco setting.

But the real evening parties are in the home. Out in Hollywood these affairs have often gobbled up much first page space. Gossip monging is one of the Hollywood sports. This name and that are linked in the shady liaison. Wife swapping is common talk.

I heard of one director who was off on a three weeks' twister—"fried to the ears." I had seen him twice during that time as coldly sober as a chairman of the board addressing the directors. Hollywood has its bad boys and girls. It would be impossible to get around the record.

That is true of every profession and trade. I hold no brief for Hollywood. I believe those so suddenly elevated to riches and fame owe much to their audiences. Many have betrayed this trust and deserve the banishment they received. On the other hand I believe the colony has often been maligned.

I have noted nine young ladies and four young men of varying degrees of cinema fame who neither drink nor smoke. The list is doubtless larger. All are a little conscious of their fame and resort to posing. Also I have not noted an excess of intellectual brilliance among them.

As a casual observer they strike me as ordinary folk found on every hand splashed suddenly out of obscurity and still floundering around wondering what it is all about. And gripped by a paralyzing fear that any day the bubble may burst.

A pleasant caller today was Mike Donlin, a baseball idol of 20 years ago. It was a youthful dream of mine to be his bat boy. He is untouched by the mockery of Time. Mike has the same cocky, swaggering walk as he had in those roystering days when he was swatting the apple over the garden wall—or biffing an umpire. He is in the movies now—married and quite content.

Los Angeles is thoughtful of the tourist. There are no red faced crossing cops rushing at touring motorists to bawl them out for slight traffic violations. The cop here rebukes in a smiling kindly way. Often he stops to chat. This consideration for the stranger is also noted among waitresses, waiters, newsboys and others who serve vast tourist hordes. Perhaps this accounts in no small measure for the statistical fact that more than 700,000 tourists permanently located here during the past five years. They came, saw—and remained. The New Yorker who is often greeted with scowls and sneers curls up to purr and gurgle with delight over the change.

There is a newsboy near Pershing Square who used to sell newspaper in Harlem. While chatting with him this morning a youth wearing a toodle-oo belted suit, a pip-pip shirt and fuzzy hat when mincing by. "One of our male impersonators" chirped the lad from Coogan's Bluff.

California girls are beautiful but no more beautiful to my way of thinking than those of Manhattan. I have always thought the most beautiful girls in the world were found on Fifth Avenue and Broadway. But out here there is a noticeable lack of cosmetics. The corn fed bloom prevails. The eyes are not kohled, the lips carmined or complexioned spotched a hideous yellow or green.

HASKIN'S LETTER
By FREDERIC J. HASKIN

Another Coal Strike.

WASHINGTON, Jan. 14.—A warning that the United States may expect another coal strike next April has been sounded in the upper house of congress by Senator Copeland, of New York, with Senator Capper, of Kansas, agreeing that another industrial upset seemed in prospect. Outsiders who profess familiarity with the coal situation say that while a strike is likely to occur as the result of a failure of the bituminous operators and miners to reach an agreement at the wage conference in April they doubt that the strike will come before fall.

Miners rarely go on strike in the spring and summer, it is pointed out. They start their industrial wars at a season when the public needs the most coal, rather than at a time when a strike will cause comparatively little discomfort and inconvenience.

Senator Copeland's warning came by way of comment on a report of the District committee presenting the findings of an audit made of the books of Washington retail coal dealers over the period covering the last anthracite strike.

This audit was made under the direction of Comptroller General McCarl, with H. A. A. Smith, his chief investigator in charge. Its purpose was to determine whether or not the local dealers had profiteered, taking advantage of the coal shortage caused by the strike to exact unjustifiably high prices from the public for coal and coal substitutes. The report says that they did, that they increased their gross profits far more than the increased cost of coal at the mines warranted, and that these profits were substantially more than the dealers admitted or testified to at the congressional investigation last winter.

In fact, the Washington retailers profiteered to a greater degree than the dealers in any other city in the country, according to the committee. Whereas an inquiry conducted by the United States Coal commission showed that the average gross profit of 273 coal dealers in large and small cities throughout the country was $2.67 a gross ton, the McCarl audit showed that dealers in the national capital exacted gross profits that ranged as high as $6.70 a ton, while their net profits in many cases exceeded what was an agreed fair gross profit.

Nothing to Be Done About It.

Senator Copeland declared that there could be no doubt that local dealers profiteered and that dealers throughout the country had done the same thing, even if on a smaller scale. Then he inquired if there were not something that could be done to prevent that sort of thing and to avert another strike that seemed imminent and that would be made an excuse for another raid on the public purse. The only answer this drew from his colleagues was a comment to the effect that the government could not go into the coal business. And since the committee made no recommendations as to legislation dealing with the problem, but merely made public its report and published it in the record in order that the people might be informed as to their treatment by the coal dealers, it seems that nothing will be done of a preventive character.

Apparently congress regards coal strikes as inevitable as weather, of which the familiar song says, "wheth-

Labor Paper Wants Congress To Be On The Job Continually

By CHARLES P. STEWART.

WASHINGTON, Jan. 14.—"Labor," official Washington organ of the rail road brotherhoods, comes out with the suggestion that congress ought to stay in session nearly all the time.

This is entirely a new idea. The usually accepted theory always has been that the whole country breathes more easily the minute congress adjourns The commonly heard complaint is that when it's on the job it can't refrain from passing laws, that we have too many already and that it would be a mercy if we could go for about ten years without a single fresh piece of national legislation.

CAPITOL DOME.

"Labor" makes the point that even too many laws are better than letting the executive branch of the government go it alone for too long at a time.

The attitude of all the presidents suggests that maybe there is something in this view.

Never one of them but always has considered congress a first class nuisance. Congress interferes with a president the worst way. Even if he has a big majority in both houses there's bound to be some opposition to him and his policies. It criticizes It may be able to accomplish no more than that, but at least it makes the chief executive watch his step.

With congress against him the White House tenant's life becomes a burden. Even one of the two houses out of presidential control gums his cards and blocks his game.

It's noticeable that most big presidential stunts are initiated during congressional recesses or between sessions.

The president can start pretty much anything he pleases when congress is away. He may not be able to finish it by himself, but if he gives it a good enough start the lawmakers may very easily have to keep it going when they get back, or the president calls them back, whether they like it or not.

"Labor" doesn't think any president should be permitted to get so far with some plan he happens to have in mind that congress can't veto it if it thinks he's wrong.

For instance, congress took only a 10-day recess over the holidays, left supposing everything was quiet along the Potomac, and came back to find marines landed in Nicaragua, warships maneuvering all over the Gulf of Mexico, the Mexican republic in a ferment and most of Latin America more or less by the ears.

If all that could happen during a 10-day congressional recess, what can't happen during the long gap between March 1 and Dec. 1?—unless there's an extra session.

Congress can still ask, "What made you land those marines?" but there they are. It would have been a lot more effective if it had been in a position to say, "Wait until you're explained what you're going to land 'em for."

What the administration would do right now, if it could, would be to get the present congress to vote money to run the government, not for the next year alone, but for the next two years, or until the end of President's Coolidge's term.

He won't be able to manage the 70th congress, for the senate will be against him, but if he doesn't have to ask it for funds, neither will it be able to manage him.

However, this won't happen. It's been hinted at, but the idea didn't "take." Even the 69th senate, which is pretty independent itself, balked.

Annual Educational Conference Scheduled At State University

COLUMBUS, O.—Ohio school teachers, principals, superintendents, administrative officers and others to the number of nearly 5,000 are expected here April 7, 8 and 9 for the seventh annual educational conference sponsored by the Ohio State university.

Preliminary plans for the conference, just announced by Dean George F Arps, general chairman, call for three general meetings of the educators and 30 sectional or specialized group sessions. One new section will be added this year for teachers of geography. Special programs also are being arranged for the meetings of each of the groups.

Principal speakers at the opening meeting of the conference on the evening of April 7 will be Dr. E. L. Thorndike, noted educational psychologist, of Columbia university, and Dr. Randall G. Condon, superintendent of schools at Cincinnati, who is president of the National Educational association.

Censorship Planned For Burlesque Shows By Cleveland Police

CLEVELAND, O.—Burlesque shows here will in the future be subject to the censorship of police women, according to an announcement from Capt. Dorothy Doan Henry, of the Police Woman's bureau.

Capt. Henry herself inaugurated the move by visiting a downtown theatre and ordering risque lines and spicy skits stricken off the bill. The 14 members of the bureau are assigned to a regular round of all-night movies, cabarets and burlesque houses.

"We are not particularly strict," said Capt. Henry, "but we do seek to eliminate absolutely obscene jokes, suggesting postures and improper dancing. We also hope to aid young and delinquent girls."

New Gasoline Fuel Discovered in France Is Not Inflammable

PARIS.—"White spirit" is the new fuel for gasoline motors, automobiles or aeroplanes, which does not possess the high inflammability of gasoline recently discovered by Paul Dumanoir, a French chemist.

Frenchmen have long been in quest of something to avoid the loss of life which occurs almost daily by the accidental ignition of fuel in motors. The point of combustibility of this new product is about 85 degrees Fahrenheit and has been used in automobiles and aviation motors where its inflammability has been tested with good results. Flaming matches were dropped into an open receptacle containing the liquid but were immediately extinguished.

Broadcasting calls for intense concentration and I find I am more comfortable and "at home" when enjoying a cigarette. I am fully convinced that there is nothing injurious to the voice in doing this—otherwise I wouldn't do it—and I find the height of smoking enjoyment in Lucky Strikes.

J. Andrew White

"This Is WJZ"—A Voice Millions Hear

Clear, resonant, appealing, J. Andrew White's voice is constantly safeguarded

AS the dean of radio announcers, J. Andrew White's voice is known to people throughout the land. Mr. White has won a large following of admirers because of the constant dependability of his voice, ever in perfect condition. He smokes Lucky Strikes, both for finer flavor and throat protection.

Lucky Strikes have become the favorites of men whose priceless voices thrill their audiences, as they have with the millions because, first, they afford *greater enjoyment* and second, they are certain not to irritate even the most sensitive throat.

The world's finest Turkish and domestic tobaccos, properly aged, perfectly blended, give them their richer flavor.

But in addition, a costly extra process—toasting for 45 minutes—develops the hidden flavors of the choicest tobaccos and at the same time removes all "bite" and harshness.

Smoke Lucky Strikes. They give added pleasure—you'll like them.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of Magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

HOUSE "FARM BLOC" TURNS TO EAST FOR SUPPORT

SOUTH QUITS M'NARY-HAUGEN BILL FORCES

Cotton-corn Relief Alliance Apparently Smashed.

SEEK OTHER AID

Measure Has Not Been Endorsed by Jardine.

By William S. Neal.

WASHINGTON, Jan. 14.—With the cotton-corn farm relief alliance apparently smashed by the defection of southern congressmen, house "farm bloc" leaders today turned to the industrial east for support of the 1927 edition of the McNary-Haugen bill.

New and unexpected aid already is springing up among eastern representatives, Representative Haugen (R.) of Iowa, chairman of the house agriculture committee, declared.

"Many members who have been against farm relief right along have come to me and said that the farm slump is affecting business all through the east and something must be done," said Haugen.

"We will get more votes from this quarter than we ever have. They know that you can't sell shoes to the farmers unless they are making money."

Haugen refused to admit that the cotton belt congressmen would hold out against the measure while Representative Aswell (D.) of Louisiana, asserted that the south would never stand for the equalization fee on cotton.

"The fee under the McNary-Haugen bill would have to be $10 to $15 a bale next year and that would mean taxing the cotton planters $180,000,000" said Aswell.

The revised McNary-Haugen bill, providing for a federal farm board backed by $250,000,000 to handle agricultural surpluses, has not received the public endorsement of Secretary of Agriculture Jardine, Representative Strong (R.) of Kansas, who has frequently conferred with President Coolidge on farm relief, however, believes that the president would sign the bill.

"The president has repeatedly told me that he desires to see helpful farm legislation enacted," said Strong. "This bill does not entail a government subsidy, nor does it put the government in business. I believe it would receive favorable consideration from Mr. Coolidge."

Representative Tincher (R.) of Kansas, a consistent opponent of the McNary-Haugen bill, declared that a poll of the house disclosed that the measure would be easily defeated.

A vote is expected within two weeks.

Seeks Release of Boy.

After the reunion in which tears of sorrow mingled with tears of joy, Edward and his mother left the county jail. First, the boy was taken to the barber, then to a shoe dealer, next to a clothier and haberdasher, and furnished with a complete new outfit.

At the county jail yesterday, Mrs McCoy met Attorney S. W. Crawford, who was in Lisbon on other business. After hearing the woman's story, Crawford promsed that he would "go the limit to keep the two boys and their mother united."

The mother repeated her story before Judge W. F. Lones this morning.

"I'll pay everything if Russell can be saved from going to the reformatory," promised Mrs. McCoy. "I will take both boys back home with me and we will start life anew. I will see to it that they learn a trade of their own liking and they will want for nothing."

Shortly before noon today Judge Lones, after hearing the mother's appeal, presented by Attorney Crawford and opposed by Prosecutor R. M. Brookes, declined to suspend Russell's reformatory sentence.

Mrs. McCoy said that she talked to Ridgley, the father of her two children, following her arrival in East Liverpool but she went to Lisbon alone where the happy reunion occurred.

The two boys, Mrs. McCoy learned, had been told that they were brothers but the relationship never had been established to their satisfaction.

Deny Deportation Plan.

WASHINGTON, Jan. 14.—Charlie Chaplin, film comedian, will not be deported if his wife, Lita Grey, wins her divorce against him, department of labor officials said today. They denied reports from Los Angeles that immigration officials were watching the Chaplin case with a view of deporting him to England.

It was pointed out that in order to deport Chaplin, who is a British subject, it would be necessary for him to be convicted of a crime involving moral turpitude. The divorce case, being a civil action, would not afford grounds for deportation, despite the serious charges it contains, officials said.

REPORTS FROM STOCK MARKETS

NEW YORK, Jan. 14.—Speculative interest was directed to the railroad stocks in early trading today by the announcement of the projected amalgamation of the Great Northern and Northern Pacific, with the possible addition of Burlington and Colorado & Southern, after a series of negotiations extending over six weeks.

Lehigh Valley held the center of the stage, its new advance to above 110 representing the clash of the competitive buying of powerful railroad magnates, with New York Central on one side and the Delaware and Hudson and Mr. L. F. Loree on the other side. Control of this road is being sought by purchase of stock in the open market, and present holders are clinging tenaciously to their stock in expectation of much higher prices.

Northen Pacific and Great Northern, having in the fore part of the week discounted the effect of today's announcement, were comparatively quiet, though Northern Pacific moved up about a point and Colorado & Southern 2 points.

The oil stocks were active and firm, with Standard of New Jersey reaching a new high for the year to date, and Pure Oil, Sinclair, Simms, Marland Barnsdall and Mid Continent fractionally higher. An increase of 25 and 30 cents a barrel in Pennsylvania crude oil was announced today, but the gasoline markets were slightly reactionary.

ment's attitude is that "principles cannot be arbitrated."

Marines Occupy Towns.

Meanwhile, as the senate wrangles in criticism and defense of the Kellogg policy in both countries, the marines in Nicaragua are proceeding steadily about the business of occupying the country.

At the direcion of the state department, the marines are pursuing a campaign of "complete saturation" in Nicaragua. They now occupy and control the entire coast lines of the country, Pacific and Atlantic, and are steadily occupying new towns in the interior. It will not be many days, at the present rate of expansion, until they control every city of any size in the little republic.

As fast as they occupy the declare neutral zones and thus disarm both the Diaz and Sacasa forces. The Sacasa revolt is being slowly strangled to death—thus far without the cracking of a marine rifle—and the process, when complete, will leave Diaz in supreme command.

La Follette Leads Fight.

Unless Borah's plan of a new election is adopted, Diaz will remain in power—with marine support—until the next general election, which is in 1929.

While the state department is cool to his proposals, there was evidenced today some senate interest in them. The Democrats appeared favorably impressed, and there was talk about a resolution which would put the senate on record as favoring a new election.

The Insurgents who are bitterly opposed to Secretary Kellogg's policy, planned today to keep up a drum-fire attack on it from the senate floor.

Deny Kellogg's Charges.

MEXICO CITY, Jan. 14.—A vigorous denial of Secretary of State Kellogg's recent charges that Mexico was seeking to establish a Bolshevist hegemony of Latin-America was made today by Foreign Minister Saenz.

As evidence that the Mexicon government was not seeking to spread the doctrines of the Soviet, Minister Saenz quoted from President Calles' warning to Soviet Foreign Minister Chitcherin in 1925, declaring that Mexico would not tolerate the abuse of her hospitality by persons active in spreading propaganda supporting principles to which the Mexican government did not subscribe.

SANDUSKY, Ohio, Jan. 14.—Charles O'Hare, 45, Columbus, engineer, and James Curry, 36, Columbus, fireman, were seriously scalded when their engine, pulling a Pennsylvania passenger train, left the track and turned over here today.

Workmen had difficulty rescuing O'Hare, owing to a great volume of escaping steam. His head, neck and shoulders were veritably cooked. Curry's injuries were less serious.

CHAPLIN TELLS GIRL REPORTER HIS TROUBLES

Lita Has Been Very Cruel Says Charlie.

HATES COMBAT

Film Comedian Denies he is Worth Sixteen Millions.

By Sarah Brown.

ABOARD TWENTIETH CENTURY LIMITED, ENROUTE TO NEW YORK, Jan. 14.—"She has been very cruel to me," the man whom Lita Grey Chaplin is accusing of infidelity, cruelty, and dozens of other startling abuses, sat in his drawing room on this train early today, and, as he idly flipped a deck of cards in a game of solitaire, talked to me alone for over two hours.

"Cruel is the only word that expresses it," said Charlie Chaplin, as the cards slipped through his slender, delicate fingers and the landscape outside hurried by a black blur while he discussed philosophy, life, religion, fate—and love.

"I hate combat—I hate bickering and fussing. But now—now that such utterly vicious, viperous lies have been told about me—it's a case of standing with one's back to the wall and fighting it to a finish.

"Terrible Lies" in Bill.

"Lita's action was so sudden and so unprovoked. The statements in her bill were terrible—terrible lies. When the time comes I can prove it—a man can't work night and day, writing, acting and directing, as I have done, and have time for all or even any of the things she says I have done.

"That's why I say she's cruel to me. I have been patient with her, and have done my best to make her happy. Why she should turn, and with such venom, do all the spiteful, vengeful things she has done I don't know.

"All I can say about it is that she can't really hurt me. No one, as long as he knows he has done right, and has nothing to shrink from in guilt, can be hurt by such a situation."

He pushed the cards away from him suddenly, and the face which has made countless thousands laugh seemed suddenly very old, very tired and unspeakably sad. It was after circus hours, and the clown had dropped his mask.

Dreams Never Come True.

"I can't tell you what a home—a real home and a family mean to me," he said." A house filled with beautiful things is worse than nothing when you have to live in it by yourself, but to have a wife—a sympathetic comradely person, and children—to have that would be all I'd ask of life.

"Now—well, I've tried to make that dream come true. Perhaps that's the trouble with your most perfect dreams. They never come true.

"Do you know, I never had any real unhappiness until I became rich and successful—cold — disappointment—despair—those things are nothing compared to the staggering blows that hit you in the heart—hypocrisy, treachery and slander. Before I knew my friends took me for what I was. Now I can sometimes feel greedy fingers reaching for the gold they think I possess—which, by the way, is far from being sixteen millions of dollars. That's ridiculous.'

No Ban on Chaplin Films.

DAYTON, O., Jan. 14. — Films in which Charlie Chaplin is starred will continue to be seen on the screen in Dayton, in spite of the seriousness of the charges preferred by Mrs. Chaplin in her suit for divorce.

Sporadic suggestions to bar Chaplin productions failed to met any well founded support. Members of the city administration indicated strongly they would raise no ban against the movie man.

1,800 DANCE AS VIRGINIA GARDENS OPEN

Homer Laughlin Employes Give Party at Rock Springs.

BOWER OF BEAUTY

Public Dancing is Arranged for Tonight and Saturday.

Despite adverse weather conditions, 1,800 persons attended the formal opening of "Virginia Gardens," new dancing pavilion at Rock Springs park last evening, when employes and friends of the Homer Laughlin China company were guests.

Patrons for the affair, which was one of the most successful social function ever conducted by the Laughlin company workers, were Mr. and Mrs. E. L. Carson, Mr. and Mrs. J. M. Wells, Dr. and Mrs. A. V. Bleininger and Mr. and Mrs. Arthur Wells.

The remodeled dance hall, upon which C. C. Macdonald, leasee of the park, has expended approximately $22,000, attracted much favorable comment. The ceiling of the pavilion is attractively latticed, and imitation wisteria has been artisticly interwoven to produce the garden effect. The columns are in beige, while an attractive color scheme is in Miami red, lavender and green. Hanging ledges overllow with flowers and vines, and in which colored lights are reflected. Plate glass mirrors are arranged on the posts, archways and other places about the spacious hall.

The orchestra pit is located in the center of the dance floor. This is illuminated with pretty colored lamps. Entrance to the pavilion is through the center of the building. A refreshment stand is operated at one end of the hall.

C. C. Macdonald, park owner, welcomed the visitors at the opening dance last evening. The park manager also received a large bouquet of flowers from Harry C. Baker, of the Harry C. Baker company, amusement park construction engineers, who is spending the winter in Havana, Cuba.

A number of amusement park operators were guests of Mr. Macdonald last night. They included Paul Morris, manager of Rockford park, at Schenectady, N. Y.; Lloyd Thomas, head of Playground park, South Bend, Ind.; L. B. Lodge, former manager of Silver Lake park, Cuyahoga Falls; R. E. Haney, manager of Fairyland park, Kansas City, and Vernon Keenan, chief engineer for the Harry C. Baker company, who is in Chester to assist in the rebuilding of the summer resort.

Sam Smolin's orchestra, consisting of eight talented musicians, rendered the music. This orchestra broadcasts from the WADC station, Akron, and from WTAM, Cleveland.

Public dances will be held tonight and again on Saturday night and also on Tuesday, Thursday, Friday and Saturday of next week. The pavilion also will be available for private dances.

Other improvements, which Mr. Mcdonald is making to the park before the opening of the summer season, will include a 2,500-foot long coaster ride, a $22,000 merry-go-round which will carry 15,000 lights and other amusements. Landscape gardeners are at work beautifying the grounds. The boating lake is to be dredged and a motor boat, in the shape of a swan, to be purchased for excursion trips. Improvements are also being made to the swimming pool.

Masdonald is now constructing a home in the grove overlooking the lake. The house, which will be log in design, is being erected by French-Canadians with logs shipped to Chester from New Brunswick, Canada.

"Victory Sunday" To be Celebrated in Churches of City

"Victory Sunday," marking the seventh anniversary of the adoption of national prohibition, will be celebrated in a number of East Liverpool churches on January 16.

Benefits of prohibition since the adoption of the 18th amendment and the efforts of "wet" interests to legalize the manufacture and sale of light wines and beer will be discussed by the pastors.

The prohibition amendment became effective January 16, 1920 after the legislatures in 46 states ratified the proposal.

CHICAGO, Jan. 14. — Judge K. M. Landis, high commissioner of baseball, today flatly denied published reports he was investigating the 1922 world series between the New York Giants and Yankees.

WORSHIP HOUSE IS ERECTED IN EIGHT HOURS

Tabernacle Church of Christ Ready for Dedication.

FIFE REVIVAL

Evangelist Arraigns Sin in Sermon Last Night.

The Tabernacle Church of Christ addition, erected by volunteer labor in eight hours yesterday, is ready for dedication at 3 o'clock Sunday afternoon.

Dr. Clyde Fife, who, with his brother, Bob, are in charge of an evangelistic campaign there, will preach the first sermon in the enlarged East End house of worship tonight. The subject will be, "Destruction Without Remedy."

Delegations from East End Laughlin plants will attend the service.

The tabernacle was given the O. K. of Service-Safety Director J. W. Moore, who inspected it yesterday.

A large furnace has been installed, but no sawdust will be put down today until the frost has been dried out of the ground.

Today at noon the Fife brothers gave a concert in the high school. "I have been entertaining schools and colleges for 17 years in all parts of America and never had a finer reception for Bob and me than we have received from the young people of East Liverpool," said Dr. Fife.

The sermon last night was a terrific arraignment of sin in high places as well as in low places. The text was "What then shall I do when God rises up and when He judges me, what shall I say?"

"If as good a man as Job would not curse God and die and this man was troubled in his soul as to his hope at the judgment, what then, Oh God, must be the cause for anguish on the part of sinners, backsliders, libertines and tinhorn sports who regard nothing as sacred and trample the love of praying mothers under their feet and rush headlong past the churches to hell?" asked Dr. Fife.

"Don't criticise me for building this board tabernacle and mauling sin like thunder and lightning while men far on in sin have rushed past the church doors of this city for years and now pause to hear what it is all about.

"I thank God I will not have to die but once. I have been away from home most all my life preaching. I started when a boy. My little children hardly know they have a father except the few days between meeting I can love and pet them at home. But, Oh, may God give it to me to die in peace at home, surrounded by those who know and love me best—the old boys with whom I have fished and hunted and loafed. Bob and I lead a hard and lonely life brightened only by the love of kind hearted people who pray for us.

"Oh, how I wish I could be saved for my irreligious friends! If by my death tonight I could unite the churches of this city and lead its unsaved business to know my Saviour, I would gladly go home to Mary and the children in a pine box."

Then the Fife brothers with a tenor guitar accompaniment, sang 'My Log Cabin Home," dedicated to the old log cabin 10 miles from the native home of Abe Lincoln in Hardin county, Kentucky, where they were born.

Dr. Fife and his brother will spend Saturday, their rest day, in Pittsburgh where they will confer with committees on future engagements.

Action Aftermath of Crash in Which Girl Was Killed.

OCCURRED IN FALL

Petition Alleges Car Was Traveling 45 Miles an Hour.

An action seeking $25,000 damages for the accidental death of Pauline Johnston, of Wellsville, was filed today in common pleas court, Lisbon, by Attorney N. A. O'Grady, in behalf of Harold C. Johnston, as administrator of the estate of Pauline Johnston, 10, Wellsville, who died as a result of injuries sustained when struck by an automobile driven by Harold R. Driggs on October 12, last.

Driggs, defendant in the action, is employed by the People's National bank.

The petition alleges that Driggs' car was traveling at the rate of 45 miles per hour in the vicinity of Fifteenth street and Lincoln avenue, Wellsville, when the fatal crash occurred. The car got beyond his control, the petitioner charges, and struck Pauline Johnston as she was crossing the street.

SEEK COURT'S PERMISSION TO SELL CHURCH

Baptist Church Trustees File Request at Lisbon.

WOULD PAY DEBTS

Present Income Insufficient to Meet Obligations.

The income from the members of the First Baptist church of Wellsville is not sufficient to meet current expenses and to discount the obligations of the congregation, according to a petition filed in common pleas court, in which the trustees seek the court's permission to sell the property and pay all debts.

Trustees signing the application are Houston Hodulett, Mark E. Carter, J. C. Mosley, Lee Smith and Nelson Clark. The petitioners are represented by Foulks & Stevenson of East Liverpool.

It is related in the petition that the congregation owns one-half of lot 17 in Richard Aten's addition to the City of Wellsville, and that the property is not now being used for religious purposes. By the sale of the property the trustees announce they will be able to liquidate all obligations now owing by the congregation.

PLAN SPECIAL SUNDAY MEETS

Afternoon Sessions to be Held in Christian Church.

Two special meetings are scheduled for Sunday afternoon in the First Christian church in connection with the evangelistic services now under way there. One of the meetings will be for women, the other for men.

The women will convene at 2:30 o'clock in the auditorium while the men's session will be held in the assembly room at the same hour.

Mrs. L. E. Lee will address the women, speaking on the subject "Women and the Kingdom." Mrs. Lee has addressed many gatherings of this nature.

"Fishin' on the Wrong Side of the Boat" will be Rev. Lee's subject at the men's meet. The services will be public.

Evangelistic services will continue throughout next week, beginning each evening at 7:30 o'clock with special speaking and music.

SALINEVILLE

The W. C. T. U. of Salineville met recently at the home of Mrs. Helen Hill on Main street. The devotional service was conducted by Mrs. Mabel H. Martin. Rev. W. S. Martin offered the prayer. In opening the discussion Mrs. Martin spoke on "Then and Now," showing the difference between the days of the open saloon and with them closed. Mrs. Haverfield read "The Bootlegger's Code." Mrs. Martha Patterson spoke on how the truth was some time twisted to mean just the opposite of what was meant. Rev. Martin spoke on "Prohibition Gains."

The president, Mrs. Haverfield, took charge of the business session. It was planned to observe the seventh anniversary of the 18th amendment Sunday evening at the Presbyterian church at 8:15 o'clock. Communications were read from the county president, Kittie L. Rothwell, and the national president, Mrs. Florence D. Richards, Columbus. The hostess served tea.

Fire originating from a stove in the dining room, damaged the home of Mrs. J. B. Hutson, Tuesday at her home, two miles east of Salineville. Mrs. Hutson was slightly burned in extinguishing the flames.

Papers on which clothes had been laid to dry caught fire from the stove and when Mrs. Hutson entered the room flames were shooting toward the ceiling. Rugs were burned and a portion of the baseboard charred. The timely arrival of Mrs. Hutson probably prevented the destruction of her home.

A playlet, "It Must Be Love," will be staged at the opera house, Tuesday and Wednesday, Jan. 18-19, under the auspices of Division No. 1 of the Missionary society of the United Presbyterian church. The same society will hold a candy and bake sale Saturday, Jan. 15, at John Hart's store on Main street.

The fourth number of the lyceum course under the auspices of the high school was held on Tuesday evening, consisting of a playlet, "To The Ladies." A large house enjoyed the play. There were three acts, with four scenes. The cast of characters: Leonard Beebe, Elsie Beebe, Chester Mullins, John Kincaid, Mrs. Myrtle Kincaid and Tom Baker.

The fifth and final number will be Wednesday, February 9. "Chief Strongheart" will be the attraction.

TENANT FILES $10,000 SUIT FOR DAMAGES

Mrs. Clydia Crawford Asks Court Hearing.

CLAIMS INJURIES

Porch Floor Gave Way, Allegation of Plaintiff.

Because of the injuries she sustained by falling through a porch floor, $10,000 damages were sought by Clydia Crawford against Ida Bunting Rainey, in common pleas court. The petition of the plaintiff was filed by Attorney Raymond Knepper.

It is declared by the petitioner that she was a tenant of a property of the defendant at 538 Broadway, Wellsville, April 28th, 1925, and that the defendant knew of the condition of the floor of the porch of the property which fronts on Broadway.

At about 6 o'clock the evening of April 28th, 1925, the plaintiff declares that as she stepped from the door of her home onto the porch she fell through one of the portions of the porch floor and was injured, and that these injuries are permanent. She also relates that one of her legs went through the hole in the porch and up to her knee, and that she was laid up for a period of 13 weeks.

IS THERE NO RELIEF FROM SKIN TORTURE?

Must I Continue to Suffer the Unbearable Itching?

Are you one of those unfortunates who are going through life suffering with a skin disease, making you uncomfortable, making you less efficient, interfering with your working hours, ruining your sleep? You may have tried many things without relief. Why not try S. S. S.? For more than 100 years it has been giving relief in many forms of skin diseases. Thousands of letters of gratitude prove its worth.

"I feel so happy for what S. S. S. has done for me that I want others to know about it. I suffered twenty long years from eczema. At times the itching was unbearable. During that time, I used all kinds of salves without receiving any real benefit. After taking six bottles of S. S. S., I was cured of this dreadful disease. I recommend S. S. S. to anyone suffering from eczema, because I cannot praise it enough for what it has done for me." Cleophas Forte, Soldiers and Sailors Home, Quincy, Ill.

S. S. S. is purely vegetable. It is extracted from the fresh roots of medicinal plants and herbs and gives to Nature what she needs in building you up so that your system throws off the cause.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Merchants with great institutions in big cities will before long me establishing branches in the same cities. Make a note of this prediction.

A NUMBER of English villages are swept with a pox epidemic such as has not been seen in nearly half a century, 58 cases in one place, 15 in another. Like some Americans, many English people have decided that "vaccination is all nonsense." It is better than genuine smallpox, however, and fortunately a few smallpox cases always provide a wonderful cure for the anti-vaccination nonsense.

Rev. C. E. Rostofer in Charge of Christian Church Services.

Rev. C. E. Rostofer, of Ashtabula, O., preached to a large crowd last night at the revival services in the First Christian church on the subject, "The Saving Faith."

He spoke in part as follow: "Faith is the most misunderstood word in the English language. It is an ambiguous word because it is so comprehensive. Faith embodies three distinct things. First, a simple credence or belief of testimony which we call historic faith. Most everyone possesses such a faith in Jeus Christ. In the second place faith embodies reliance or trust. Such a faith lays hold of the heart, the seat of desires, affections and emotions. Nine-tenths of the infidelity of the world is infidelity of the heart. Unbelief is not purely intellectual, but a disease of the heart."

"Men and women profess their cold intellectual belief in Christ and then treat him as though he had no existence. Faith that does not convict of sin, lead to repentence, change the heart and the desires is not a saving faith, nor the faith illustrated in the new testament. In the third place faith involves a spiritual apprehension, an insight and farsight. It brings the distance near and then makes the invisible seen. The highest faith is that conviction of the existence of a home of the soul beyond the grave the assurance of the reality of an unseen spiritual world. The faith that apprehends these things becomes the foundation of christian character."

Vocal numbers were given by Miss Edna Wilson, and the Shingleton sisters.

Rev. Rostofer will have as his subject tonight, "Christian Baptism." C. G. Woods will sing a solo.

Elks and Damascus Battle For League Honors Here Tonight

Highs Facing Hard Contest At Salem

Red and White First Stumbling Block in Path to County Scholastic Title.

THE biggest stumbling block in the path of the East Liverpool high school basketballers to the Columbiana county scholastic championship will be encountered tonight when the Blue and White plays its first Salem engagen nt of the season, at Salem.

The Red and White combine is one of the fastest aggregations turned out at the north county institution for a number of years and a victory, consequently, would mean a whole lot to Coach Lorah and his charges.

Salem stopped Wooster, Alliance and Akron East among other noteworthy performances during the current campaign and victories of this nature are not achieved by medicore teams.

The high school outfit, after a couple of bad weeks at the outset of the campaign, managed to hit its stride in time for the Akron battle and can realize that the Rubber City lads were no set-up.

The Blue and White has one county victory to its credit with Lisbon the victim. East Palestine is likely to furnish a couple of hard games, but the contests with Salem will determine, without question, who's who in county scholastic cage circles.

M. P. PASSERS DROP OPENER

Lose to Presbyterians in Church Loop Debut.

Making their initial appearance in the Sunday school basketball circuit, the Methodist Protestants bowed to the Presbyterians in a hard fought engagement last night on the M. P. court. The final count was 26 to 21.

The Presbyterians got away fast and this helped them considerably as the two teams went down the stretch to the wire. At the half way mark the Presbyterians held a nine point margin, the count being 18-9.

Two contests are billed for tonight on the Y. M. C. A. floor. The Baptists will tangle with the Lutherans and the Christians will meet the United Presbyterians.

N. Johnson chalked up high run of 24 for the evening.

Two matches are billed for tonight also. H. Daher will clash with B. Osborne and B. Hanna will take on C. Price.

Game's All Right, Avers Rockne, so Why Fool With it

SAN FRANCISCO, Jan. 14.—Knute Rockne, Notre Dame football coach, was enroute to South Bend today after a short visit here subsequent from his return from Honolulu.

Before he left he paused long enough to make several pungent remarks concerning those who would change the present football rules, saying, among other things, "that we now have a mighty good game, so why fool with it."

WARD IS TRADED TO WHITE SOX

CHICAGO, Jan. 14.—Chicago baseball fans took new heart today over the coming American league pennant race, following the announcement that Aaron Ward, Yankee second baseman, had been traded to the White Sox to fill the shoes vacated by Eddie Collins. Ward comes to the Sox in exchange for John Grabowski, utility catcher, and Ray Morehart, infielder. No money was said to have been involved in the trade.

BRUINS ARE EASY FOR CHICAGO FIVE

CHICAGO, Jan. 14.—After toying with the Chicago Bruins in the first half of the professional basketball game here last night, the New York Celtics swept through the final period in their real form and won the game, 42 to 26. Three thousand local fans turned out to see Ralph "Moon" Baker, last year's all American halfback from Northwestern university, make his debut in professional basketball. Moon played well but did nothing sensational.

SENIORS TRIM ROOMERS, 46-36

Gym Class Runners-up Now in League Race.

Y Senior basketballers took the runners-up position in the Y league race last night when they scored a 46 to 36 victory over the Y Dormitory gang.

The game was fairly fast, the Seniors outclassing the Y roomers in the first half, while in the final periods the dormitory aggregation had a little bit of the edge on their opponents.

The Dormitory men were the first to score, Vodrey breaking into the scoring column with a field goal. Canne evened it up for the Seniors with a double decker. Clarke put the Y roomers in front with a double marker. Canne shot two foul goals through, tying the score. Hancock got a double pointer giving the Seniors the lead. After that the Seniors kept in front, leading by a tally of 29 to 16 at half time.

In the final periods the Roomers put up a better brand of basketball and outscored their opponents, but the lead that the Seniors gained in the first half was too much for them to overcome.

All the Seniors took a hand in the scoring, Canne, McGraw, and Kidd being the leading Seniors performers.

Clarke, Vodrey and Wise were the luminaries for the Dormitory team. Lineups and summaries:

Seniors		Dormitory
Hancock	F	Clarke
Sayre	F	Wise
McGraw	C	Vodrey
Kidd	G	Krieger
Canne	G	Weaver

Substitution—Zacharis for Weaver.

Field goals—Canne 7, Sayre 4, Hancock 4, McGraw, Kidd 2, Clarke 9, Vodrey 5, Wise 3.

SCHENKEL COPS CLOSE CONTEST

Charles Schenkel defeated Rodebaugh, 25 to 24, in a close three cushion billiard match last night at the Academy parlors. Rodebaugh substituted for McDowell who originally was scheduled to oppose Schenkel.

Tonight's contest will bring together Harry Bennett and Cleo Farrar. The latter has been playing a good stick, holding the tourney high run record of eight and he will meet no mean opponent in Bennett. The match will start at 8.

IN MEMORIAM.

In loving memory of our dear Son, Gordon Miller, who was called away two years ago today, January 14, 1925.

Today recalls a loved one gone to rest
Those that think of him today are the ones that loved him best
The flowers we place upon his grave may wither and decay
But the love of him that sleeps beneath will never fade away.
When the evening shadows are falling and we are sitting all alone
To our hearts there comes a longing —if he only would come home.
We think of him in silence, no eyes can see us weep,
But many a tear is shed while others are asleep.
More and more each day we miss him
Friends may think the wound is healed
But little do they know the sorrow
That lies within our hearts concealed.

How to Keep the **EGG** *Producing Strain*

Regulate NOW while your birds are fighting rough weather, getting little sunlight, and doing their heaviest laying.

Especially important is keeping up the strength of breeders. Don't let them burn out!

Insure fertility and hatchability of the eggs from your best layers. Two pounds of Regulator to 100 lbs. of mash tones them up—brings out full pep and vigor—puts birds in full bloom.

Keep the egg strain in your flocks. Regulate now and insure livability in the chicks from your own eggs.

REMEMBER THIS QUARTET? WELL, ONE OF 'EM IS BACK

Eddie Collins

Recognize the four men in the group above? Probably you do. They formed the famous old $100,000 infield of the Athletics, back in the halcyon days prior to 1915. Left to right they are Frank Baker, Jack Barry, Eddie Collins and Stuffy McInnis. Now Collins is back with Connie Mack, to play second base again—at least part of the time. Lower photo shows him as he is today.

WELTER RIVALS CLASH AGAIN

Dundee-Roberts Billed for 10 Rounds at Garden.

By Davis J. Walsh.

NEW YORK, Jan. 14. — It will be Ketchel and Papke, Gans and Frank Erne and John Dundee and Jackson all over again at the Garden tonight, just a return engagement of an age-old act in which the man who has been knocked out attempts to prove that he can come back to beat the gent who knocked him. They never come back, according to the old-oaken moss covered bromide, but it doesn't apply to Stanley Ketchel, Joe Gans and rubber checks and it may be that Joe Dundee is immune, too.

Anyhow, Joseph tonight is scheduled to frolic again with Eddie Roberts, of Tacoma, Wash. It is supposed to go ten rounds but you never can tell about those things. As I remember it, the last Roberts-Dundee match was scheduled for ten rounds and didn't last one, Joseph accepting a right hand full on the nutmeg in the first minute of play.

The punch ruined half of the bootblacks and fruit peddlers between here and San Francisco and acted as a temporary injunction restraining Joseph from further conducting himself as the official challenger for the welterweight championship. The title in question might very well ride with the result of tonight's fight. Although neither man is a champion—yet.

The idea, it seems, is rampant, or something, that Pete Latzo no longer can make the welterweight limit of 147 pounds without holding his breath and, when you get a champion in that predicament, he is not long for this life, so to speak.

The boys are rallying around Dundee for tonight and the odds are 7 to 5 that he will win. Apparently they are imbued with the idea that that San Francisco knockout was tinctured with iodine and just didn't count. They further have achieved much solace by recalling that Ketchel returned to knock Papke into the right field bleachers and that Gans, stopped in 12 rounds by Erne, later was able to reverse the feature in exactly one.

Why they should confound Joe Dundee with Gans and Ketchel is a bit beyond my feeble resources. From what I have seen of Joseph, he is a fair fighter who might become champion provided no one else is better. They say he is one of the rising young men of the profession and he may need to be if Roberts annoints him with another right.

The pro-Dundee crowd support their guess on tonight's number by declaring that Joseph always was a slow starter anyhow but would hasten himself this time. In other words, they are looking for a Charley Paddock performance from a Ping Bodie. My guess? A fair enough fight, with Dundee winning on points.

CLAIMS HORNSBY OWES HIM $92,000

ST. LOUIS, Jan. 14. — Threatening court action unless a settlement is made by Rogers Hornsby, former manager of the St. Louis Cardinals, Frank Moore, a betting commissioner of Ft. Thomas, Ky., returned to this city and arranged for a conference with the baseball star's lawyer for this afternoon regarding an alleged debt of $92,000.

Moore claims Hornsby owes him this amount for money advanced the player to pay debts incurred on horse race bets and to make a payment on an apartment house which the latter bought in St. Louis.

William F. Fahey, Hornby's lawyer, reiterated his client denied owing the debt and that he advised his client not to recognize the claim.

FARMER GUILTY IN MAN'S DEATH

Perry C. Gatewood is Convicted of Manslaughter.

GALLIPOLIS, O., Jan. 14.—A jury found Perry C. Gatewood, Gallia county farmer, guilty of manslaughter late yesterday in the killing of Hiram Johnson, a tenant of Gatewood's on a farm near Crown City.

The men had quarreled over a crop of tobacco they had raised on Gatewood's farm. Gatewood beat his victim to death with the butt end of a shot gun, crushing his skull.

Johnson left a wife and six children.

COUNT SAYS HE IS VINDICATED

Salm Claims he is Winner in Rogers Suit.

NEW YORK, Jan. 14.—Count Ludwig Salm, recent plaintiff in a separation suit against the former Millicent Rogers, Standard oil heiress, feels that he has been vindicated "in the court of public opinion."

This was the assertion today of his lawyer, Herman B. Goodstein, commenting on the settlement of the suit out of court.

It is understood the count will receive from his father-in-law, Colonel Henry H. Rogers, $325,000, with the stipulation that Salm will drop any claim he may have against his wife's parents for alienation of her affections.

"The count brought this suit for two purposes," Goodstein said. "One was to vindicate himself in the eyes of the public. The other was to prove he had been abandoned unjustifiably and was entitled to part custody of the child. I think he has succeeded in both objects.

"The court hearing established that the countess had no reason whatever for leaving him. It also showed his fitness for the child's custody."

Vote To Continue Fair.

DEFIANCE, O.—Although the deficit of the Defiance county fair board has reached $3,300, the directors have voted to continue the exhibition and will provide a more extensive program to celebrate the 50th anniversary of the event during the autumn of 1927.

Officers of the 1927 organization are: Carl M. Hart, president; F. M. Birdsall, secretary; Ed Partee, vice-president, and M. E. Sinn, treasurer.

FIGHT COUGHS AND COLDS

Play Safe
Use this Natural Remedy

GERMS that cause colds are easily destroyed by the body that's fit and well. Nature sees to that. It's the tired body, the weakened system that can't fight the microbes of coughs, colds and grip.

Get your stomach right and keep it right—then reasonable care will keep you free from colds. Dillingham's Plant Juice is a pleasant-tasting, natural corrective of stomach irregularities. It stimulates liver and bowels, and keeps your stomach free from poisonous waste matter—it purifies your blood, tones up your system, and helps Nature to ward off coughs and colds.

Compounded only from plants, herbs, leaves and other natural products, Dillingham's Plant Juice works in Nature's way. See what Mr. William Wohlrad of Newark, N. J., thinks of this more than thirty year old family remedy:

"While suffering from catarrh of the stomach, I was afraid to go to a show or movie, as I would get coughing and could not stop. Everyone would turn around and look, and I felt so ashamed I would have to leave the theatre before the show was half over. I started with Plant Juice, and before my first bottle was gone I knew I was on the right track. Now my stomach is like a new one, and never gives me the least bit of trouble. I feel full of pep and energy. It's five years ago since I first used Plant Juice, and I have never had a day's sickness since."

"Heet" instantly relieves rheumatic or neuritis pain in any joint, muscle or nerve, whether in the arm, shoulder, neck, legs or body. "Heet" is a clean, pleasant liquid; doesn't stain, blister or irritate the skin and costs only 60 cents at any drug store.

JOHN MORRISON USES LINIMENT KEEPS FREE OF ACHES AND PAINS

This Famous Ball Player Tells What Is Best For Aches and Pains

LINIMENT KEEPS YOU LIMBER, SPRY, SUPPLE

Men and women who suffer with lame, stiff, achy backs, joints or muscles, and would like to be free of such troubles should take a tip from Big League Stars like John Morrison of Pittsburgh "Pirates."

John Morrison says:—"Mike Martin could charge ten times what he does for that liniment of his and not a soul would refuse to pay it. It is the finest liniment made for aches and pains and no mistake."

Big League Stars couldn't play ball if crippled up with aches, pains, swollen, stiff joints or rheumatism. Whenever they get that way no time is lost in quickly relieving the trouble. Mike Martin's Liniment is a higher priced, more expensive liniment than ordinary remedies, but it is worth the difference—quicker, sure, safer and better—more pleasant to use also. It is unquestionably the best money can buy. High priced "Stars" wouldn't fool with anything but the best.

With each bottle of Mike Martin's Liniment you buy at the drug store comes a folder telling just how this famous trainer treats various aches, pains, joints and different rheumatic troubles, lame back, etc. 25 years' experience makes Mike Martin probably the world's greatest expert on such troubles. Take John Morrison's tip. Get a bottle at drug store or write name and address plainly and send with dollar bill for large bottle postage paid to—Mike Martin, Trainer, Washington Ball Club, Brentwood, Md.

This wasn't the girl he'd married

HE WOULDN'T have believed so short a time could make such a shocking difference. What had happened to break her health? To steal her glorious vitality?

What a different story if people realized how constipation wrecks health and vigor! Steals charm. Speeds the aging years! For no one need suffer from constipation. Kellogg's ALL-BRAN is guaranteed to relieve it.

How ALL-BRAN works

The bulk in ALL-BRAN absorbs moisture and carries it through the system. And it gently distends the intestines — cleansing; removing poisonous wastes. ALL-BRAN is all bulk—which is why it produces complete results. In a part-bran product the quantity of bulk is too small to accomplish more than partial results. That's why doctors recommend ALL-BRAN.

Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

Goodbye to dangerous pills

How different from habit-forming pills and drugs that become worthless unless the dose is constantly increased. ALL-BRAN is delicious with milk or cream—and add fruits or honey. Let it soak a few moments to bring out all its nut-like flavor. Use it in cooking. Mixed with other cereals. In soups. Try the recipes on every package.

Be sure to get genuine Kellogg's—the original ALL-BRAN. Sold by all grocers. Served at hotels, restaurants. On dining-cars. Made by Kellogg of Battle Creek.

LEWIS STONE IN SCREEN HIT

Anna Q. Nilsson is Bride in Picture at American.

Never take a bride on an aerial honeymoon!

This admonition to prospective bridegrooms comes as a result of the lessons taught to Lewis Stone in his role as a major of the Royal Flying Corps in "Midnight Lovers," the First National production, which opened a two-day run at the American theatre last night.

Anna Q. Nilsson plays the role of the frightened bride, who goes aloft on her honeymoon with an air-mad husband. He shows her all the tricks of his trade in order to impress her with his importance as a flying man, and only succeeds in making her deathly sick, and very antagonistic towards aviators.

That is only the beginning of the trouble in "Midnight Lovers," for after Stone has gone to war, the girl realizes that she can't love an aviator, so takes up with a gentleman flapper, played adequately by John Roche.

The husband comes back from the war only to find his domestic affairs in a worse state. In straightening them out, Stone does some of the best pantomime of his career and Miss Nilsson is more charming than ever.

The completed cast included Chester Conklin, as a funny butler; Harvey Clark, as a blustering divorce lawyer; Dale Fuller, as an overbearing maid, and Purnell Pratt as a nonsensical Englishman.

"Midnight Lovers" was directed by John Francis Dillon from a scenario by Carey Wilson. The First National production was made under the management of John McCormick.

Boston Marriage Figures Show Cupid Loating On Job

But 8,607 Licenses Were Issued During 1926, According to Registrar's Report.

BOSTON.—While the clergymen of Boston are not exactly starving because of a lack of marriage fees, yet, according to City Registrar Edward E. McGlenen, they cannot boast that business in that line is picking up with any great speed.

With the closing of the year 1926 it was revealed that but 8,607 marriage licenses had been issued during the twelve months. To the itinerent eye of a bachelor that may seem like a tremendous figure, but to those who issue the little parchments it shows but an increase of 6 over the year previous.

It is the opinion of Registrar McGlenen that Cupid did a great deal of loafing in Boston last year. An increase of six is not a normal progression he says and to that showing he attributes various reasons.

Woman's increasing economic independence, high rents and the general high cost of living are a few reasons advanced. Upholding the feminine end of the bargain, Mrs. Jennie Loitman Barron, lawyer, lecturer and member of Boston's school committee explains the condition. She believes that the modern girl is more exacting in choosing husbands and insist on a higher standard of male specifications.

Under normal conditions Registrar McGlenen says, marriages should show an increase proportionate to the population growth. But, with $50 rents staring at $35 a week men coupled with the cost of other expenses of marriage the male element are not plunging into matrimony with the haste of years ago.

Going into the condition farther Registrar McGlenen says that marriage figures reflect pretty accurately the condition of business in the city. The matrimonial stagnation is but a parellel condition with that of the quietness of business in Boston.

Haskin's Letter

(Continued from Page Four.)

or its cold, or whether it's hot, we're going to have weather, whether or not."

The McCarl audit covered the books and records of five Washington dealers who at one time refused to permit such an examination but were finally concinced that it would be unwise for them to force the committee to court action.

"The audit clearly reveals that many of the figures sumbitted by the coal dealers themselves at the hearings last winter as typical of costs, were entirely erroneous, being much too high," says the report. "The committee would have been misled if it had accepted the dealers' statements and figures.

"A study of the charts and statements prepared by Mr. Smith reveals clearly that during the strike period the dealers advanced their sale prices more than their costs increased, with the result that during such period their gross profits greatly increased. It is also apparents that their profits on substitutes for hard coal were greater than on anthracite, so that the retail dealers undoubtedly benefited by strike conditions, while the consumer suffered.

"It is equally clear that the gross margins obtained by Washington dealers were much in excess of those obtained by dealers generally in other parts of the country."

The Estimated Fair Profit.

At the hearings last winter the local dealers placed themselves on record as believing and contending that $2.72 a ton was a fair gross profit. This was slightly in excess of the actual average gross margin of 273 dealers as ascertained by the Coal commission—$2.67 a gross ton. It was also materially more than the profit declared to be fair by one of the big coal operators of the nation, who testified that if he added $2.50 a ton to the cost of freight plus mine price for the delivery of coal within a reasonable radius, he would be selling it at a very good profit to himself. The committee in its report makes no effort to determine what a fair profit would be, but contents itself with reviewing the increased margins taken by the five dealers under examination.

One of the largest dealers increased his margin on briquettes from $3.72 a ton to $6.70 during the strike period; on high volatile Fairmont coal from $2.70 to $4.60; on Pocahontas egg and other low volatile coal from $3.15 to $5.90 and from $3.60 to $5.80; on coke from $2.20 to $5.30; while on run of mine, including some slack, the gross margin was reduced 25 cents a ton.

Another dealer had a gross profit of $130,000 on sales totaling $545,000, with net profits of $28,500. However, this dealer had officers' salaries aggregating almost $15,000 and was allowed $7,000 for depreciation and $4,100 for an income tax payment.

In fact, the committee says, the auditors were more than liberal with the dealers in the matter of salaries, selling costs, and allowances for depreciation and income tax. Every cost item that was within reason was allowed, and it should be borne in mind that the aggregate net profits for the year reported for the dealers excluded the salaries for officers and income taxes.

"These salaries usually go to a single family, or comparatively few families, controlling the various companies," continued the report, "so that in considering net profits considerations must also be given to the salaries withdrawn under the guise of expenses."

In giving their so-called voluntary testimony at the hearings last winter many of the local dealers conveyed the impression that they were barely breaking even on the coal they sold during the strike. Instead of being profiteers they viewed themselves as patriots unselfishly rendering a great public service. And they submitted their figures to prove their contention.

Good News for Skinny Folks

Increase Your Weight 10 or 15 Pounds.

When you are underweight, it is the surest sign that the food you eat does not give you the nourishment you need to be strong and healthy and full of vitality. Put some good solid flesh on your bones, nourish the tissues properly and you will feel like a fighting cock.

Nothing acts so quickly and surely to correct the nutritive processes as a scientific digestive stimulant. Science tells us that stimulation of the digestive organs supplies the nourishment our bodies must have to grow healthy and to have the power to resist disease and to fight the breaking down of the life forces.

A remarkable stimulant-tonic has been devised for just such conditions as these. It is delightfully palatable and is prepared by an old Virginia concern in business for nearly a century. Druggists and physicians have come to know this stimulant as "Old Monticello Tonic." Get a bottle today from your druggist, take a small wineglass full before your next meal—see how much better you eat—feel the glow of stimulated functions throughout the body. A few days' treatment will bring a quick change in run-down conditions and overcome lack of energy.

FAIR DIRECTORS HOLD SESSION

The directors of the State Fair association held their regular meeting Wednesday, preparatory to the annual meeting of the stockholders to be held on January 27.

The report of the year's business was submitted to the directors, and approved. While the details of the report were not made public, it is understood that the State Fair association for 1926 had a prosperous and successful year, and that the receipts from the fair proper were larger than in 1925, in spite of the fact that Thursday, the big day of the fair, was marred somewhat by bad weather.

Receipts from other departments of the state fair activities were not so large in 1926 as in 1925. However, the total volume of business was fairly satisfactory, and leaves the state fair directors in a position to go ahead and make further improvements and additions to the biggest and most useful show of the kind given in the Ohio valley.

WOLFE FUNERAL ON SATURDAY

Messages of Sympathy Over Newspaper Owner's Death.

COLUMBUS, O., Jan. 14.—Funeral services for Robert F. Wolfe, publisher of the Ohio State Journal and the Columbus Dispatch, and one of the leading figures in the business and political life of Ohio, will be held at 2 p. m. Saturday, at Broad Street Presbyterian church here, it was announced today. Wolfe was killed at noon yesterday in an accidental fall from a window in his office in the Columbus Dispatch building, to the street, five floors beneath.

Rev. S. S. Palmer will officiate at the services, and burial will be in Green Lawn cemetery here.

Today messages of sympathy and condolences were pouring in from all sections of the nation to members of the family and associates of the dead publisher.

President Coolidge, former Governor James M. Cox, Governor Vic Donahey, M. Koenigsburg, president of International News Service; Andrew Squire, noted Cleveland attorney; J. R. Nutt, Cleveland banker, and dozens of others prominent in every line of activity throughout the nation, sent expressions of sympathy at the tragic death of Wolfe.

More than 1,500,000 square feet of floor space are being added to the present plants of the Oakland Motor Car Company at Pontiac, Michigan, which will be devoted exclusively to the manufacture of Oakland and Pontiac Sixes.

$15,000,000 more
to Meet the demand for Oakland and Pontiac Sixes

212% Increase
1925 Production . . 43,018
1926 Production . . 134,089
Oakland and Pontiac Sixes

Scarcely twelve months ago Oakland was only one of many manufacturers striving for preeminence. Today it ranks among the largest builders of motor cars in the world. Responsible for this tremendous growth have been a continuous series of triumphs resulting in a record-breaking 212% increase in business over 1925.

With the advent of the past year, came the introduction of the Pontiac Six. So great was the demand it created, that in six months Pontiac Six production had *exceeded the greatest full year record previously scored by a new make of car.* And by the end of the year, with Pontiac production reaching 76,523 cars, that record had been surpassed by more than 100%! In July came the Greater Oakland Six with 77 refinements, featured by that epochal engineering development—the Rubber-Silenced Chassis. Again America paid a wholehearted tribute to Oakland engineering vision. And again, in every section of the land, Oakland sales leaped upward, necessitating the unprecedented production of 57,566 Oakland Sixes—nearly 15,000 more than in 1925—and surpassing any previous record in Oakland's twenty year history.

Now, with its position securely established, Oakland-Pontiac bids for new and greater heights—for over fifteen millions of dollars are being invested to provide for greater production.

This staggering sum—the combined cost of a new Pontiac Six plant, with a capacity of 1,000 cars a day and of important expansions in the facilities devoted to the manufacture of Oakland Sixes—definitely assures Oakland-Pontiac buyers of even greater value in the future. For it makes possible the employment of even more efficient methods of production—even greater precision in construction—even more exacting standards in the never-ending inspections which govern every phase of Oakland-Pontiac manufacture and which have been so instrumental in achieving worldwide good will for these two quality Sixes.

In the strictest sense, this huge investment represents more than an expression of confidence by General Motors in Oakland principles of design, manufacture and distribution.

It stands as a tangible pledge to the public at large that in fundamental goodness and fundamental value Oakland Six and Pontiac Six will continue supreme in their fields!

Pontiac Six, $825 to $975. Oakland Six, companion to Pontiac Six, $1025 to $1295. All prices at factory. Bodies by Fisher. Easy to pay on the liberal General Motors Time Payment Plan.

FREE Treatment for DEAFNESS Head Noises from Nasal Catarrh

Sidelights on Original Treatment for Deafness, Head Noises from Nasal Catarrh

Literally thousands of people from different sections of the United States have used this special, original home treatment and have found relief from distressing head noises and restoration of good or normal hearing.

A huge file, containing hundreds of letters from sufferers in all sections of the country has been placed in Dr. Coffee's offices. Here are kept the records of every case treated, making it easy at all times to investigate the various reports. In this way, a careful check can be maintained, showing the results of the treatments in individual cases.

Contrary to the general belief, deafness and head noises, due to nasal catarrh often lend themselves to treatment and relief very readily. While the peculiar construction of the ear in its relation to the nasal passages creates a condition which often results in deafness, its very ease of access also makes possible a ready relief. This was the basis of the home treatment, as perfected by Dr. W. O. Coffee, which has resulted in relief to thousands of sufferers from deafness and head noises from nasal catarrh, and from catarrh itself.

Dr. W. O. Coffee appeals especially to those who are just beginning to find that they are losing their hearing in one ear and when catching cold usually find the other ear affected. Many who are now stone deaf could have been made to hear again if their cases had been properly cared for at the first showing of dullness of hearing.

Many cases of deafness are also caused by dry catarrh—a type which gives no noticeable discharge or symptom.

Insurance authorities place deafness in the list of those defects which increase the risk of the insured life. Many railway accidents, injuries in the street from automobiles and in practically every walk of life are due to deafness or at least defective hearing. This condition in many cases can be corrected—if the trouble is primarily due to nasal catarrh; and nasal catarrh is responsible for practically 90 per cent of the deafness today, authorities state.

Mr. George Bishop of Sask., Canada, says, "I had been growing deaf for 12 years and had been to some of the best hospitals in all Canada. I even submitted to operations without success. I spent hundreds of dollars but gradually grew worse. I became so bad that people had to talk directly into my ear, if I was to hear. By using Dr. Coffee's treatment, my hearing was greatly benefited in one month's time. I wish that every sufferer everywhere who is afflicted as I was would give this wonderful treatment a test. It is wonderful."

Mrs. Mona McBride of Illinois, says, "This is to certify that since having scarlet fever when a little girl, I have been hard of hearing, and for the past four or five years I have been almost entirely deaf in one ear. A few months ago my other ear began to discharge. I found it to be abscessed and discharging a foul fluid. Nothing seemed to stop it and finally I tried Dr. Coffee's treatments. To my surprise and delight the hearing in the ear which was partially deaf for nearly 20 years has returned and the abscess has healed. Now I can hear a conversation six feet away. I didn't believe it possible and I certainly advise anyone suffering from deafness to try this treatment. I obtained relief in a short time."

DEAFNESS IS OFTEN DUE TO CATARRH OF THE AIR PASSAGES

Competent Authorities Blame Nasal Catarrh for 90 Per Cent of Deafness Throughout the World

A Free Trial Treatment To All Those Who Suffer

DAVENPORT, Ia., Jan. 14.—

According to authorities who base their assertions on years of research and actual medical observation and practice, 90 per cent of the deafness in the world today is due to catarrh—catarrh of the air passages.

Not only is catarrh of the air passages, generally termed nasal catarrh, blamed for deafness, but at its door are laid many other diseases, such as stomach catarrh, toxic conditions of the body, and other generally diseased conditions.

This May Be Relieved

This condition may be relieved. It is possible now that Dr. W. O. Coffee, a physician of this city, has developed a home treatment for deafness, head noises from nasal catarrh and catarrh itself, to remedy the trouble — to get rid of the catarrhal condition in many cases and make hearing possible once more. It has been proved that in many severe cases this is true; and this claim is borne out by the results later mentioned in this article.

Great Success

Phenomenal success has attended Dr. Coffee in his work since he first developed this home treatment. It is stated that more than 500,000 cases of deafness, head noises due to nasal catarrh and catarrh have been treated by this physician in all sections of the country and out of this number a huge amount have reported complete satisfaction.

Many of his patients have been people whose hearing was bad in one ear and was rapidly spreading to the other. With every cold, the hearing grew worse. Quickly this condition was relieved; benefited not only for the time but the catarrhal condition was bettered and in many cases all traces of this serious disease disappeared.

Deafness strikes at young and old. It can develop from a number of different causes; but sufferers are seldom concerned with the origin of the trouble. What they are vitally interested in is obtaining prompt relief —and this home treatment of the Davenport doctor has demonstrated its efficacy with young as well as old. By this method many who were destined to a life of handicap, due to catarrhal deafness, were made normal once more.

Improvement General

Physicians state, authoritatively, too, that doubtless other diseased conditions are often combated and relieved by conquering the catarrh; for once the trouble is stemmed, the poison no longer drains into the human system and the blood stream no longer bears the strain of throwing off this poison. As a result it is better able to combat new disease and the general physical condition of the sufferer bettered in addition to the relief given for deafness.

Physicians will tell you that any disease that generates poison has its effects not only locally but throughout the entire body. In the case of deafness or head noises resulting from catarrh, the poison seeping into the system can often cause more serious and lasting trouble than the ear itself.

500,000 Treated for Catarrhal Deafness, is Doctor's Record

A remarkable record has been established by Dr. W. O. Coffee, the Davenport, Iowa, eye, ear and nose specialist, who has developed the treatment for deafness and head noises from nasal catarrh, and catarrh itself.

During his 45 years as a practicing physician, he has probably established a record which no other physician in the country can match. His records show that he has treated more than 500,000 people suffering with deafness, head noises from nasal catarrh, and catarrh, and eye diseases. These people live in all sections of the country and have been treated, in the majority of cases, at home, using the home treatment for this distressing condition, as developed by Dr. Coffee.

The results of these different cases have been gone over and compiled and the merits of this home system of treatment have been absolutely proved. When the average physician has treated fifty cases with one definite system of treatment, it is sufficient to establish what it will do. Dr. Coffee has thousands of such cases. Dr. Coffee has published a book on Deafness and Head Noises; he will send a copy with his free trial treatment.

Amazing Letters Received from Many Who Thought Their Cases Hopeless

Jan. 14. DAVENPORT, Ia.,

From among the thousands of letters received by Dr. Coffee, the deafness and catarrh specialist, from people who tell of their relief from deafness and head noises from nasal catarrh and from catarrh, he has selected at random a number which are reproduced below.

All of the letters shown in this article are on file in his office.

The letters practically as they came from the writers, follow:

After 17 Years

"Mrs. M. S., aged 64, of St. Louis, came to me personally with a history of losing her hearing about 48 years ago, caused from a catarrhal condition that started when she was a girl. She had been treated by the best doctors in St. Louis, and finally went to Berlin, Germany, and France, trying to find relief from the deafness.

"She was practically totally deaf in her right ear when she came to me and almost in the left. She hadn't heard a telephone in 17 years, and people usually had to write in order to communicate with her. She complained of the most intense head noises. She started my treatment and used it regularly. At the end of two months' time she appeared to be hearing no better; in two months and a half, she sat down and cried, she was so discouraged; at three months she thought she could hear a little better. She kept up the treatment for about a year, and at the end of that time could hear a telephone plainly in either ear, the first time in 17 years.

"This was one of the most severe cases of deafness that I ever treated, and it shows the possibility of what may be done if the structures of the middle ear are not damaged by the disease. She had a long standing catarrh, but fortunately, almost miraculously, the ear drums were not seriously damaged."

Relief at 86 Years

"Mr. J. C. P. of Elmer, Mo., wrote that he suffered with catarrh of the nose and head. Made him deaf quite rapidly. He suffered with severe head noises. He used my home treatment five months, and wrote me that he was completely relieved and says 'I will surprise you by telling you that I am 86 years old'."

Dr. Coffee says that most people past 80 years of age do not obtain complete relief from long standing deafness and catarrh. Usually they are not strong and vigorous enough to throw off long standing weaknesses.

P. A. N. of Galesburg, Illinois, writes: "Just a few lines to let you know that your medicine has done me lots of good. The noise in my head is all gone now, and I feel fine. I am an old lady, 82 years old, and I thank you very much for your trouble." She used only one month's treatment.

Mrs. Fanny B. W. of McKenney, Va., writes she was afflicted with head noises and with itching of the ears, periodical deafness, sometimes almost totally deaf. "I have not been deaf since using your treatment. Your medicines are wonderful." She used three months' treatment.

A. W. B. of East Chicago, Ind., writes, "I have used the one month's treatment received from you just as directed. It has relieved me of all my annoyance from ear noises and throat trouble. I can truthfully say with thanks to you that it is a wonderful treatment for catarrh of the nose, head and ears." He used one month's treatment.

Catarrhal Deafness Now Successfully Relieved by Davenport Doctor

Prepares 25,000 Trial Treatments Which Will Be Given Away Free to All Who Suffer from Deafness, Head Noises or Dullness of Hearing Due to Nasal Catarrh, or Catarrh Itself

Davenport, Ia., Jan. 14.— (Special.)—A proved treatment for deafness, dullness of hearing from nasal catarrh and for catarrh itself has been developed by Dr. W. O. Coffee, an eye, ear, nose and throat specialist of this city, which has resulted in the restoration of hearing to thousands.

Basing his treatment on the fact that in practically 90 per cent of the cases, loss of hearing is due to a catarrhal condition, Dr. Coffee by concentrating his efforts in that field, has proved that restoration of hearing is not a myth. Literally thousands of people from all sections of the United States have taken his original home treatment and have been greatly benefited. Letters from hundreds of these people thanking the doctor for his treatment and attesting to the effectiveness of his work are on file in his Davenport offices.

Dr. Coffee does not claim that his original treatment will restore hearing to all cases of deafness; he says that if the deafness or head noises are caused from a catarrhal condition and the tissues of the middle ear are not damaged, the hearing can often be restored to real good or even normal. Basing his experiments in his office on this practical relief of these conditions, he has positively demonstrated and proved that the restoration of hearing to a great many people is an easy, practical fact for any sufferer to prove to himself at home.

Thousands of people in almost as many varying stages of deafness have used this original home treatment and many have found relief from distressing head noises and restoration of good or normal hearing.

Tells of Development

In telling of the development of this effective treatment for deafness, Dr. Coffee says: "More than 25 years ago, I began to suffer with head noises, dullness of hearing and with catarrh. I was rapidly losing my hearing. It was bad in one ear and with every cold it would get bad in the other. Slowly but surely my hearing was leaving me. I naturally tried every treatment that I knew of, as deafness in my profession would have been fatal to my success. After a great loss of time and when two operations had failed to give me permanent relief I calmed my fears and began to analyze the cause and effect of my trouble.

"Basing my treatment on the results of this study I evolved a system which I believed would remove the handicap of deafness if anything would. There was nothing magical about it. It was a logical, scientific treatment, and within a short time I began to improve. After some time, I was normal again.

"I did nothing spectacular; all I did was to slowly but surely remove the causes of the deafness, and when the causes were removed, I was able to hear again.

Relief to Thousands

"Acquaintances and friends of mine inquired as to the treatment, and soon I was overwhelmed with requests for the method. To treat this number of people in time allotted to office hours would have been impossible, so I was virtually compelled to develop a home treatment. After careful consideration I perfected a course which I believed to be effective. I allowed a number to try it at home, without the assistance of a physician, and found that they could do the work with almost the efficiency and the good results that a doctor could.

Tells of Home Treatment

"Changing the treatment and developing it—adding here and taking away there, after several years, the 'perfected home treatment' was developed. Now it is possible for every one, anywhere, with just ordinary household surroundings, to treat themselves for relief of deafness, dullness of hearing or head noises from nasal catarrh."

Thousands Tell of Relief

Because of the horror of deafness and because of the great number of people who are yearly afflicted with this terrible condition, it was hard at first for sufferers to believe that they could be helped by a simple home treatment. But the thousands of people who have been bettered by the treatment—which can usually be determined by using the free treatment alone—have at last established Dr. Coffee as a leader in his field. His name is known to former sufferers throughout the United States.

Explains Free Offer

To prove that this treatment is effective—that deafness, dullness of hearing, head noises from nasal catarrh and catarrh can be treated and banished at home, Dr. Coffee has determined to give away 25,000 trial treatments. He is making these announcements in newspapers throughout the entire nation and it is anticipated that the free demonstration packages will soon be gone.

Many people have been helped by using the free treatments alone; they have told others, and in that way the giving away of free treatments is justified by this physician. Many who have been bettered by the free treatments have written for more of the splendid method which removed the "bugaboo" and fear of being forever deaf.

Those who are suffering with deafness, dullness of hearing, head noises from nasal catarrh, may try free, at no cost to them whatever, this original treatment. Even the parcel post charges are prepaid by Dr. Coffee and the package arrives at the home of the sufferer free of all charges or obligations.
